## The complete platform for music production

Take control of your productions. **ACID Music Studio** helps you get started in loop-based music production. It's easy. Place a beat on the timeline, and the software accomplishes what would otherwise be done by a pro. This enables you to concentrate fully on making music. **ACID Music Studio** accompanies you every step of the way. Compose, edit and mix your tracks like a pro in minutes with the help of integrated tutorials.

### Highlights:

- Multi-track recording in studio quality - 24 bit/192 kHz support included
- zplane élastique timestretching for adding effects without loss in quality
- Support for ASIO drivers, VST effects and MIDI import/export
- Extensive support for imports and exports including FLAC and AAC files

## System requirements

### **Compatible with:**

Microsoft Windows | 7 | 8 | 8.1 | 10

All MAGIX programs are developed with user-friendliness in mind so that all the basic features run smoothly and can be fully controlled, even on low-performance computers. The technical data for your computer can be found in the control panel of your operating system.

**Processor:** 1 GHz

**RAM:** 1 MB RAM

**Hard disk space:** 200 MB disk space for program installation

**Graphics card:** Onboard

**Sound card:** Onboard

**Internet connection:** Online registration required for software activation.

Take control of your productions. **ACID Music Studio** helps you get started in loop-based music production. Place a beat on the timeline, and the software accomplishes what would otherwise be done by a pro.

**ACID Music Studio** accompanies you every step of the way. Compose, edit and mix your tracks like a pro in minutes with the help of integrated tutorial. Record in 24 bit /192 kHz on any number of tracks, add high-quality loops or draw sound sequences directly in the timeline. Using powerful MIDI editing and sequencing tools, you can draw and edit MIDI content directly in the Piano Roll or Drum Editor. The VST interface lets you expand your instrument collection as much as you want.

## Highlights:

- Multi-track recording in studio quality - 24 bit/192 kHz support included
- zplane élastique timestretching for adding effects without loss in quality
- Support for ASIO drivers, VST effects and MIDI import/export
- Extensive support for imports and exports including FLAC and AAC files
