

Sunpak

Ball Head with Quick Release

Highlights

The Sunpak 4300B Ball head with Quick Release is a heavy-duty equipment support with a quick release mounting platform. The Sunpak 4300B attaches to most tripods fitted with removable heads and 1/4"-20 threads. The rugged ball-and-socket head design allows for quick camera positioning at virtually any angle. The ball head rotates a complete 360 degrees and with its quick release plate, makes mounting your camera super fast. The locking mechanism on the quick release lever ensures that your camera is securely fastened to the ball head. And best of all, comes with a limited lifetime warranty
