

AmpPRO SUB
Advanced Digital Amplifier Interfaces

SUBWOOFER SOLUTIONS FOR OEM RADIOS

AmpPRO
SUB

Advanced Amplifier Interface

ADD AFTERMARKET SUBWOOFER

Allows for addition and control of an aftermarket subwoofer amplifier

CONTROL FROM FACTORY RADIO

Like it came from the factory, but incredibly BETTER!

PRESET AND EQUALIZED

Designed for the best possible sound by integrating with and optimizing factory EQ settings

PLUG AND PLAY HARNESSES

Allows for easy installation without permanent modification to the vehicle

AmpPRO SUB is available for select GM, Ford, Chrysler/Dodge/Jeep/Ram

Integration with today's advanced vehicle systems like databus controlled amplifiers can be difficult if not impossible. AmpPRO SUB products seamlessly integrate with the databus allowing for full control and optimum sound from a factory radio when adding aftermarket amplifiers.

WANT TO ADD MORE THAN JUST A SUBWOOFER?

CHECK OUT OUR OTHER **AmpPRO** SOLUTIONS AT PAC-AUDIO.COM TO ADD AN ENTIRE AMPLIFIED SYSTEM WHILE KEEPING YOUR FACTORY RADIO.
