

Print like you mean business

Bring professional-quality printing to your home office. HP OfficeJet Pro printers deliver consistent performance for everyday work tasks, making them a reliable choice. That way, you can focus on your work—not your printer.

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>
