

TIVO
BOLT VOX™
FOR CABLE OR ANTENNA

500 GB (Cable or antenna)
1 TB (Cable only)
3 TB (Cable only)

The all-in-one better TV experience designed for true fans of entertainment.

However you're watching, watch it better.

No more switching inputs or juggling remotes, TiVo BOLT VOX works with your cable service or HD antenna to bring live, recorded and streaming TV together¹ in one powerful 4K-compatible device.² BOLT VOX lets you easily watch and record your favorite shows, access popular streaming apps and comes with TiVo's time-saving, fan-favorite features that supercharge your TV experience. Like SkipMode®, which lets you zip past ads with a tap,³ and OnePass™, which finds every available episode of any series. TiVo BOLT VOX, for true fans of entertainment.

PRODUCT DETAILS

All-In-One

No more input switching or juggling remotes. Live, recorded and streaming TV in one powerful device.

SkipMode

Zip past ads with a single tap and get back to watching your recorded show.

OnePass™

Binge-watch better by easily accessing any series' every available episode with a single command.

OneSearch

Simultaneously search across live TV, recordings and streaming apps to find what you're looking for in a single command.

Mobile

Enjoy live TV and recorded shows on your tablet, smartphone or laptop.⁴

Voice Control

Use your voice to change channels, launch apps and search to find what you want quickly, simply and easily.

TiVo BOLT VOX functionality requires a TiVo service subscription. TiVo BOLT VOX features and functionality are not guaranteed and are subject to change without notice. Visit www.tivo.com for additional information and restrictions.

¹ Broadband internet connection is required to access and receive streaming content. Availability of third-party content from streaming sources is subject to change and certain third-party fees may apply. For example, Netflix unlimited streaming membership is required (and sold separately) to access Netflix content, and Amazon Prime membership is required (and sold separately) to access Amazon Prime Instant Video content. A Hulu subscription is required (and sold separately) to access Hulu content. Hulu is available only in the United States. ² 4K ultra high-definition capability requires 4K ultra high-definition content and 4K ultra high-definition capable television. Some apps may have additional 4K Ultra HD requirements and/or limitations. Netflix users should refer to nflx.it/4K. ³ SkipMode feature not available for all recorded shows. ⁴ Compatible tablets and mobile devices consist solely of an iPad®, iPhone® or iPod touch® device running iOS 7.0 or later, or an Android™ mobile device running 4.1 or above with a non-Intel or AMD chipset (sold separately). Not all recorded content can be streamed or downloaded to a laptop, tablet or mobile device (due to copy protection assigned by content provider and/or other technical limitations). Some recorded content can only be streamed/downloaded to your laptop, tablet or mobile device while you are on the same network as your TiVo BOLT VOX. Out-of-home streaming (a) will support streaming to only one of your devices at a time and (b) may not be available for all recorded content. ⁵ Actual high-definition recording capacity may vary, depending on television signal source, content, and other factors. ⁶ Streaming to other TVs within the home requires a separately purchased TiVo Mini VOX (with service included) for each TV. The TiVo BOLT VOX works optimally with up to four TiVo Mini VOX devices, and potentially with up to ten TiVo Mini VOX devices. A multi-network adapter (sold separately) may be required.
