RACK700 WITH HEADER STICKERS

GET NOTICED

Benefits of the retail program... We know you love our product, now let us help you display it. Now you can display all of your Install Bay polybag bulk products on custom, free-standing displays. These black, powder-coated metal racks look great in any environment. They are sturdy, but lightweight and easy to move around the retail area. The familiar Install Bay logo is placed on top with metal pegboard holes on the display section for easy placement of all bag sizes.

With two sizes available, these displays will meet your needs for offering a full range of Install Bay products. The smaller RACK700 is 20" wide by 72" tall with a display area of 20" x 49". The larger RACK750 is 40" wide by 78" tall with a display area of 40" x 59". Organized neatly in one spot, generating more sales with these everyday products is great for the bottom line!

MIX & MATCH

Make your own planogram...Have dedicated racks for specific part categories or mix it up. Now you can use these displays by themselves, use multiple racks in different areas around the store, or build a massive parts center with a large display in the center flanked by the smaller ones. Set up each rack as it's own category for easy product placement or build it over time starting with one rack - It's totally up to you!

WARNING: This catalog does not advise whether a State of California Proposition 65 warning is required for a particular item of merchandise. To learn whether a particular item of merchandise requires a California Proposition 65 warning, please be sure to look up and read the particular merchandise's listing on Metra's website www.TheInstallBay.com, as well as read the particular merchandise's packaging. When a California Proposition 65 warning is present on Metra's website listing for the particular merchandise, or on the particular merchandise's packaging, a compliant California Proposition 65 warning is to be provided to the purchasing California consumer prior to the sale of the particular merchandise.

RACK700

RACK700 SKINNY DISPLAY

- · Black, powder coated metal
- Metal pegboard for high strength
- Dimensions: 72"H X 20"W X 13.5"D

Even though you have the option to leave your display rack blank, we have provided the option to add one of these pre-cut ready to apply stickers or slatwall foamboard header to make your display pop! See referenced part numbers under the desired rack you are ordering.

VINYL BANNER

IB-BANNER14 49" X 25" VINYL BANNER Let your customers know you carry the InstallBay line of products! This eye catching vinyl banner is very durable and comes with (6) pre-installed metal grommets for easy hanging.

RE-SEALABLE RETAIL POLYBAGS!

HOW IT WORKS

Step 1: Select the Install Bay rack size that works for your store.

Step 2: Order your desired Install Bay parts.

Step 3: Set it up & take a picture! Send it to your IB representative - we would love to see it!

Custom displays are more important than ever for today's retailers. Studies show that about 70% of all brand purchase decisions are made in-store and that in-store sales have increased as much as 65% when custom display materials are used. The study also compared sales of one brand that consistently uses stock materials to another that uses custom displays. The custom display delivered a 28% sales lift while the standard materials generated only 13% - a 2:1 advantage!

EARL GROUNDING TERMINAL KIT

IBETKIT ASSORTED GROUNDING TERMINALS

EA The IBETKIT is a complete kit containing EARL Grounding Terminals for large 1 gauge, 4 gauge, and 8 gauge wires. Also there are terminals for 10/12 gauge, 14/16 gauge, and 18/22 gauge wire and heat shrink versions included too. Both zinc and nickel plated, wafer headed, self-tapping screws are supplied along with a bit to remove paint for a good ground. This kit is a must-have for a great ground every time.

50FT

The FLEXO® Original braided from 10 mil polyethylene terepthalate (PET) monofilament yarns. The material has a wide operating temperature range, is resistant to chemical degradation, UV radiation and abrasion. Used in electronics, automotive, marine and industrial wire harnessing applications where cost efficiency and durability are critical.

- Economical and easy to install
- Resists gasoline, engine chemicals and cleaning solvents
- Expands up to 150%
- Cut and abrasion resistant
- FMVSS 302 approval

THE TUBING SPECIALIST

Install Bay welcomes Thermosleeve-USA. This tubing is halogen-free, flexible, flame retardant, heat-shrinkable made from a special blend of cross-linked polyolefin. This tubing is free of Pb,Cd, Hg, Cr+6, PBB and PBDE. CB-HFT and can be used in any enclosed area where a flame-retardant, halogen-free environment is required.

- Typical applications include strain relief of wire connectors
- Identifiers or color codes wire and terminals
- Electrically insulates componets, terminals and wire splices
- Resistant to common fluids and solvants
- Shrink temperature rating of 90°C (194°F)
- UL, cUL, and ROhS compliant

PROTECTION PAINT TAPE

EA

IB50530 14" X 220 YDS

tesa Bodyguard® 50530 PV3 is the best protection solution for freshly painted car bodies. Applied after the painting process, tesa Bodyguard® 50530 PV3 provides reliable protection for painted surfaces susceptible to damage. Due to the good UV-resistance and perfect paint compatibility, tesa Bodyguard® 50530 PV3 is the most reliable way to protect cars during the transportation process.

