## Triple Monitor Desk Stand with Full Motion Arms

ALL THE BELLS AND WHISTLES FOR YOUR WORKSTATION

This triple monitor desk stand allows you to install three monitors side by side. Its arm span is wide enough to install up to 24 inch monitors. Triple monitor set up is ideal for immersive gaming experience, as well as increased productivity. Installing three monitors side by side allows you to see more on your screens and prevent switching from one application to another. Elevating the monitors from your desktop allows better posture to prevent eye strain, neck and back pain that can be caused by improper desktop and monitor arrangement. This stand also saves valuable desktop space by elevating the monitors over your desk.

■ This full motion monitor mount allows you to independently adjust the position and angle of each monitor. The side arms can swivel 180 degrees. The monitor plates tilt up and down and rotate between landscape and portrait modes.

■ The U-shaped freestanding base is weighted to offer increased stability for the stand. The base can also be removed for grommet type installation on desk with a grommet hole.

■ It is a universal fit to virtually all monitor brands and models on the market with VESA bolting patterns.

**HEALTHY LIFESTYLE.** Turn your desktop into an ergonomic environment.

**PRODUCTIVITY.** Improve your productivity with triple screens. Get more done.

**EASY INSTALLATION.** Assembles in minutes. All hardware included.
