

# GOAL ZERO NOMAD<sup>®</sup> 200

Like their namesake, our line of portable, foldable Nomad panels are designed for life on the move. The Nomad 200 provides up to 200 watts of solar to keep a Yeti power station charged and essentials from laptops to fridges to medical devices running for days on end.

## NEW FEATURES

**Four legs that prop up the panel** to keep it in place while solar charging and hanging loops to let you strap the panel to vehicles, tents, and more.

**Built-in APP charging cable** integrates seamlessly with Goal Zero Yeti Power Stations and stores away in our signature built-in mesh case for convenience.

**Chainable** with additional solar panels to let you collect even more power from the sun.

**Weatherproof design** built tough to withstand the elements.

GOAL ZERO

# NOMAD<sup>®</sup> 200