- Reliable protection
- Secure adhesion during transport
- \bullet Cost savings as polishing or repair after demasking is eliminated
- Paint protection during outdoor storage up to 12 months
- Easy to apply and remove
- Easy disposal both the film and the adhesive system are environmentally friendly

TAPE STARTER KITS

IBTSKIT2 STARTER KIT PLUS

8 rolls of 3/4" interior tape, 4 rolls of 3/4" exterior tape, 4 rolls of 3/8" interior tape, 4 rolls of 3/8" exterior tape, 3 rolls of 1 1/14" interior tape, 1 roll of 1/2" thin double sided tape, 1 roll of 1" double sided foam mounting tape, 100 pieces of wire harness mounting tape

INTERIOR PROTECTION TAPE

EA

IB51136 9.5" X 72 YDS

tesa® 51136 is a self-adhesive polyethylene tape with an acrylic adhesive for masking large areas of plastic parts during professional painting processes. The color of the tape provides a good contrast to dark surfaces making for easier and faster positioning. Furthermore, tesa® 51136 is an interior protection tape for slightly structured surfaces. tesa® 51136 PV2 is a higher adhesion version for rough surfaces and carpets.

- Masking during painting applications
- Protection of various surfaces against dirt and damage

WIRE HARNESS MOUNTING **TAPE**

IB54118 2" X 4"

Cable mounting: For guick and secure fixation of flat and round cables with excellent damping properties. The product is also perfectly suitable for BSR applications

STANDARD INTERIOR **HARNESS TAPE**

16/SLV IB951618 3/8" X 82.5'

16/SLV IB51618 3/4" X 82.5'

Universal tape for wire harness bundling in the passenger compartment. It combines important features - such as noise damping, abrasion resistance and bundling strength - while keeping harnesses flexible supporting an easy harness assembly process at the OEM. Optimized for manual application. As PV10 solvent free available.

- · Flexible and smooth
 - Age-resistant
- Tear resistant

1000 PCS

- Strong adhesion
- · Stable unwind force
- Hand-tearable

TRANSPARENT DOUBLE SIDED TAPE

IB4965 12MIL X 80'

adhesive.

Double-sided tape with high shear and temperature resistance. tesa® 4965 is a flagship product with the tesa portfolio! This product is comprised of a polyester backing coated on both side with a transparent modified acrylic

- Reliable bonding, even to low surface energy substrates
- Very high bonding strength immediate right after assembly
- Applicable for most the demanding applications those including heavy stress, high temperatures or critical substrates

DOUBLE SIDED PE-FOAM **MOUNTING TAPE**

IB62934 1" X 50 M

EA

tesa® 62934 is a double-sided PE-foam tape for constructive mounting applications. It consists of a highly conformable PE-foam backing and a tackified acrylic adhesive.

- Versatile adhesive for high immediate adhesion on numerous substrates
- High ultimate adhesion level for a secure bonding performance
- UV, water and age resistant
- Compensates for differing thermal expansion of dissimilar
- High immediate bonding strength even at low bonding pressure
- Very good cold shock absorption

PREMIUM INTERIOR HARNESS TAPE

IB51608 3/4" X 82.5' **8/SLV**

tesa® 51608 is the universal tape for wire harness bundling in the passenger compartment. It combines important features as noise dampening, abrasion resistance, and bundling strength while keeping harnesses flexible supporting an easy harness assembly process at the OEM. tesa® 51608 a PET fleece wire harness tape with a rubber based adhesive that is optimized for manual application.

- · Flexible and smooth
- Age-resistant
- Tear resistant
- Strong adhesion
- · Stable unwind force
- Hand-tearable

EXTERIOR HARNESSING TAPE

IB51026 **16/SLV** 3/8" X 82.5' IB51036 3/4" X 82.5' **16/SLV** For wrapping exterior harnesses. This tape is a PET cloth wire harness tape with an acrylic based adhesive.

- High temperature resistance 150°C/3000h
- · High abrasion resistance

INSTANT CURE GLUE + ACCELERATORS

INSTANT CURE GLUE

MAXI-CURE1	1 OZ.
MAXI-CURE2	2 OZ.

MAXI-CURE™ bonds fiberglass, hardwood, metal and rubber better than any other hobby adhesive. For gluing to the inside, cloth textured surface of fiberglass, scrape the area to be bonded with a razor blade or coarse sandpaper before using MAXI-CURE™ or any other adhesive. It also is best for bonding the tires for R/C cars.

INSTANT CURE GLUE

INSTA-FLEX 10Z.

