

Xbox Pro Charging Stand

Every Gamer needs an Xbox Pro Charging Stand!

What's worse than losing in an Xbox multiplayer match? What about losing because your controller died? Don't throw your controller against the wall! Be competition ready and keep your Xbox Wireless Controller charged with Controller Gear's officially licensed Xbox Pro Charging Stand. The Xbox Pro Charging Stand is a premium high performing charging stand offering a sleek design and a seamless charging experience. It's built with the exact same high quality material as your Xbox Wireless Controller, so it's always an exact match and a perfect fit.

Each Xbox Pro Charging Stand comes with a premium charging stand, battery cover, rechargeable battery, and 6' power cord. Keep an eye out for new Special Edition and Limited Edition Xbox Pro Charging Stands that match your new Xbox Special Edition and Limited Edition Controllers.

Available in:

Abyss Black, Robot White, Oxide Red, Photon Blue, Zest Orange, Military Green

Gears of Wars Pro Charging Stands: Elite, Crimson Omen, and JD Fenix

Special Edition Pro Charging Stands: Recon Tech and more to come!

Charging Stand:

- Manufactured with the same exact high quality and color material as your Xbox One Controller
- Masterful design that includes a magnetic contact system to ensure a perfect and secure charge every time
- Ergonomically engineered to allow one hand navigation through your Xbox One dashboard while the controller is on the charging stand
- Display and charge your Xbox One controller with ease
- Officially licensed charging stand for Xbox One

Battery Cover:

- Engineered with a magnetic contact system to ensure a perfect and secure charge every time
- Each charging stand includes a controller coordinated battery cover to match your Xbox Wireless Controller
- The battery cover is available in all 15 design lab colors to match your custom Design Lab Controller

Rechargeable Battery & Power Cord:

- Includes rechargeable 2.4 volt battery; eliminates the need for Double-A batteries
- Controller will be fully charged in 2 hours
- 6 ft. charging cable
- When plugged in, the LED on the front of the charging stand flashes 3 times. When the controller is placed on the charging stand, the LED turns orange to indicate the controller is charging. Once the controller is fully charged, the LED turns Green.
