EXPANDABLE DYNAMIC RGB ROCK LIGHT KITS

FOR WHEEL WELL / UNDERBODY VEHICLE LIGHTING

This universal underbody kit adds dynamic RGB lighting to any area you desire. The plug-and-play installation makes adding this eye-catching feature easy, with no soldering or crimping needed. Bluetooth enabled so you can control the lights via the enLIGHT10 by Stinger App, choosing specific colors and dynamic modes.

Designed for the Elements

Reliable in the most extreme environments including water, dirt, dust and debris.

Super Bright LEDs

Colorfully illuminate your vehicle with bright, powerful RGB lighting.

Perfect Fit

Can be mounted on flat surfaces and bully bars.

Features:

- Endless color combinations and patterns
- Control your light show with proprietary enLIGHT10 by Stinger App
- HEIGH10® compatible so you can adjust your lighting directly from your infotainment system (SE-SXMHAR sold separately)
- Expandable daisy chain connection to easily add additional pods
- 10ft extension cables for larger vehicles
- Durable aluminum housing
- Rugged watertight connections
- Rock lights contain 24 LED's each for maximum illumination