INSTA-FLEX™ flexible thin CA is ideal for many applications, including the installation of CA hinges. When cured INSTA-FLEX[™] does not turn brittle and remains clear. even if accelerated with INSTA-SET™. It has superior shock resistance. INSTA-FLEX™ has also proven to be superior when bonding using anodized aluminum.

INSTANT CURE GLUE

INSTA-FLEX+

10Z.

INSTA-FLEX+™ clear rubber toughened has similar Qualities to our black IC-2000[™] but can be used in applications where you do not want the adhesive to be seen. The carbon components of IC-2000[™] that gives the CA its black color also contributes to its unsurpassed strength. When esthetics are important and a flexible bond is required, INSTA-FLEX+™ is your best choice. It forms superior bonds to soft urethane and vinyl plastics.

INSTANT CURE GLUE

10Z.

IC-2000™ is a rubber-toughened cyanoacrylate that forms superior shock resistant bonds on non-porous surfaces. The black colored CA has added flexibility for the bonding of metals, fiberglass, rubber, carbon fiber and other materials.

ACCELERATORS

2 OZ. INSTANT SET ACCELERATOR Accelerator for quick curing of cyanoacrylates results in fast drying times and strong bonds between materials and surfaces of all kinds.

INSTANT CURE GLUE

NEW SPRGLDPLUS GAP FILLING GLUE

- Non-frosting
- Odorless

INSTANT CURE GLUE

IC-GEL

.7 OZ.

IC-GEL[™] is a cyanoacrylate paste that is extremely thick which comes in an applicator tube like toothpaste. It has the same bonding and curing time characteristics as MAXI-CURE™; IC-GEL™, however, can be applied to a vertical surface and will stay in place. IC-GEL™ is excellent putty for plastic models. It will fill any void and can be formed to many shapes. Applying Insta-Set allows IC-GEL™ to be sanded or filed to final shape in less than 20 seconds.

INSTANT CURE GLUE

A higher viscosity CA for loose fitting joints in which the adhesive must bridge gaps. Normally, the thicker CA is applied to one surface and then the parts are held tightly together for about 5 to 15 seconds.

INSTGL2	2 OZ.	EA
INSTGL4	4 OZ.	EA
INSTGL8	8 OZ.	EA
YORKER2	CA CAPS FOR ALL .5 OZ., 1 OZ. AND 2 OZ. BOTTLES	12/PK
YORKER	TOP FOR INSTGL8	EA

UN-CURET

INSTAUN

10 OZ.

10Z. Debonder will soften cured CA. If parts are bonded

incorrectly or your fingers are stuck together, a few drops of UN-CURE™ will dissolve the CA in about a minute. Apply on bonded skin and roll apart fingers. Once unstuck, use acetone to clean off softened CA, then wash off with soap and water.

ACCELERATORS & GLUE

Accelerates Super Glue cure time. Best working accelerator for ZAP and all other super glues you'll find! Sets in just a few seconds.

PT-50	KICKER CA GLUE ACCELERATOR	5 OZ.
PT-15	KICKER CA GLUE ACCELERATOR	2 OZ.

QUICK-CURE

QUICK-CURE 9 0Z.

Epoxy cures to a slightly flexible consistency. This lack of brittleness allows it to form a lasting bond in areas subjected to high vibration or stress. QUIK-CURE™ shouldn't be used in areas that are subject to long-term immersion in water; however, it works fine for the internal structure of wood framed boats. QUIKCURE™ is our only epoxy on which you can apply polyester resins. It can be mixed with microballoons to form a guick setting putty. Items bonded with QUIK-CURE™ can be handled after 15 minutes. Full strength is reached in 1 hour.

CABLE AMP KITS

Now you can display all of your Install Bay Wire Spools on a custom free-standing display. This black powder-coated metal rack looks great in any environment. It is sturdy but lightweight and easy to move around the retail area. The familiar Install Bay logo is displayed on top by a foam board

Keeping your wire spools organized neatly in one spot, generating more sales is great for the bottom line! Custom displays are more important than ever for today's retailers. Studies show that about 70% of all brand purchase decisions are made in-store and that in-store sales have increased as much as 65% when custom display materials are used. The study also compared sales of one brand that consistently uses stock materials to another that uses custom displays. The custom display delivered a 28% sales lift while the standard materials generated only 13% - a 2:1 advantage!

