

Arq 1TM

Why Arq1?

Architecture, like technology, is something we all rely on to stay safe and feel inspired. We are **united** by its benefits and the integral role it plays in our daily lives. **Structured Protection** is what our intentional, methodical case design is based on. When constructing a building, every step is carefully planned to protect and shelter it's occupants. Just like our cases are **Structurally Designed** to protect your device from whatever life may throw at it.

All of our cases are designed for a reason, there is a blueprint, there is a **structure**, there is a **why**.

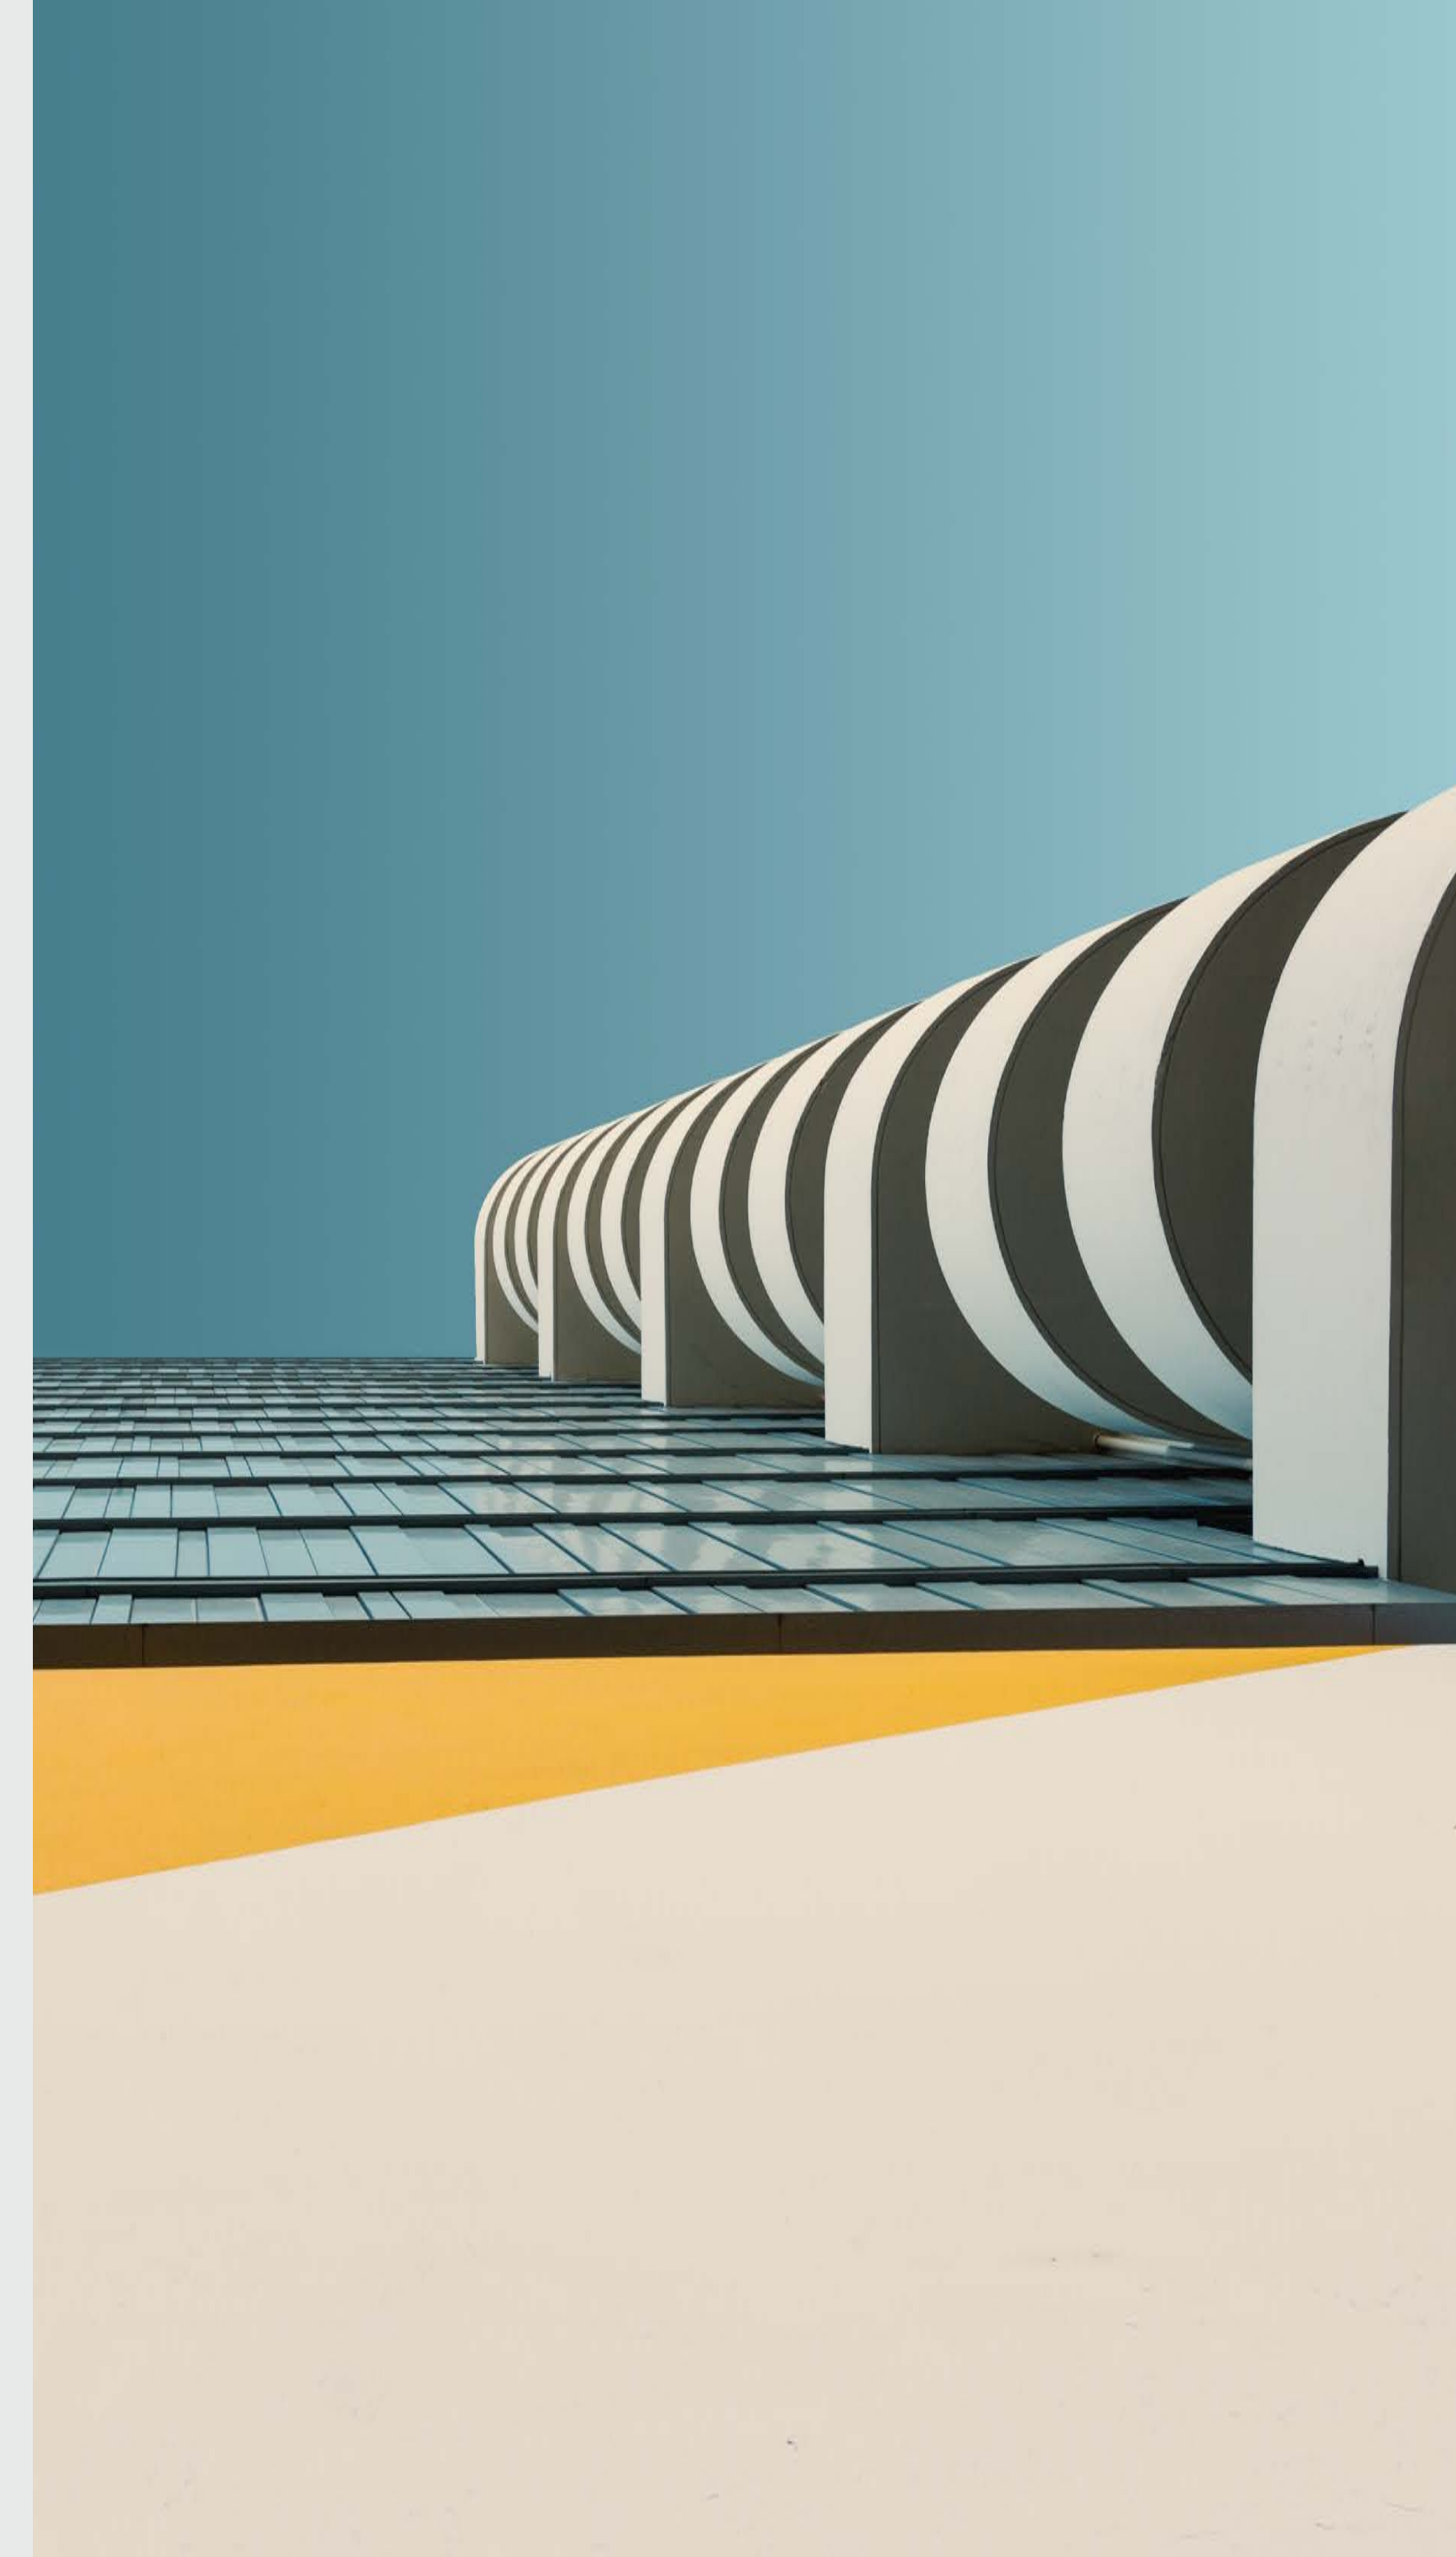

This is **Structured Protection**.

Why Structured Protection?

