## Notices

### ASUS Recycling/Takeback Services

ASUS recycling and takeback programs come from our commitment to the highest standards for protecting our environment. We believe in providing solutions for you to be able to responsibly recycle our products, batteries, other components, as well as the packaging materials. Please go to <http://csr.asus.com/english/Takeback.htm> for the detailed recycling information in different regions.

### REACH

Complying with the REACH (Registration, Evaluation, Authorisation, and Restriction of Chemicals) regulatory framework, we published the chemical substances in our products at ASUS REACH website at <http://csr.asus.com/english/REACH.htm>

### Federal Communications Commission Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference; and
- This device must accept any interference received including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with manufacturer's instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The use of shielded cables for connection of the monitor to the graphics card is required to assure compliance with FCC regulations. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

#### ***Lithium Battery Warning***

**CAUTION:** Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer's instructions.

**MISE EN GARDE:** Danger d'explosion si la pile n'est pas remplacée correctement. Remplacer uniquement avec une pile de type semblable ou équivalent, recommandée par le fabricant. Mettez au rebut les batteries usagées conformément aux instructions du fabricant.

## IC: Canadian Compliance Statement

Complies with the Canadian ICES-003 Class B specifications. This device complies with RSS 210 of Industry Canada. This Class B device meets all the requirements of the Canadian interference-causing equipment regulations.

This device complies with Industry Canada license exempt RSS standard(s). Operation is subject to the following two conditions: this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil numérique de la Classe B est conforme à la norme NMB-003 du Canada. Cet appareil numérique de la Classe B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

Cet appareil est conforme aux normes CNR exemptes de licence d'Industrie Canada. Le fonctionnement est soumis aux deux conditions suivantes.

(1) cet appareil ne doit pas provoquer d'interférences et

(2) cet appareil doit accepter toute interférence, y compris celles susceptibles de provoquer un fonctionnement non souhaité de l'appareil.

## Canadian Department of Communications Statement

This digital apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the Radio Interference Regulations of the Canadian Department of Communications.

This class B digital apparatus complies with Canadian ICES-003.

## KC: Korea Warning Statement

B급 기기 (가정용 방송통신기자재)

이 기기는 가정용(B급) 전자파적합기기로서 주로 가정에서 사용하는 것을 목적으로 하며, 모든 지역에서 사용할 수 있습니다.

\*당해 무선설비는 전파혼신 가능성이 있으므로 인명안전과 관련된 서비스는 할 수 없습니다.

## VCCI: Japan Compliance Statement

### VCCI Class B Statement

この装置は、クラスB情報技術装置です。この装置は、家庭環境で使用することを目的としていますが、この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。

取扱説明書に従って正しい取り扱いをして下さい。

This is a Class B product based on the standard of the VCCI Council. If this is used near a radio or television receiver, it may cause radio interference. Install and use equipment according to the instruction manual.

### Equipment registered based on the confirmation measurement at the user installation site.

この装置は、現在設置されている場所で妨害波の測定がされた情報技術装置であり、VCCI協会の基準に適合しています。

従って、現在設置されている場所以外で使用する場合は、再び妨害波を測定し、VCCIに届け出をしなければなりません。

This is a product for which interference was measured at the present installation site and confirmed to comply with the standard of Voluntary Control Council for Interference by Information Technology Equipment (VCCI). Before using the equipment at any location other than the present installation site, the member shall measure interference for confirmation and register the result to VCCI.

## RF Equipment Notices

### CE: European Community Compliance Statement

The equipment complies with the RF Exposure Requirement 1999/519/EC, Council Recommendation of 12 July 1999 on the limitation of exposure of the general public to electromagnetic fields (0–300 GHz). This wireless device complies with the R&TTE Directive.

### Wireless Radio Use

This device is restricted to indoor use when operating in the 5.15 to 5.25 GHz frequency band.

### Exposure to Radio Frequency Energy

The radiated output power of the Wi-Fi technology is below the FCC radio frequency exposure limits. Nevertheless, it is advised to use the wireless equipment in such a manner that the potential for human contact during normal operation is minimized.

### FCC Bluetooth Wireless Compliance

The antenna used with this transmitter must not be colocated or operated in conjunction with any other antenna or transmitter subject to the conditions of the FCC Grant.

### Bluetooth Industry Canada Statement

This Class B device meets all requirements of the Canadian interference-causing equipment regulations.

Cet appareil numérique de la Class B respecte toutes les exigences du Règlement sur le matériel brouilleur du Canada.