SEAT HEATERS

UNIVERSAL SEAT HEATERS

AFTERMARKET CARBON FIBER HEATED SEAT KITS SURE TO FIT ANY APPLICATION. THESE CUSTOM HIGH QUALITY KITS ALL FEATURE:

- Dual carbon fiber heating elements for rapid warm up times and even heating across the entire pad
- Operating temperatures range from 115°F to 135°F over the entire heating element
- Each of the carbon fiber heating elements can be trimmed to ensure an exact fit for the bottom and back of the seat
- Carbon fiber heating elements are water and stain resistant
- Electronic auto off temperature safety system
- Model specific integrated wiring harness

New design silicone with egg wave foam. Which allows for no more trimming or cutting, and better sealing for better sound. Patent pending, foldable speaker baffle is designed to improve the directional flow of sound waves and focus them into the cabin. It perfectly seals the speaker against the interior panel. It also offers waterproof protection for the speakers, and the foldable ring fits different depths.

[1] The rear foldable ring protects speaker and improves sound.

(3) Sticone material it durable for hanh environment.

(2) Slicone material is soft to seal between speaker and door panel.

(4) The egg wave foom behind speaker improves sound by preventing sound wave bounced book.

EA

O VENT MOUNT

BT1-636-2 MAGNET DESIGN EA

The O Vent Mount is powerful new magnetic mounting solution for smartphones and other portable mobile devices. Simply place your device over the mount surface, and it clicks securely into place.

- Powerful magnets safely and securely hold your mobile device with or without a case
- Easy, one-handed operation with full access to all device
- Compatible with horizontal and vertical air vent louvers

SI DASH MOUNT

BT1-635-2 MAGNET DESIGN

The Si Dash Mount is powerful new magnetic mounting solution for smartphones and other portable mobile devices. Simply place your device over the mount surface, and it clicks securely into place.

- Powerful magnets safely and securely hold your mobile device with or without a case
- Easy, one-handed operation with full access to all device
- · Compatible with horizontal and vertical air vent louvers

TEKGRIP™ WINDSHIELD MOUNT

BT1-642-2

EA

TEKGRIP™ DESIGN

The perfect windshield mounting solution for your smartphone, GPS or other portable device. Featuring "one-

EA

- click" arm expansion and convenient portrait or landscape viewing when you're on the go, this mount's compact size makes for easy portability from car to car or when traveling.
- Powerful suction works on all windshields
- 360° rotation for portrait or landscape viewing
- Folding support legs for added support when needed

TEKGRIP™ VENT MOUNT

BT1-641-2 TEKGRIP™ DESIGN The perfect windshield mounting solution for your

smartphone, GPS or other portable device. Featuring "oneclick" arm expansion and convenient portrait or landscape viewing when you're on the go, this mount's compact size makes for easy portability from car to car or when traveling.

- Powerful suction works on all windshields
- 360° rotation for portrait or landscape viewing
- Folding support legs for added support when needed

FAX YOUR ORDER 800.647.8091

NAVGRIP XL MOUNT

BT1-651-2 LARGE DASH & WINDOW The perfect solution for mounting your large GPS or tablet when you're on the go. The sturdy, low-profile mount safely and securely holds your device in landscape or portrait mode for hands-free navigational use while driving.

- Universal design safely allows you to mount your GPS and tablets 7" and smaller for front seat navigational use
- · Heavy-duty, low vibration mount safely and securely holds your device while allowing full access to all device buttons and controls

PHABGRIP CLAMP MOUNT

BT1-702-2 TABLET DESIGN

This tablet/large cell phone holder has a flexible goose-neck and a clamp you can attach the holder with. The holder is the same as the phabgrip cupholder mount. It can hold 7-10 inch tablets.

- · Universal design safely allows you to mount your smartphone or tablet
- Flexible neck with ball joint features 360° rotation
- Rubberized clamp attaches securely virtually anywhere

EDGE SCISSORS

OLFSCS2 7" STAINLESS STEEL. SERRATED These heavy-duty scissors easily cut the toughest industrial materials, including polymers, wire, Keylar®, vinyl, rubber, fabric, aircraft composites and other materials. They are also

useful as household scissors, whether in the kitchen or in the workroom for do-it-yourself projects.

OLFSCS4 5" PRECISION. SMOOTH These precision scissors are ideal for fine, intricate cutting on graphics, vinyl, film, leather, Kevlar™ cloth, polystyrene and more. Extra large, symmetrical handles can easily switch from right- to left-handed use. Industrial strength Blades are made of stainless steel and fully extend into the handle providing better cutting stability and pressure distribution.

REMOVER + CUTTERS + CRIMPER + MARKING **HAND TOOLS**

DOOR PANEL REMOVER

IB35350

EA

Removes door panel fasteners even in tight spaces. The bent handle design allows use where space is limited and provides extra prying force.

PLASTIC FASTENER REMOVER

IB35260

Removes plastic hold-down fasteners. Equipped with a sliding urethane button when extra leverage is necessary.

WINDOW/DOOR CLIP REMOVER

IB18600

Removes and installs door handle and window crank clips. Works on GM, Ford and others using common "C-type" clips.

