

PACKAGE CONTENTS

- USB-C Digital AV Multiport Adapter
- *Quick Setup Guide*

COMPATIBILITY

- USB-C equipped Apple MacBooks and iPads
- Windows computers
- Chrome OS devices.

Designed for Apple products.

FEATURES

- Mirror or extend your computer, smartphone, or tablet display to an HDMI-capable TV or computer monitor
- Additional USB-C and standard USB ports for charging or file transfers
- Sleek, compact design goes everywhere you go
- Braided cable for enhanced style and durability

OVERVIEW

USB-C Female

- Supports PD Charging with power up to 100 W (20 V/5 A)

Note: This port does not support data transmission.

USB-A

- Supports a data transmission rate of up to 5 Gbps and charges the connected USB device.

HDMI

- Supports HDMI resolutions up to 4K × 2K @ 60 HZ
 - Supports plug and play and hot swap
- Note:** The USB-C port on your host device must support DP Alt Mode for your adapter to work properly.

USING YOUR ADAPTER

- 1 Connect the USB-C male port on your adapter to a USB-C supported device.
- 2 Connect the HDMI output of this device to an HDTV with an HDMI cable.

OR

Connect the USB-A output port on your adapter to a USB 3.0/2.0 device with a USB cable.

OR

Connect the USB-C charging port to a USB-C power adapter so you can charge your device while it's providing a video signal to your monitor.

PT-AFACHM / PT-AFACHM-C

USB-C DIGITAL AV MULTIPORT ADAPTER

QUICK SETUP GUIDE

TROUBLESHOOTING

My computer does not detect my USB device plugged into the USB-A port.

- Make sure that the USB device is not damaged, then plug it in again.

My computer does not detect the HDMI video output.

- Make sure that the USB-C port on your host device supports DP Alt Mode.
- Make sure that the HDMI monitor is operating normally.
- Make sure that the HDMI jack is not damaged, then plug it in again.

My display does not show 4K content.

- You need a display that supports 4K resolutions and you need 4K content on your source device.
- Make sure that your USB-C cable is capable of transmitting 4K content.

My computer is not providing power to the hub.

- Make sure that all cables are connected correctly.
- Make sure that your device is turned on.

- **Operating temperature:** 32° ~ 114° F (0° ~ 45° C)
- **Operating humidity:**
10% to 85 % RH (no condensation)
- **Storage temperature:** 14° ~ 158° F (-10° ~ 70 °C)
- **Storage humidity:** 5% to 90% RH
(no condensation)
- **USB 3.0 port:** The output is max 7.5 W (5 V / 1.5 A)
- **USB-C female:** Up to 100 W (20 / 5 A)

LEGAL NOTICES

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

ONE-YEAR LIMITED WARRANTY