**BSMI: Taiwan Wireless Statement**

無線設備의警告聲明  
經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更射頻、加大功率或變更原設計之特性及功能。低功率射頻電機之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。前項合法通信指依電信法規定作業之無線通信。低功率射頻電機須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

於 5.25GHz 至 5.35GHz 區域內操作之  
無線設備의警告聲明  
工作頻率 5.250 ~ 5.350GHz 該頻段限於室內使用。

**Japan RF Equipment Statement**

この製品は、周波数帯域5.15～5.35GHzで動作しているときは、屋内においてのみ使用可能です。

**KC (RF Equipment)**

해당 무선설비는 운용 중 전파혼신 가능성이 있음,  
이 기기는 인명안전과 관련된 서비스에 사용할 수 없습니다.

## Safety information

Disconnect the AC power and peripherals before cleaning. Wipe the Desktop PC using a clean cellulose sponge or chamois cloth dampened with solution of nonabrasive detergent and a few drops of warm water then remove any extra moisture with a dry cloth.

- **DO NOT** place on uneven or unstable work surfaces. Seek servicing if the casing has been damaged.
- **DO NOT** expose to dirty or dusty environments. **DO NOT** operate during a gas leak.
- **DO NOT** place or drop objects on top and do not shove any foreign objects into the Desktop PC.
- **DO NOT** expose to strong magnetic or electrical fields.
- **DO NOT** expose to or use near liquids, rain, or moisture. **DO NOT** use the modem during electrical storms.
- Battery safety warning: **DO NOT** throw the battery in fire. **DO NOT** short circuit the contacts. **DO NOT** disassemble the battery.
- Use this product in environments with ambient temperatures between 0°C (32°F) and 40°C (104°F).
- **DO NOT** cover the vents on the Desktop PC to prevent the system from getting overheated.
- **DO NOT** use damaged power cords, accessories, or other peripherals.
- To prevent electrical shock hazard, disconnect the power cable from the electrical outlet before relocating the system.
- Seek professional assistance before using an adapter or extension cord. These devices could interrupt the grounding circuit.
- Ensure that your power supply is set to the correct voltage in your area. If you are not sure about the voltage of the electrical outlet you are using, contact your local power company.
- If the power supply is broken, do not try to fix it by yourself. Contact a qualified service technician or your retailer.

Hazardous moving parts. Desktop should be completely shutdown before servicing product. Replacing fan components should only be attempted by qualified service personnel.

### **Hazardous Moving Parts Warning**

**WARNING:** Keep fingers and other body parts away from any moving parts.

## Conventions used in this guide

To ensure that you perform certain tasks properly, take note of the following symbols used throughout this manual.

**DANGER/WARNING:** Information to prevent injury to yourself when trying to complete a task.

**CAUTION:** Information to prevent damage to the components when trying to complete a task.

**IMPORTANT:** Instructions that you **MUST** follow to complete a task.

**NOTE:** Tips and additional information to help you complete a task.

## Where to find more information

Refer to the following sources for additional information and for product and software updates.

### ASUS websites

The ASUS website provides updated information on ASUS hardware and software products. Refer to the ASUS website [www.asus.com](http://www.asus.com).

### ASUS Local Technical Support

Visit ASUS website at <http://support.asus.com/contact> for the contact information of local Technical Support Engineer.

# Chapter 1

## Getting started

### Welcome!

Thank you for purchasing the ASUS Desktop PC!

The ASUS Desktop PC provides cutting-edge performance, uncompromised reliability, and user-centric utilities. All these values are encapsulated in a stunningly futuristic and stylish system casing.

---

Read the ASUS Warranty Card before setting up your ASUS Desktop PC.

---

### Getting to know your computer

---

Illustrations are for reference only. The ports, their locations and the chassis color vary with different models.

---

## Front

- 1 USB 3.1 gen1 port.** The Universal Serial Bus 3.1 gen1 (USB 3.1 gen1) port connects to USB 3.1 gen1 devices such as a mouse, printer, scanner, camera, PDA, and others.

- DO NOT connect a keyboard / mouse to any USB 3.1 gen1 port when installing Windows® operating system.
- Due to USB 3.1 gen1 controller limitations, USB 3.1 gen1 devices can only be used under a Windows® OS environment and after USB 3.1 gen1 driver installation.
- USB 3.1 gen1 devices can only be used as data storage only.
- We strongly recommend that you connect USB 3.1 gen1 devices to USB 3.1 gen1 ports for faster and better performance for your USB 3.1 gen1 devices.

