Stainless Steel
Baked to Perfection on Every Rack, Every Time
No more getting burned by inconsistent baking. LG ProBake Convection™ delivers even, precise heat on every rack, every time. Inspired by pro ranges, it’s the first freestanding range with the heating element moved from the bottom of the oven to the back, so your cookies, cakes, roasts and more are perfectly browned every time.

A Clean Oven in Just 10 Minutes
LG EasyClean® brings you our fastest oven-cleaning feature yet. In just three steps your oven can sparkle, all without strong chemical fumes or heat. Simply spray the oven interior with water, press EasyClean and 10 later, wipe away leftover grime. There’s even a traditional self-clean high heat.

MULTIPLE GUESTS? MULTIPLE DISHES? NO PROBLEM.
Simplify dinnertime with LG’s 7.3 cu. ft. double oven offering the largest capacity available. Use the quick-heating upper oven for smaller meals on the go. For big events, you’ll have the room you need to cook all your favorite dishes, at different temperatures, at the same time. With LG, no meal (or guest list) is too big.

LG’s FASTEST BOILING COOKTOP ELEMENTS
Just when you thought it couldn’t get any faster, it did. With 3200 watts, these dual cooktop elements are the most powerful available.* Not only do they deliver LG’s fastest boil, they let you match the element size to your cookware for the utmost in flexibility.