DOOR UPHOLSTERY REMOVER

IB35400

EA

EΑ

For plastic fasteners. Rugged tool with a large, comfortable handle.

CRIMPING/CUTTING TOOL

IBJ1005 JOURNEYMAN

EA

Soft handle material on outer surface and hard, black material on inner surface for comfort & durability. Use for insulated and uninsulated terminals & connectors. Accommodates wire from 10-22 AWG, wire cutter in nose.

CRIMPING/CUTTING TOOL

IB1006

NON-INSULATED TERMINALS CONNECTORS 10-22 AWG

Three different cutting blades; anvil, copper, curved and steel. Cleanly shears 6-32 & 8-32 screws. Double-dipped comfort grips with curved handles.

CRIMPING/CUTTING TOOL

IB1005

EA

EA

SKEWDRIVER

SKEWDRIVER PRO®

HW-9001 EA

The Skewdriver® is a bevel gear offset screwdriver that uses the rotary handle action of a regular screwdriver to access awkward and hard to reach places. The sturdy removable hollow handle allows use with any cord free 1/4" drill and acts as a handy storage for bits.

SKEWDRIVER PRO® KIT

SPK4040

The Skewdriver® Pro SPK4040 kit features an offset bit driver, a right-angle tool that's perfect for removing the screws that secure some dash speaker grilles, getting to screws in hard-to-reach trim pieces, or working in tight quarters anywhere in your car or home.

P9801H

EA

Die cast Skewdriver® Pro offset bevel gear driver, with NEW SUPER GEARS, 3 times stronger than previous models, has stabilizer lock screw, ANSI impact ready input shaft, black chrome finish.

OFFSET HI-SPEED HEAD

HD-105 HEAVY DUTY 105° OFFSET EA HI-SPEED HEAD

Here's the same award-winning design as our smaller 105" head, but made for heavy-duty power units. Rated at more than 500 in/lbs of torque/2000rpm. It lets you get your power unit into tight spots with drills, spade drills, grinders, buffers, nuts and screws.

UPHOLSTERY STAPLER

BEA4001

This light but powerful tacker of the BeA 420 series takes staples type 71 in lengths from 5/32" to 5/8". The low air consumption, long service life and ease of maintenance make it a real cost saver. The ergonomic design and the integrated silencer make it the ideal tool for industrial applications and for the do it yourselfer.

TESTERS + GENERATORS + PROBES + MULTIMETERS

HANDY CIRCUIT TESTER

IB25600

Hooded probe protects your fingers and automatically centers the wires. Small size allows easy use even in the tightest places. Works up to 28 volts.

CIRCUIT TESTER

IB27450 COMPUTER SAFE

Works without damaging sensitive electronic components. Safe for use on 12 volt automotive computer circuits. Tool draws less than 21 M.A. at 12 volts D.C. With an operating range of 3-12 Volts.

• Red glow - positive

EA

• Green glow - negative

TONE GENERATOR

IBN-899

EA

Will guickly help you isolate noise problems and locate the correct speaker wires in a car. Runs on a single 9v battery and has both RCA and alligator clipped outputs.

3410

Helps to quickly identify if there is voltage present on wiring and circuits. Ergonomic grip design with 6-foot test leads.

Transparent handle shows bright LEDs to identify connections:

Green = Ground Present Red = Voltage Present

PISTOL & VOLT PROBE

76600 HI-VIS VOLTPRO CIRCUIT TESTER

High visibility, simple to use, one handed dynamic voltage testing. Indicates power and grounds. Test the circuit's ability to deliver current and identify loose, corroded or broken wires. Capture intermittent spikes or drops in voltage. Take voltage snapshots in any mode, any time.

- Dynamic voltage drop testing
- Computer safe
- Power and ground LED indicators • Min/max glitch capture
- Voltage snapshot

EA

AUTO-RANGING DMM

3320 10 MEGOHM/UL

EA

Auto-Ranging™ scales eliminate the need to dial in the correct range when making electronic measurements. 10 MegOhm input impedance for safe automotive and household uses. Large digital display. Single-setting resistance function for voltage (AC & DC). Color-coded LED's display battery quick check. Protective rubber corner guards for drop protection. Includes attachable test leads, holders and stand.

PHASE TESTER

EA-PT9A

The PT-9A allows the install technician to verify the absolute phase of each speaker in the system, both individually and as a group. Features a built-in microphone and comes with a test CD that includes in polarity and out of polarity pulses (in addition to 11 other useful test tracks). Adds a built in pulse generator for both speaker level and low level connections directly to a component (speaker amplifier, signal processor, etc). The PT-9A also comes with a protective carrying case and test leads.

