## SmartThings Hub

### Product Copy

#### Product Headline

Connect wirelessly with a wide range of smart devices and make them work together.

#### Product Summary

- Turn your home into a smart home with a SmartThings Hub.
- Connect wirelessly with a wide range of smart devices and make them work together.
- Monitor and control connected devices in your home using a single SmartThings app for iOS or Android.
- Receive alerts from connected devices when there's unexpected activity in your home.
- Automate connected devices in your home and set them to turn on or off when doors are opened, as people come and go, and much more.
- Manage connected devices in your home with SmartThings scenes for Good Morning, Goodbye, Good Night, and more.
- Control connected devices in your home with voice commands using SmartThings and the Google Assistant or Amazon Alexa.

## SmartThings Hub

### Product Copy (continued)

#### Product Description

Turn your home into a smart home with a SmartThings Hub.

- Connect wirelessly with a wide range of smart devices and make them work together.
- Monitor and control connected devices in your home using a single SmartThings app for iOS or Android.
- Receive alerts from connected devices when there's unexpected activity in your home.
- Automate connected devices in your home and set them to turn on or off when doors are opened, as people come and go, and much more.
- Manage connected devices in your home with SmartThings scenes for Good Morning, Goodbye, Good Night, and more.
- Control connected devices in your home with voice commands using SmartThings and the Google Assistant or Amazon Alexa.

Requires an internet-connected Wi-Fi router or an internet-connected Wi-Fi router with an available Ethernet port, plus the free SmartThings app for Android (6.0 or later) or iOS (11.0 or later). Connected devices sold separately.

SmartThings works with a wide range of connected devices.

- Voice Assistants: Use the Google Assistant and Amazon Alexa to control a wide range of connected devices with your voice. Automate multiple devices at different times of the day by using scenes for Good Morning, Goodbye,

Good Night and more.

- Lights and Switches: Set connected lights and switches from Philips Hue, Cree, Sylvania Smart Home, LIFX, Leviton, and GE to turn on and off when you open doors, change brightness at the right moment, and much more.
- Speakers: Set connected speakers from Samsung and Bose to play your favorite song when you open the front door, turn off when you leave, and much more.
- Cameras and Doorbells: Set connected cameras and doorbells from Arlo and Ring to send you video notifications, turn on connected lights when there's a visitor, and much more.
- Door Locks: Set connected door locks from Yale, Schlage, and Kwikset to open when you arrive home, lock when you leave the house, and much more.
- Thermostats: Set connected thermostats from Ecobee and Honeywell to turn on when you open the front door, turn off when you leave home, and much more.

Look for the Works with SmartThings logo next time you're buying a connected device for your home, or visit [SmartThings.com](https://www.samsung.com/us/smartthings/) to see the full list of compatible devices.
