

VIDEO BABY MONITOR

3.5" WITH INTERCHANGEABLE WIDE ANGLE LENS

Keep Babies & Toddlers Safe with Night Vision, Two Way Talk Back, Room Temperature, Lullabies, Long Range and High Capacity Battery

Babysense™

- 3.5 INCH COLOR LCD DISPLAY
- TWO WAY TALK BACK COMMUNICATION
- CRYSTAL CLEAR DIGITAL VISION AND SOUND

- ENHANCED 2.4GHZ FHSS TECHNOLOGY
- ROOM TEMPERATURE MONITORING
- LONG BATTERY LIFE

Unparalleled stability & wide range

When it comes to baby monitors, you cannot afford to settle for all those cheaply-made monitors anymore. What you need is a 24/7 undisturbed connection with crystal clear audio & video. This is exactly what you get with the Babysense Video Monitor and its state-of-the-art 2.4GHz FHSS Technology paired with a supremely wide range of 960ft.

Highly detailed

The vivid 3.5" HD LCD color video screen and Babysense's very own interchangeable wide-angle lens give clearer & wider viewing area. You are sure to always know what's going on in your baby's room!

Your baby calm and well rested at all times

We know that your baby loves the familiar soothing sound of your voice, so we remastered our video baby monitor with superior 2-way talk back technology. Sing or talk to your baby in crystal clear sound or play lullabies and white noise sounds for a calm sleep.

Even at night

Use the 2x digital zoom with Manual Pan (360 degrees) & Tilt (90 degrees) to overview the situation at any given point, even at night using the Auto Infrared Night Vision.

Long battery life and notifications

Enjoy long battery life & super-fast charging with the Li-ion intelligent battery charging and battery level indicator. Get advanced notifications with Low/High-Temperature alerts and Out Of Range and Low Battery warnings.

WATCH, LISTEN AND TALK TO YOUR BABY

Secure interference free connection

Your baby calm and well rested at all times

Your baby deserves the best care, and it can't get better than with the premium **Babysense Video Baby Monitor**. The ultimate baby monitor is here to finally give you a true peace of mind when you do your day-to-day activities and your little angel is relaxing or sleeping in his own room.

✓ HAVE A SENSE OF CALMNESS knowing your little angel is safe & sound with the Babysense's 3.5" high definition color video baby monitor. We remastered the classic baby monitor design with state-of-the-art interchangeable wide angle lens and the latest 2.4GHz FHSS Technology for super-stable, ultra-secure connection and supremely-detailed digital vision & sound.

✓ WATCH YOUR BABY EVEN FROM OUTSIDE YOUR HOUSE as the baby monitor has ULTRA-LONG RANGE of up to 960 feet open space. When you get too far you'll get notified by the out-of-range warning.

✓ 100% CUSTOMER SATISFACTION, we at Babysense made the production of highest quality products our #1 priority from the very inception.

✓ DON'T MISS A THING, the cutting-edge Auto Infrared Night Vision is here to showcase what's going on at any hour of the night. On top of that, you can get alerts about high or low room temperature or use the 2x digital zoom with Manual Pan (360 degrees) & Tilt (90 degrees) to really see what's going on when there are movements.

✓ CALM, COMFORT & SING TO YOUR BABY with your own voice using the most advanced 2-way talkback communication technology. And when the baby can't sleep or needs to be calm, you can make use of the in-built lullabies with white sounds. It's a perfect match.
