Quick Networking Guide

LNK7000 Series
HD Network Video Surveillance Recorder

LOREX ® BY **FLIR**

FLIR SECURE

STOP Before You Start:

- Make sure you have a router and high-speed Internet access (not included).
- Connect your NVR to your router using an Ethernet cable (see the Quick Connection Guide for details).
- Upgrade your NVR firmware and client software or mobile app to the latest versions.
- Please note that an upload speed of 2 Mbps is required for remote video streaming (3 Mbps and above recommended). Up to 3 devices may connect to the system at the same time.

---

1 Find Your Device ID

The **Device ID** is printed on a label on the top panel of the NVR.

Device ID: xxxxxxxxxxx

Record your information below:

DEVICE ID: _____

---

2 PC / Mac Setup

a Download and install the client software:

- **PC Users:** Download and install **FLIR Client 12 for PC** from **lorextechnology.com/support**.

- **Mac Users:** Download and install **FLIR Client 12 for Mac** from **lorextechnology.com/support**. Double-click to extract the software, then drag the software to **Applications**.

b Double-click the **FLIR Client 12 icon [ ]** on the desktop or Applications list.

c Enter the following information:

Field	Value
Device ID/IP	ecofb6978e16
Client Port	35000
User Name	admin
Password	••••••••

Login

- Enter the NVR's Device ID recorded in section 1
- Enter the NVR's Client Port (default: **35000**)
- Enter the NVR's user name (default: **admin**)
- Enter the secure password you created for the NVR
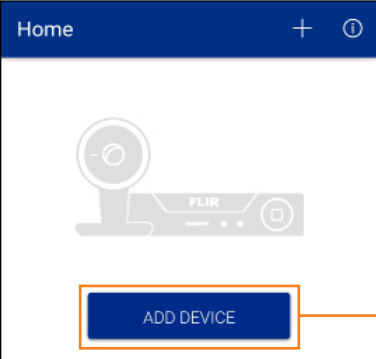

d Click **Login**.

e All connected cameras are shown on screen in the FLIR Client 12 home screen.
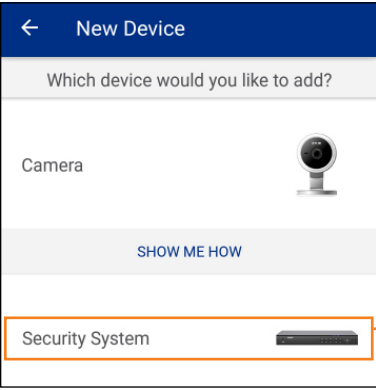

NOTE: For full instructions on how to use the FLIR Client 12 software for PC and Mac, see your NVR's instruction manual at **lorextechnology.com**.

LNK7000 SERIES

Congratulations! You can now view video from your cameras on your PC or Mac.

FLIR SECURE

3 Smartphone / Tablet Setup

a Install the free **FLIR Secure** app from the App Store or Google Play Store.

b Tap the **FLIR Secure** icon to open the app.

c Tap **Sign up** and enter your email address and password to create a new account.

d
Tap **ADD DEVICE**

e
Tap **Security System**

**f** Scan the QR code on the top of your NVR using the camera on your smartphone or tablet.

g Enter your NVR's user name (default: **admin**) and the secure password you recorded on the Quick Connection Guide. Tap **DONE** to connect.

h Tap **VIEW LIVE** to see video from all connected cameras, or tap one of the channels to see video from a single camera.

iOS	Android

Congratulations! You can now view video from your cameras on your smartphone or tablet.
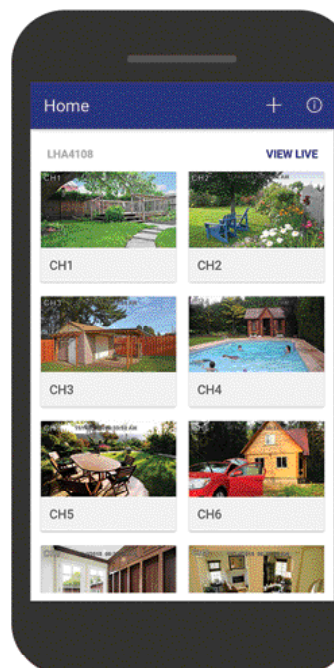

Troubleshooting

If you are having trouble connecting, try the following:

- Restart the NVR by disconnecting the power adapter, then reconnecting it.
- Ensure the NVR is connected to the router using an Ethernet cable and then restart the NVR.
- Double check the Username, Password, and Client Port.
- Ensure your NVR has the latest firmware.
- Ensure your mobile app is up-to-date.
- For slower Internet connections, reduce bitrate settings to CIF, 10FPS, 96 or 128kbps. See instruction manual at **lorextechnology.com/support**

Quick Reference

Default access information:
- Default user name: **admin**
- Default password: **00000000**

See the label on top of your NVR for your Device ID

Default system ports:
- HTTP Port: **80**
- Client Port: **35000**

If you have forgotten your password, contact Lorex technical support.
