Safety Instructions & FCC Warning

Important Safety Instructions

● Please use the included AC power cable to power the machine. Only use the included accessories specified by the manufacturer.

● It is normal for the machine to generate heat during operation. To prevent overheating, do not block the ventilation openings.

● **CAUTION:** Do not look straight into the projector lens while on, as it may cause serious eye damage. Do not touch the lens.

● Clean only with a dry cloth.

● To reduce the risk of fire or electric shock, do not expose the device to rain or moisture. Objects filled with liquids, such as vases, should not be placed on these devices, as it may lead to potential accidents that damage the device.

● Protect this device from overexposure to direct sunlight, heat, big temperature fluctuations, and moisture. Avoid extreme temperatures. The suitable operations and storage temperature for this device and its accessories are 0°C to 35°C / 0°F to 95°F.

● Avoid any type of impact, as it may damage the internal components.

● Do not make any repairs to this device by yourself. Our company will not cover the warranty if self-repair efforts were undertaken.

● Please contact the seller for technical support when the product has any type of problem, Contact details are revealed at the end of this manual.

FCC Warning

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

● Reorient or relocate the receiving antenna.

● Increase the separation between the equipment and receiver.

● Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

● Consult the dealer or an experienced radio/TV technician for help.

FAQ

Q: The projector is not turning on.

A: Please be sure that the AC power cable is plugged in tightly, and press the power switch on the projector's panel or use the remote control to turn it on.

Q: The projector is turned on, but no image is displayed

- A: ①Please make sure your device is connected to the projector correctly.
②Check the lens cover has been removed.
③Check if the input signal source is correct, and then switch into projection mode, Wait for a while and operate it again.
④Please make sure that the video source is equal or under 1080P.
⑤ If it is still not working, please contact us for further support.

Q:The Lamp (Bulb) switches off after a period of time.

- A:1. Leave the projector to cool for a few moments.
2. Once cooled, check if anything is blocking the ventilation vents.
3. Turn on the projector.

If the issue persists please contact us.

Q: When playing a video, is see the image but I hear no sound

A: If you connect to your laptop via a HDMI adapter. The audio cable of the adapter needs to be plugged into the audio output port from your laptop to the projector using a 3.5mm audio jack.

Q: The projection is not bright enough

A: We recommend using the projector in a relatively dark environment to bring out the best image brightness.

This project is designed for Home Entertainment and not recommended for Power point or other business presentations.

Q: Spots on the screen.

Using a vacuum cleaner to dean the lens. If cleaning does not resolve things, please contact your support provider for further assistance.

Q: I get a blurry image?

A: The recommended projection distance is 3-5m. Please adjust the Keystone correction to get a rectangular image first, then adjust the Focus to get a clear image.

The optimal focus is obtained when the pixels are clearly visible. If the projection size is too large, the focus near the screen edges may be less sharp than at the screen center.

Q: My projector noise is too loud, is it broken?

A: The projector noise comes from the fan of its cooling system . Projector generates heat during operation as the light bubble produces strong light to make a bright image. It is normal for the projector to make a loud noise. Brighter the image .louder the sound is. You can place the projector far from where you are, or you can connect a louder speaker to the projector to cover up the noise.

Q: Can you adjust the brightness/Sharpness of the video?

A: Path: Set up (Click "Source")-Picture-Picture Mode(Choose "User")-Adjust via remote control .For non-professionals, we recommend using the default value.

Remove the compartment cover

Please see the illustration and remove the compartment cover on the back of the projector by pulling out carefully . And you'll find here is with HDMI 2 port and USB charging port .

To make a warranty claim, do not return this product to the store. Please email support@curtiscs.com or call 1-800-968-9853.

90 day Warranty

This product is warranted to be free from defects in material and workmanship for a period of ninety (90) days from the date of original purchase. During this period, your exclusive remedy is repair or replacement of this product or component found to be defective, at our option; however, you are responsible for all costs associated with returning the product to us. If the product or component is no longer available, we will replace with a similar one of equal or greater value. Prior to a replacement being sent, the product must be rendered inoperable or returned to us.

This warranty does **not** cover glass, filters, wear from normal use, use not in conformity with the printed directions., or damage to the product resulting from accident, alteration, abuse, or misuse. This warranty extends only to the original consumer purchaser or gift recipient. Keep the original sales receipt, as proof of purchase is required to make a warranty claim. This warranty is void if the product is used for other than single-family household use or subjected to any voltage and waveform other than as on the specified rating on the label (e.g., 120V~60Hz).

We exclude all claims for special, incidental, and consequential damages caused by breach of express or implied warranty. All liability is limited to the amount of the purchase price. **Every implied warranty, including any statutory warranty or condition of merchantability or fitness for a particular purpose, is disclaimed except to the extent prohibited by law, in which case such warranty or condition is limited to the duration of this written warranty.** This warranty gives you specific legal rights. You may have other legal rights that vary depending on where you live. Some states or provinces do not allow limitations on implied warranties or special, incidental, or consequential damages, so the foregoing limitations may not apply to you.

For faster service, locate the model, type, and serial numbers on your appliance.