- 2 Secure Digital™ (SD) / Memory Stick (MS) card slot.** Insert a supported memory card into this slot

- 3 Microphone port.** This port connects to a microphone.

- 4 Headphone port.** This port connects to a headphone or speaker. Supported by ASUS Audio Wizard.

- 5 USB 2.0 ports.** These Universal Serial Bus 2.0 (USB 2.0) ports connect to USB 2.0 devices such as a mouse, printer, scanner, camera, PDA, and others.

- 6 Power button.** Press this button to turn on your computer.

- 7 Optical disk drive bay.** There is an optical disk drive in this bay.

## Rear

- 1 USB 2.0 ports.** These Universal Serial Bus 2.0 (USB 2.0) ports connect to USB 2.0 devices such as a mouse, printer, scanner, camera, PDA, and others.
- 2 USB 3.1 gen1 Type C port.** This Universal Serial Bus (USB) Type C port is for USB 3.1 gen1 mobile or peripheral devices.
- 3 USB 3.1 gen1 Type A port.** This 9-pin Universal Serial Bus (USB) Type A port is for USB 3.1 gen1 devices.
- 4 Side Speaker Out port (gray).** This port connects to the side speakers in an 8-channel audio configuration.
- 5 Rear Speaker Out port (black).** This port connects to the rear speakers in a 4, 6, and 8-channel audio configuration.
- 6 Center/Subwoofer port (orange).** This port connects to the center/subwoofer speakers.

- 7 **Microphone port (pink).** This port connects to a microphone.
- 8 **Line Out port (lime).** This port connects to a headphone or speaker. In a 4.1, 5.1, or 7.1-channel configuration, the function of this port becomes Front Speaker Out. Supported by ASUS Audio Wizard.
- 9 **Line In port (light blue).** This port connects to a tape, CD, DVD player, or other audio sources.

Refer to the audio configuration table below for the function of the audio ports in a 2.1, 4.1, 5.1, or 7.1-channel configuration.

#### Audio 2.1, 4.1, 5.1, or 7.1-channel configuration

| Port       | Headset<br>2.1-channel | 4.1-channel       | 5.1-channel       | 7.1-channel       |
|------------|------------------------|-------------------|-------------------|-------------------|
| Light Blue | Line In                | Line In           | Line In           | Line In           |
| Lime       | Line Out               | Front Speaker Out | Front Speaker Out | Front Speaker Out |
| Pink       | Mic In                 | Mic In            | Mic In            | Mic In            |
| Orange     | –                      | –                 | Center/Subwoofer  | Center/Subwoofer  |
| Black      | –                      | Rear Speaker Out  | Rear Speaker Out  | Rear Speaker Out  |
| Gray       | –                      | –                 | –                 | Side Speaker Out  |

- 10 **Power connector.** Plug the power cord to this connector.

**RATING:** • 100~120/220~240Vac, 50/60Hz, 6.0/3.0A.

- 11 **Air vents.** These vents allow air ventilation.

DO NOT block the air vents on the chassis. Always provide proper ventilation for your computer.

- 12 **Expansion slot brackets.** Remove the expansion slot bracket when installing an expansion card.
- 13 **ASUS Graphics Cards (on selected models only).** The display output ports on these optional ASUS Graphics Cards may vary with different models.
- 14 **LAN (RJ-45) port.** This port allows Gigabit connection to a Local Area Network (LAN) through a network hub.

| Activity/Link LED |               | Speed LED |                    |
|-------------------|---------------|-----------|--------------------|
| Status            | Description   | Status    | Description        |

| ORANGE            | Linked        | ORANGE    | 100Mbps connection |
| BLINKING          | Data activity | GREEN     | 1Gbps connection   |

ACT/LINK LED    SPEED LED

LAN port

## Setting up your computer

This section guides you through connecting the main hardware devices, such as the external monitor, keyboard, mouse, and power cord, to your computer.

### Connecting an external monitor

#### Using the ASUS Graphics Card (on selected models only)

Connect your monitor to the display output port on the discrete ASUS Graphics Card.

#### To connect an external monitor using the ASUS Graphics Card:

1. Connect a monitor to a display output port on the ASUS Graphics Card.
2. Plug the monitor to a power source.

The display output ports on the ASUS Graphics Card may vary with different models.

### Connecting a USB keyboard and a USB mouse

Connect a USB keyboard and a USB mouse to the USB ports on the rear panel of your computer.

## Turning your computer ON

This section describes how to turn on your computer after setting up your computer.