G.D. VINYL AND TINT ACCESSORIES

TINT SLIME

GT2013 TINT SLIME APPLICATION FLUID EA Tint Slime is a window tint mounting & cleaning solution. Tint Slime can be used to install automotive window tint, paint protection film, flat glass film and vinyl. Tint Slime is free of particulates and won't separate. Tint Slime is safe for use on interiors, biodegradable, and of course, tint safe. Concentrate, mix 1 ounce per 1 gallon of water.

SPRAY BOTTLE

GT090 SPRAYMASTER BOTTLE AND TRIGGER An overall heavy duty sprayer, this spray bottle comes with a 5 year warranty and is chemically resistant. It is equipped with a strong trigger and holds 32 ounces.

RAPIDTAC II

GT1041 32 OZ **CLEANER & APPLICATION FLUID** For wet application of decals, graphics and film. Formulated for intermediate, calendared and specialty films. Great for cold applications. Aids in application problems such as bubbles, wrinkles, repositioning, dirty surfaces and rough weather conditions. Not for use with acrylic with flame polished edges.

APPLICATION TOOLS

MANGO SMART CARD

GT2005 WITH FELT EDGE

Smart Cardz are the modern version of the hard card squeegee but they're better because they are 25% wider and their tapered tip, comfortable grip, great flex and thin squeegee edge make it the smartest tool in your apron! Smart Cardz feature a griphandle molded right into its body so they're easy to manipulate. The felt edge makes this the perfect tool for paint protection, vinyl signs and graphics.

GT1085 WITH FELT EDGE

EA

This four pack applicator set includes the Mango Rebel, Bump Card, Smart Card and Little Foot all with extreme glide felt edge making them perfect for paint protection, vinyl signs and graphic installs.

UNGER (SCREW) HANDLE

NEW GT050A PRO HANDLE Will hold any 5 inch squeegee.

FUSION GRIP HANDLE

NEW GT1047 PRO HANDLE

Designed to optimize your leverage in removing mounting solution. Great for high performance automotive films and smaller residential windows. Will hold any 5 inch squeegee.

4" BUMP CARD

GT1064 WITH FELT EDGE

EA

Four inch hard card with two ridges or "bumps." One edge is wrapped in felt.

GASKET PUSH STICK

GT194

EA

The Gasket Push Stick is a tinter's favorite. Sometimes called a Dog Bone, this tool is used for pushing down door window gaskets to assist in film installation on roll down windows.

DIAMOND CARD

GT1025Y REBEL YELLOW DIAMOND CARD EA A hybrid of the bump card and Diamond Tip. Great

as an applicator to use as a trim guide on flat glass. Rebel has a unique diagonal shape, reaching corners easily. The parrallel grip ridges makes holding on to the Rebel easy.

FIRM FLEX

EZ REACH ULTRA GOLD FIRM FLEX

Stop cutting down hard card squeegees and use this versatile tool instead. These triangular cards with flat edges are perfect for putting down those little corners of film in hard to access areas.

WET EDGE SQUEEGEE

GTWES

EA

EA Wrap your vehicles faster and better. The only

squeegee applicator made to use wet. No scratches, no marks, just smooth motions that easily glides across vinyl films and painted surfaces without worry of mistakes or damage. The Wet Edge™ Squeegee is a Teflon squeegee with a unique microfiber bonded to it. Can be used either wet or dry. This is the top of the line applicator in the business. Colors will vary.

FOOT SQUEEGEE

GTO44BLUE BLUE LITTLE FOOT SQUEEGEE This squeegee measures about 6" (15 cm) along the

usable edge. The pointed edge of this tool allows the installer to squeegee in very tight areas. The Little Foot has plenty of room to keep a good grip on the squeegee.

EA

Combination squeegee/hard card used for finishing during film installation. Can be cut to various angle shapes to reach tight sharp corners.

G.D.L. APPLICATION + REMOVAL

THE CONQUERER SQUEEGEE

GT202 EA

The Conquerer is the original corner reach tool. Features a soft squeegee blade along one edge and point hard card tips on the ends making it a versatile staple to any tool kit.

HAND SQUEEGEE

GT117B BLUE MAX 5" Ideal for installing security film.

SQUEEGEE BLADE

GT203 SUPER CLEAR MAX SQUEEGEE BLADE EA Softer version of the Blue Max Squeegee, more flexible for back window installations.

STROKE DOCTOR SQUEEGEE

GT1022

This handled squeegee allows you to reach areas behind brake lights and lower rear windows.

GT1022B STROKE DOCTOR REPLACEMENT BLADES EA

GO DOCTOR BLUE SQUEEGEE

GT2056B

EA

EA

EA

A fully integrated squeegee system where all of its components have been designed together, to work together. The I-beam handle fits comfortably in your hand and is wrapped with a comfortable, non-slip material that provides secure grip. Go Doctor's unique frame construction was specifically designed to transfer more of your energy to the blade's point-of-contact for greater efficiency and reduced installer fatigue.

