

Catalyst® Waterproof Case for 44mm Apple Watch Series 4 Standard Band

PRODUCT DESCRIPTION

The Waterproof Case for 44mm Apple Watch Series 4 is precision-engineered to perform beyond your expectations so you can take your Apple watch with you on every adventure. With 18% stronger housing than the previous Series 3 version, the case offers superior protection for your Apple Watch.

This is the only Apple Watch case offering total 360-degree protection. Full functionality of your Apple Watch is maintained* with IP-68 waterproof protection of 330ft (100m) and MIL-STD 810G drop protection to 6.6ft (2m). It's fully sealed against water, dust, dirt, and snow with direct touch screen access, great for all adventures – wet and dry. The raised bezel protects the screen from scratches and impacts. Our patented True Sound Acoustic Technology™ allows audio to come through totally clear.

Not only is the case rugged, it's also stylish and incorporates a hypoallergenic silicone band that's both durable and comfortable.