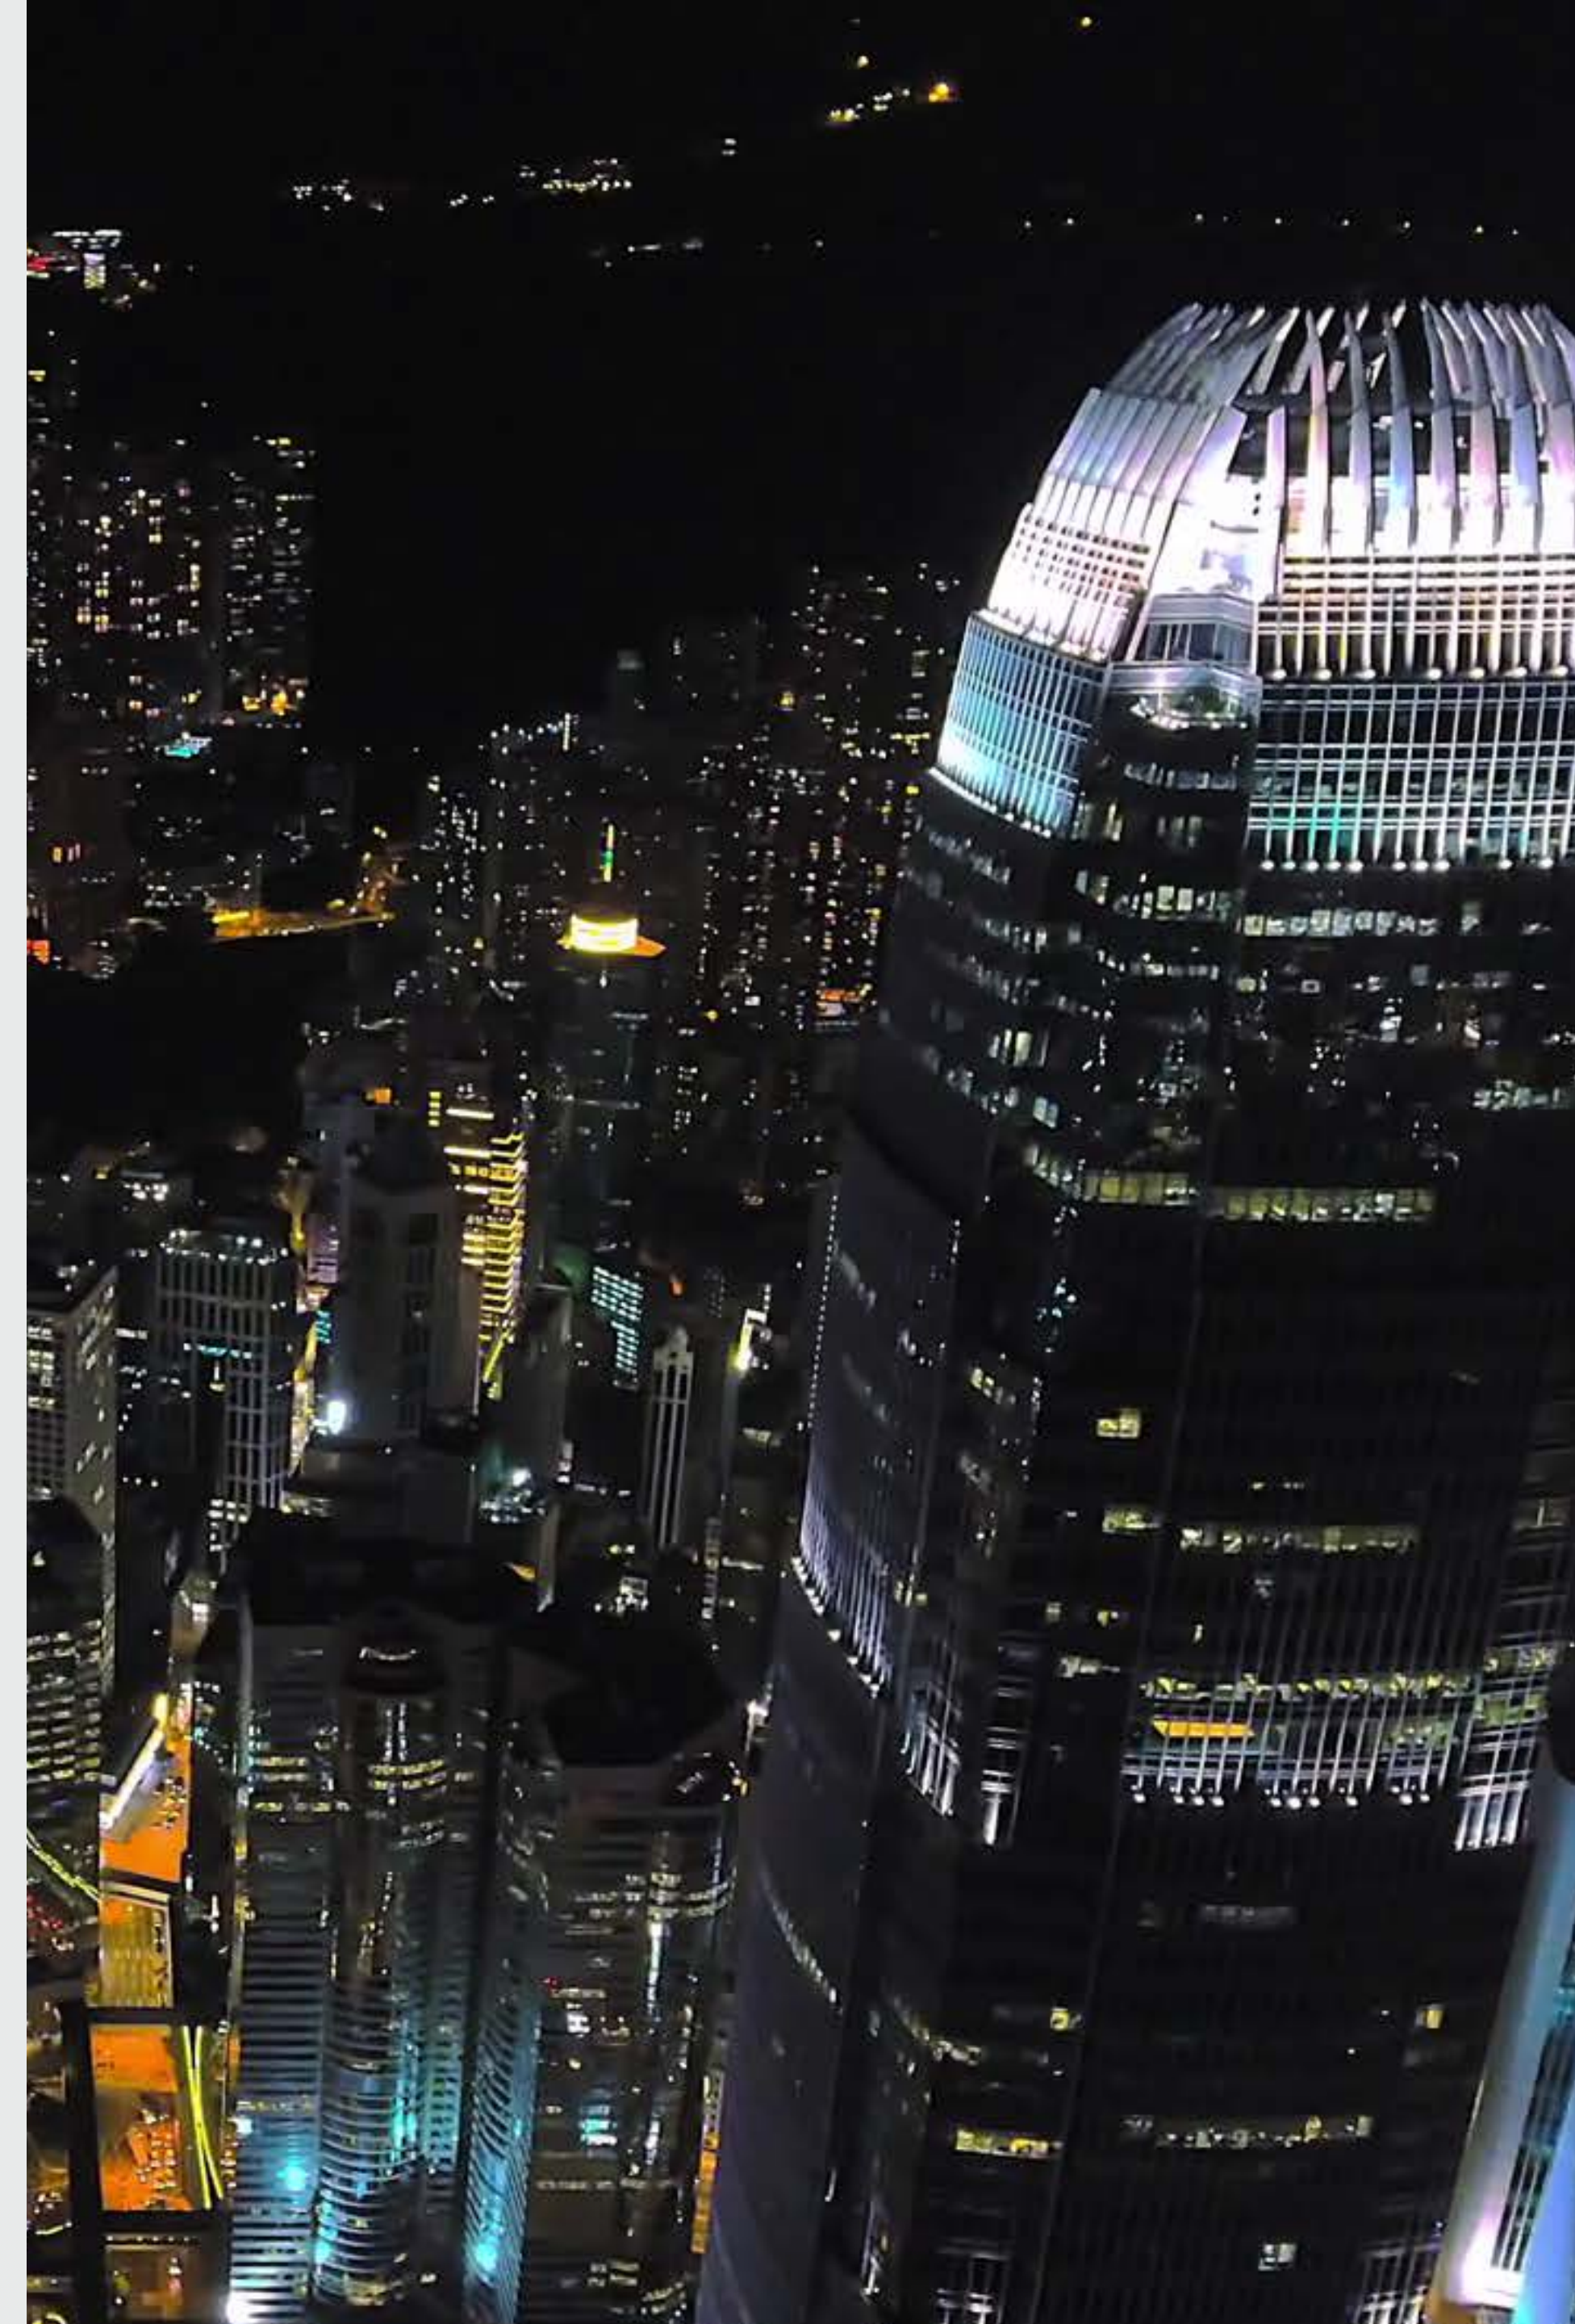

Principles of Architecture

- Art
- Design
- Structured
- Blueprint
- Foundation
- Material
- Cultural
- Symbols
- Style
- Form
- Function
- Integrity

Who We Are.

We are a product design and accessories company. Our ability to deliver amazing products is informed by our rich history and experience in this space. We bring a dynamic energy, rooted in insight and a unique understanding of the market and our targets, to stay ahead of the curve. We are the architects. We are the engineers. We are the builders. We are the consumers. We are Arq1.

Case Collection.

Ionic.

Decorative and functional. The diamond lattice design not only serves as a beautiful facade but is the core of the building's supporting structure.

