Anti-Tampering Case

Adhesive Cable Holder

THINKWARE Accessories

Rear View Camera

All-Around Surveillance

Its small size was specifically designed for discreteness and ultimately, a cleaner installation - so that your average highway tailgater won't even notice.

- 1080p Video Quality
- 140° Wide Angle View
- 3M Adhesive for Secure Mounting

Interior Infrared Camera

Giving You the Inside View

The Infrared (IR) Camera is specifically designed to be used for interior re-cording.

- Invisible Infrared Lights to illuminate the interior
- 1080p Recording
- Wide recording angle

THINKWARE Accessories

GPS Tracker

Give Meaning to Your Videos

Embed crucial information such as the time, speed, and location data to your driving videos. In the case of an incident, you don't have to worry about recalling the specifics when you most need it.

- Allows the installation of the adhesive mount and external GPS tracker
- Custom security key to unlock the case to access the unit

MicroSD Card 16 / 32 / 64GB

Tested for Secure Data Storage

Fully tested and proven for Thinkware Dash Cams, the MicroSD cards are designed and tested for secure data storage.

- SPOR Technology for enhanced reliability
- MLC Technology for increased performance and durability

| Capacity | Approximate Recording Time for One-channel | Approximate Recording Time for Two-channel |
|----------|--|--|
| 16 GB | 124 min | 62 min |
| 32 GB | 248 min | 124 min |
| 64 GB | 496 min | 248 min |

THINKWARE Accessories

Hardwiring Cable

Always On Guard

Installation of the hardwiring cable enables the built-in Parking Surveillance Mode in your Thinkware Dash Cam, which records motion and impact incidents while you are away from your vehicle.

- Parking Surveillance Mode with Motion and Impact Detection
- Enables Time Lapse and Super Night Vision features (X550 and F770 only)
- Built-in Voltage Meter to prevent battery drainage (voltage adjustable)

Anti-Tampering Case

Extra Security

The new Locking Case accessory is a physical safe-guard against unauthorized access.

- Allows the installation of the adhesive mount and external GPS tracker
- Custom security key to unlock the case to access the unit
