

SONY

HT-ST9

Premium Sound Bar with Wireless Subwoofer

Unbelievable, audio performance, capability, and convenience are yours with the HT-ST9. Delivering immersive 7.1 channel surround sound from 7 amplifiers and 10 speakers for true cinema-style performance. Enjoy solo or stream throughout your home with multi-room functionality. Google™ Cast ready⁵, you can enjoy your favorite music apps, online radio stations, and podcasts.

Bullets

- 800W¹ 7.1 channel sound bar w/wireless subwoofer
- 7 amplifiers and 10 speakers yield incredible audio performance
- Expand your listening with powerful multi-room capability with SongPAL Link⁸
- Google™ Cast ready⁵ for easy streaming of your favorite music apps
- HDMI[®] with HDCP 2.2 to watch movies in brilliant 4K²
- Easy setup with 3 HDMI[®] in/1 out and ARC support²
- Stream audio from the bar to compatible Bluetooth headphones³
- LDAC™ for an optimized Bluetooth[®] audio streaming experience
- Supports Hi-Res audio (incl. DSD) playback via LAN, HDMI[®], and USB²
- DSEE HX upscales USB, Home Network, and streaming audio to near Hi-Res quality
- Navigate content & control w/the SongPAL™ mobile app⁴
- Multi-function remote control included

Features

Incredibly powerful home theater experience.

Brace yourself for a superb sound bar experience with audio fidelity that will make your favorite music, movies, and streaming content come to life.

Tuned by Hollywood sound engineers for incredibly immersive surround sound, 10 speakers powered by 7 discrete digital amplifiers, in concert with a wireless, front-firing subwoofer with passive radiator deliver the perfect, powerful and enveloping listening experience.

Built for superb sound.

7 specially tuned speakers deliver clear sound with minimal distortion, and three Super Tweeters generate a wide soundstage ideal for Hi-Resolution listening.

A plug and play subwoofer with dual passive radiators rounds out the mix, delivering precise and powerful low end from almost anywhere in the room.

Multi-room capability.

Easily expand and control your music across multiple, compatible speakers in separate rooms with powerful multi-room capability and intuitive SongPAL™ Link app functionality⁸.

Stream from your favorite apps with Google™ Cast.

Google™ Cast for Audio lets you listen to your favorite music apps, online radio stations, and podcasts from your smartphone, tablet, or PC on your AVR⁴.

With Google™ Cast for Audio, your phone, tablet, or PC is your remote control. Listening to music is as easy as the press of the cast icon. Search, play, skip, and turn up the volume directly from the apps you know and love⁴.

Easily connect to your devices with 3 High Definition inputs.

Enjoy superior high-definition quality, including 4K pass through with 3 HDMI[®] inputs. Connect HD devices like your cable box, Blu-ray[®] player and gaming console. HDMI TV connectivity with Audio Return Channel support ensures simple, one cable connectivity and maximum Audio/Video performance.

Also HDCP 2.2 compliant, this Sound Bar supports playback of copyright-protected 4K content, like blockbuster movies².

SONY

Easy setup.

While key-holes allow for easy wall mounting, without the need for separate brackets or hardware, the HT-ST9 can also sit on top of a TV stand or tabletop.

Ready to go at a moment's notice, the plug and play, wireless front-firing subwoofer can deliver a mean bass line from anywhere in the room.

Stream music from sound bar to wireless headphones.

Stream your favorite music from the sound bar directly to a pair of compatible Sony wireless headphones for personal listening pleasure.

Enhanced wireless listening.

LDAC™, a new Sony audio technology, allows for high quality wireless Bluetooth audio streaming. With 3x the data transmission capability, LDAC provides an enhanced wireless listening experience for all your music.

High-Resolution Audio playback. Move after LDAC/BT

Convenient DLNA (Wi-Fi®) and USB connectivity supports high bit rate 192k/24-bit WAV/FLAC audio playback, and even DSD. Additional file formats supported include: MP3, AAC, WMA, WAV192k, FLAC 192k, ALAC, AIFF and DSD (2.8MHz). Simply connect the compatible device to the sound bar and enjoy².

And with Sony proprietary D.L.L. (Digital Legato Linear) technology, you can enjoy your favorite digital audio files in high-quality brilliance.

Restored high frequency sound lost in audio compression.

DSEE HX offers natural sound with a spacious feel by revitalizing the audio signal and also restoring the high frequency sounds stripped by the audio compression process to near hi-resolution sound quality.

Turn your smartphone into a remote control.

Download the free SongPal app from iTunes® or the Google™ Play Store and use your iPhone® or Android™ devices with the SongPal app to control sound bar functionality including volume and input selection³.

Multi-function remote included.

A compact remote gives you total audio system control. Primary functions like power, source input, system volume, subwoofer volume, sound field, voice control and Bluetooth® playback controls are located on the top level while secondary audio, tone controls, and other functions are accessed using the menu key.