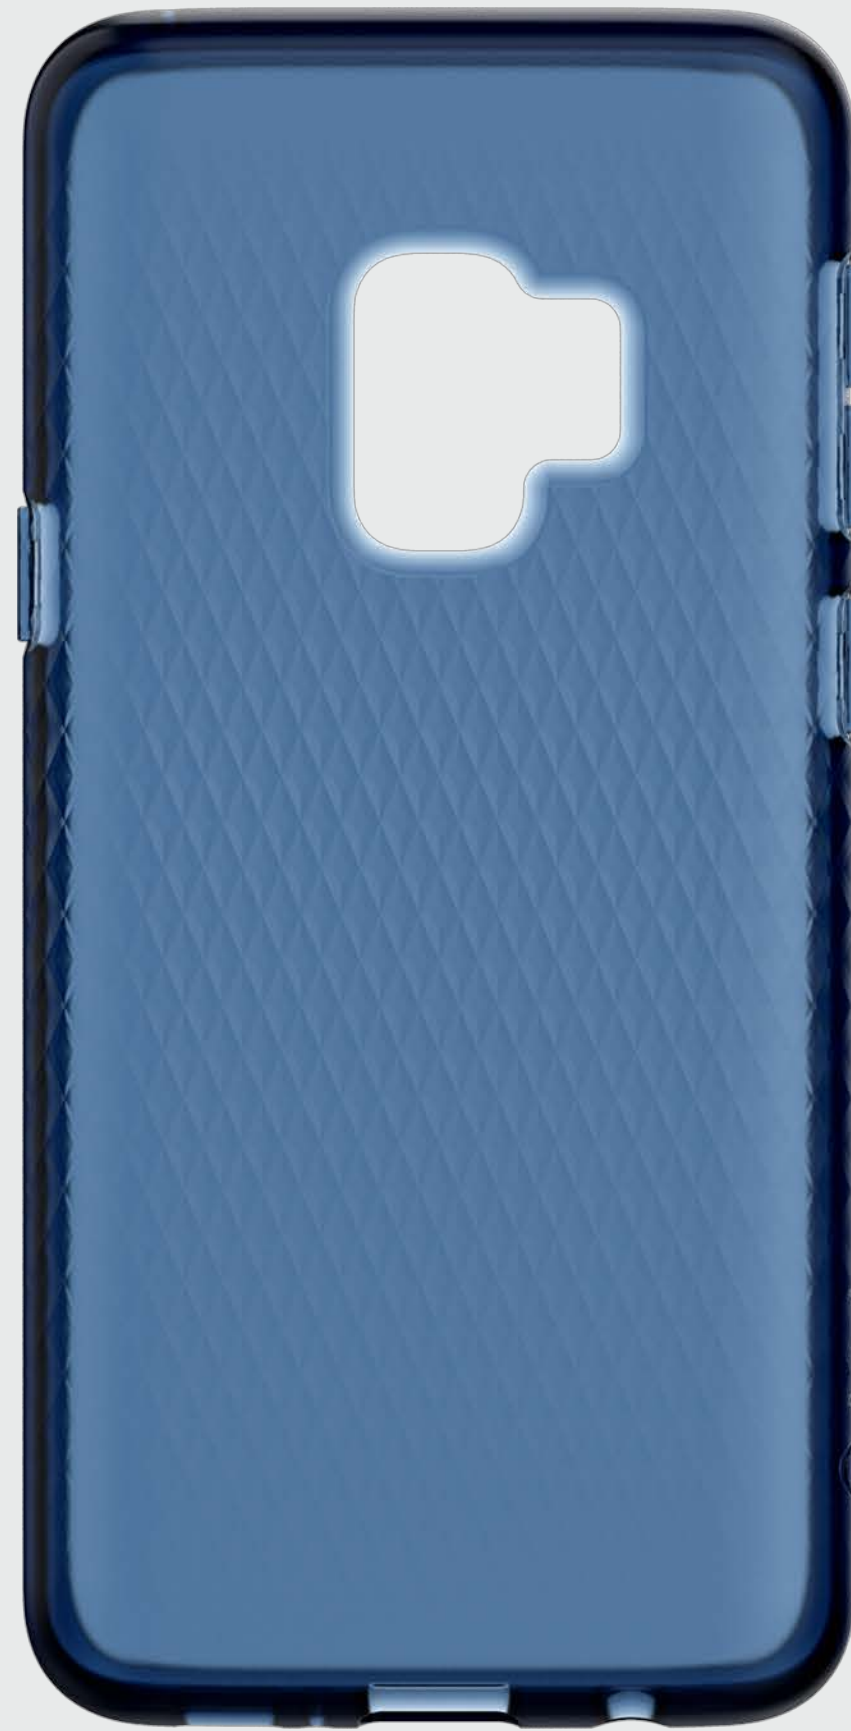

\$24.99

**Architecture should speak
of its time and place, but
yearn for timelessness.**

- Frank Gehry

**Architecture is squarely
at the intersection of art
and function.**

- Tim Hemesath