4" BUFFER SQUEEGEE

GTSQBUFF4

EA

Sold individually, these pre-cut buffers fit any standard 4" squeegee. They are far superior to standard felt strips and will help prevent scratches to the wrap material during installation. Give your hard plastic squeegees a soft and smooth side with the Squeegee Buffer Strip. Note: This buffer comes

with a self-adhesive back that should stick to any flat squeegee surface.

YELLOW TURBO BLADE

GT147 18 1/2" SQUEEGEE REPLACEMENT BLADE EA

SLIP TAPE

GT2021-4 3/4" X 4YD ROLL

Slip Tape is the ultimate product for making your application squeegees smoothly and safely glide across window film, paint protection, and car wrap and vinyl graphic applications. No more tearing or scratching the material you are working with.

SOOPER CLIP

GTSC50 50/PK

Keeps vinyl and print media properly wound. Simple on/off design with finger hole pull design. Durable plastic design for longest life and ease of use and doesn't scratch or leave marks on your delicate rolls.

25 large and 25 small

RIVET BRUSH

GTRB

EA

Made of stiff bristle synthetic fiber, the rivet brush for fleet graphic installers helps form flexible cut and printed vinyl over the rivet surface.

APPLICATION + REMOVAL G.D.J.

EA

XTREME MAGNET

GTXMH

These handy body magnets make applying vinyl and vehicle wraps faster and easier by acting as another hand to hold the material. You can also use them in the place of masking tape or pre-mask to position the material on the vehicle. Xtreme Magz are 1-5/8" in diameter and come with the magnet completely covered with a super-soft rubber coating to eliminate any damage to the vehicle, graphics or sign substrates.

INSTALLER'S PRIMER PEN

GTIPEN

EA

Introducing the Adhesive Primer 94 Installer's Pen (IPEN), the world's best application tool specifically designed using Primer 94. The Installer's Primer Pen is easy to keep in your tool pouch, pocket or tool box. Fast and easy to use on all your applications that require precise application of Primer 94. Works with any brand of vinyl film and can be used anywhere Primer 94 is required.

- Durable aluminum construction casing
- 2 extra tips included
- The easiest way to apply adhesive primer

BUBBLE POPPER PEN

GTBPOP EA

The Bubble Popper Pen is a must have tool for any vinyl graphics installer or car wrapper. This pen is the right tool for the job and it is easy to hang on to since it clips to your shirt pocket like a "ball-point pen". The needle point offers an ultra-sharp round tip that retracts and extends just like a "ball point pen". This tool is used to put a pin hole (never a knife slit) into your vinyl, printed graphics or car wrap where a bubble or rivet might be to release the air and flatten the film graphic on to the substrate.

WHITE SCRUB PAD

GT085 EA

Great for cleaning windows prior to installation.

LIL' CHIZLER HARD CARD

GT083

Ideal for removing decals, film or adhesive from sensitive surfaces. Use for pressing down small film creases or air bubbles.

EMBLEM REMOVAL TOOL

GTER1

EA

EA

The ER1 Emblem Removal Tool is the fastest and easiest way to remove vehicle emblems and logos from a vehicle. This tool is used before the vehicle wrap/vehicle graphic application to remove emblems and logos and badges from your vehicle. The handles feature a "loop-lock" no-scratch cutting cord that locks into the handle. The reusable and replaceable cutting cord allows you to cut through the automotive grade adhesives used on vehicle emblems and logos without risk of damaging vehicle paint. Each ER1 comes with 100 replaceable cords.

RAPID REMOVER

32 OZ GT1039

A non-toxic, water-soluable adhesive remover that breaks down and removes adhesive fast.

BLACK OUT TAPE

GT157 1/2" Used to hide light gaps. 150' ROLL

G.D.J. *CUTTING + APPAREL*

SCRAPERS

1" CLIP SCRAPER EA This effective scraper will accommodate standard or stainless steel single edge blades.

GT138 HEAVY DUTY 1" RAZOR SCRAPER Retractable safety scraper, intermediate blade position keeps the blade from sliding out while in use.

GLASS EDGE TRIMMER

EA AUTOMOTIVE GLASS EDGE TRIMMER Use along the top edge of roll down windows for a precise "micro-edge" finish (1/8").

PLASTIC RAZOR BLADES

GT139P 100 PK 1" PLASTIC BLADES Perfect for removing adhesive and leftover film from surfaces that can be easily damaged, such as rear window defrosters or other sensitive glass surfaces.

SNAP BLADES

GT116 **OLFA AB-50S STAINLESS STEEL** The industry standard when it comes to snap blades for film and pattern cutting. Thirteen cutting edges per blade. Use in most standard duty knoves.

