Key Features: This all-in-one design is compatible with all SIM card sizes: Nano, Micro and Standard. The phone should either be a Consumer Cellular phone, a phone previously used with AT&T or T-Mobile, or an unlocked GSM phone.

Marketing Text: Now you can use your own phone with the Consumer Cellular All-In-One SIM card. It's quick and easy, and there are no activation fees. To be compatible, your phone should be a Consumer Cellular phone, a phone previously used with AT&T or T-Mobile, or an unlocked GSM phone. The All-In-One SIM card can be purchased for \$9.99, and it is activated the same way as our phones – by calling our U.S. based customer service or activating online at www.ConsumerCellular.com/Activate and using the 8-digit activation code found inside the packaging. Upon activation, we'll apply a \$10 credit towards the first invoice – making the SIM card free!
