Infrared Sensors activate EyeVac Home Automatically!

EyeVac Home was designed to fit seamlessly into any residence. EyeVac Home has a powerful 1000 watt motor that vacuums all forms of hair, dirt, dust and debris. EyeVac's sensors use the latest infrared technology to automatically activate the vacuum when hair, dirt, dust, or debris breaks the infrared beams. EyeVac automatically turns off when the debris has been vacuumed into the canister. EyeVac's dual air filtration, including a HEPA exhaust filter, ensures the return of clean air to the environment.

EyeVac is protected by US Patents 6,671,924/ 7,096,532/ 7,356,872 and other US and Foreign Patents Pending. EyeVac is UL approved (E186308). EyeVac is manufactured and distributed by JPauJones, L.P. For additional information or comment, visit www.EyeVac.com.