WRAP CUT LINE KNIFE

GTWCKNIFE THE ULTIMATE VEHICLE WRAP KNIFE! **EA** The Wrap Cut Knife by Image 1 Impact is made specifically to cut through just the liner side of any pressure sensitive vinyl graphic and wrap film. This knife will only cut through the paper release liner of the vinyl, so there is no more risk of damaging your film or adhesive or cutting through the film side of your vinyl while on its backing paper. This knife will leave no marks or cut lines in the film when used properly. Don't be fooled by look-alike imitators, The Wrap Cut Knife by Image 1 Impact is made with a solid steel shaft with a special Teflon coating on the bottom surface to protect the vinyl and adhesive. This Teflon coating allows the knife to slide across the adhesive side of the vinyl, giving you a clean and easy cut through the release liner. Use while film is on the vehicle, boat, etc. or while on the cutting table inside the shop. This knife works anywhere and is compatible with most adhesive types and all brands of pressure sensitive vinyls and release liners.

GTWCBLADE REPLACEMENT BLADES 10/PK FOR WRAP CUT KNIFE

APRON

GT176 WAIST APRON EA Heavy duty waist apron for easy access to tools while on the job.

RED DOT KNIFE

GT027 NT PRO A-1 RED DOT KNIFE EA Regarded by many installers as the finest professional knife available. The blade can be advanced in 1/2" segment increments for precision control. Right or left handed use.

KNIFELESS TAPE

GT2017 FINISH LINE KNIFELESS TAPE 1/8" X 50M (164')

EΑ

The knifeless tape has a high strength filament that acts as the cutting device. The tape/filament is laid out on the vehicle and the bulk vinyl material is installed over the tape/filament. Then, the filament is pulled through the material leaving behind the desired design. The edge is clean and sharp just like a knife cut but without the risk of cutting the paint.

GLOVES

GTWG1 WRAP GLOVES **PAIR**

The vehicle wrap glove is sold in pairs and is a must have for anyone installing vinyl graphics and vehicle wraps. Installing with your bare hands can cause over stretching and puckering of the vinyl as well as potential damage from the transfer of oils on your skin. These lint free and durable Wrap Gloves reduce friction while handling the material and give you great results every time.

SOUND DAMPING

SOUND DAMPING

BALLISTIC KITS + BARRIER PRODUCTS

Ballistic is a proprietary butyl rubber composite with an aluminum constraining layer for vibration damping. Designed and engineered in the United States, Ballistic is extremely efficient at converting vibration to thermal energy. This unique formula allows the material to easily conform and adhere to sheet metal and most other hard surfaces.

SIZE MATTERS

Ballistic Sound Damping Material is thicker and has more mass per ft² than any other damping product available. Ballistic is up to 30% thicker than the other guy's stuff. And we all know, the thicker material and more mass per ft² the more effective the product will be at eliminating road noise and vibrations.

NO SMELL

Most sound damping materials smell like a road paving project! Ballistic is specifically designed to eliminate this odor problem without sacrificing effectiveness. Don't just take our word for it, pick up the other guy's stuff and take a big whiff.

STICK IT & FORGET IT

Ballistic's revolutionary adhesive - Perma-Stick makes it easy to apply Ballistic material to almost any surface. Humidity and temperature extremes can play havoc on inferior sound damping. Perma-Stick's chemical make up is designed specifically to work in the harsh automotive environment.

BALLISTIC HOLLOW POINT KITS

Ballistic Hollow Point is a unique butyl rubber composite with an aluminum constraining layer for vibration damping. Ballistic Hollow Point is developed to deliver incredible performance at entry level price point. The light weight construction allows the material to stick great and work in a variety of applications.

SIZE MATTERS

Ballistic Hollow Point is the perfect synergy of weight, performance and cost. Ballistic Hollow Point still delivers more mass per ft². The use of Ballistic's proven virgin butyl composite guarantees a significant improvement in reducing road noise and vibrations.

NO SMELL

Most sound damping materials smell like a road paving project! Ballistic is specifically designed to eliminate this odor problem without sacrificing effectiveness. Don't just take our word for it, pick up the other guy's stuff and take a big whiff.

STICK IT & FORGET IT

SMARTPHONE VEHICLE FIT GUIDE

The Power of Metra's Fit Guide

- Anytime. Anywhere.

The iPhone and Android apps are convenient intranet portals for quick access to Metra's parts, specs, product info, installation videos and more:

- Enables an easy search of not only Metra products, but its other brands as well.
- Allows dealers and customers to browse and filter parts by vehicle specifics such as make, model, year and trim.
- Lets dealers quickly place orders for parts - no online payment needed, Metra does the rest.
- Showcases Metra's latest product videos located on its YouTube channel.

Download it FREE at the Apple Store or Google Play
