

QUICK SETUP GUIDE

Charging Case for
Bluetooth Earbuds

NS-CAHCC02 / NS-CAHCC02-C

PACKAGE CONTENTS

- Charging case (with mobile battery pack)
- Micro USB cable (attached to the case)
- *Quick Setup Guide*

SAFETY INFORMATION

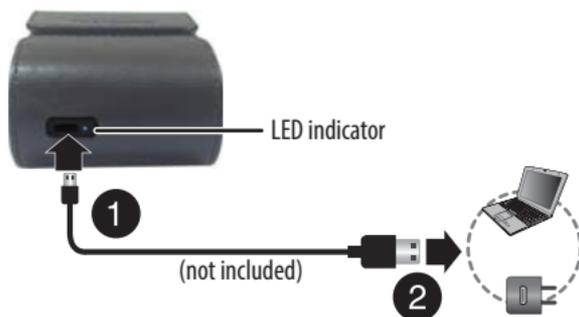

- Do not expose your mobile battery pack to heat, fire, or water.
- Do not modify, disassemble, open, drop, crush, puncture, or shred the mobile battery.
- This is not a toy. Young children should be supervised to make sure that they do not play with the mobile battery.
- Do not use the mobile battery while charging is in progress.

- Recharge the mobile battery before use if it has not been used for more than 90 days.
- Risk of fire and burns. Do not open, crush, heat above 140°F (60°C), or incinerate. Follow the manufacturer's instructions.

This product is safe for regular use under normal conditions. As with any device using electrical power, some situations may be unsafe and injuries or damages could result. To minimize or avoid unsafe conditions, please read and follow the instructions before using.

CHARGING THE MOBILE BATTERY
PACK

Fully charge your mobile battery pack before using it for the first time.

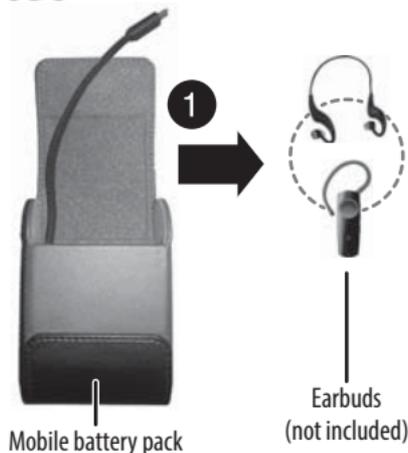

- 1 Plug the small end of a Micro USB charging cable (not included) into the mobile battery's IN port.

- 2 Plug the large end of the cable into a USB port on your computer, car charger, or wall charger (not included). The mobile battery begins charging and the LED indicator lights red.

Notes:

- The LED turns blue when charging is complete.
- The LED blinks red when the mobile battery pack's battery is low.

CHARGING YOUR BLUETOOTH
EARBUDS

- 1 Plug the built-in Micro USB connector inside the case into your earbuds (not included). Your earbuds begin charging.

2 Put the earbuds in the case.

Notes:

- If your earbuds use a charging cable other than a micro USB, you will need an adapter.
- The LED turns off once your earbuds are fully charged.

UNDERSTANDING THE STATUS LEDS

STATUS	LED
Battery pack charging	Solid red LED
Battery pack charged	Solid blue LED
Battery pack battery low	Blinks red

SPECIFICATIONS

- Input: 5V, 600mA
- Output: 5V, 300mA
- Capacity: 590mAh

LEGAL NOTICES

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