### Turning your computer ON

To turn your computer ON:

1. Turn your monitor ON.
2. Press the power button on your computer.

3. Wait until the operating system loads automatically.

---

For details on shutting down your Desktop PC, refer to the **Windows<sup>®</sup> 10 User Manual**, which can be found in this manual.

---

# Chapter 2

## Connecting devices to your computer

### Connecting a USB storage device

This desktop PC provides USB 2.0 and USB 3.1 gen1 ports on the front and rear panels. The USB ports allow you to connect USB devices such as storage devices.

#### To connect a USB storage device:

- Insert the USB storage device to your computer.

#### Front panel

#### Rear panel

## Connecting microphone and speakers

This desktop PC comes with microphone ports and speaker ports on both the front and rear panels. The audio I/O ports located on the rear panel allow you to connect 2.1-channel, 4.1-channel, 5.1-channel, and 7.1-channel stereo speakers.

### Connecting Headphone and Mic

### Connecting 2.1-channel Speakers

## Connecting 4.1-channel Speakers

## Connecting 5.1-channel Speakers

## Connecting 7.1-channel Speakers

## Connecting multiple external displays

Your desktop PC may come with VGA, HDMI, or DVI ports and allows you to connect multiple external displays.

### Setting up multiple displays

When using multiple monitors, you are allowed to set display modes. You can use the additional monitor as a duplicate of your main display, or as an extension to enlarge your Windows desktop.

#### To set up multiple displays:

1. Turn off your computer.
2. Connect the two monitors to your computer and connect the power cords to the monitors. Refer to Setting up your computer section in Chapter 1 for details on how to connect a monitor to your computer.

3. Turn on your computer.
4. From the Start menu, click **Settings > System > Display**.
5. Configure the settings for your displays.

For some graphic cards, only the monitor that is set to be the primary display has display during POST. The dual display function works only under Windows.

## Connecting an HDTV

Connect a High Definition TV (HDTV) to the HDMI port of your computer.

- You need an HDMI cable to connect the HDTV and the computer. The HDMI cable is purchased separately.
- To get the best display performance, ensure that your HDMI cable is less than 15 meters.

# Chapter 3

## Using your computer

### Proper posture when using your Desktop PC

When using your Desktop PC, maintaining the proper posture is necessary to prevent strain to your wrists, hands, and other joints or muscles. This section provides you with tips on avoiding physical discomfort and possible injury while using and fully enjoying your Desktop PC.

#### To maintain the proper posture:

- Position your computer chair to make sure that your elbows are at or slightly above the keyboard to get a comfortable typing position.
- Adjust the height of your chair to make sure that your knees are slightly higher than your hips to relax the backs of your thighs. If necessary, use a footrest to raise the level of your knees.
- Adjust the back of your chair so that the base of your spine is firmly supported and angled slightly backward.
- Sit upright with your knees, elbows and hips at an approximately 90° angle when you are at the PC.
- Place the monitor directly in front of you, and turn the top of the monitor screen even with your eye level so that your eyes look slightly downward.
- Keep the mouse close to the keyboard, and if necessary, use a wrist rest for support to reduce the pressure on your wrists while typing.
- Use your Desktop PC in a comfortably-lit area, and keep it away from sources of glare such as windows and straight sunlight.
- Take regular mini-breaks from using your Desktop PC.

## Using the optical drive

### Inserting an optical disc

#### To insert an optical disc:

1. While your system is on, press the eject button to open the tray.
2. Place the disc on the optical drive with the label side outward if the desktop is positioned vertically and the label side up if the desktop is positioned horizontally.
3. Push the tray gently to close it.
4. Select a program from the AutoPlay window to access your files.

---

If AutoPlay is NOT enabled in your computer, to access the data on an optical disc, hover your mouse pointer over the lower left corner of Windows' desktop then right-click on the Start screen's thumbnail. From the popup menu, click **File Explorer**, and then double-click the CD/DVD drive icon.

---

### Removing an optical disc

#### To remove an optical disc:

1. While the system is on, do either of the following to eject the tray:
  - Press the eject button below the drive bay cover.
  - From the Start menu, click **File Explorer**, right-click the CD/DVD drive icon, and click **Eject**.
2. Remove the disc from the disc tray.

# Chapter 4

## Connecting to the Internet

### Wired connection

Use an RJ-45 cable to connect your computer to a DSL/cable modem or a local area network (LAN).

#### Connecting via a DSL/cable modem

To connect via a DSL/cable modem:

1. Set up your DSL/cable modem.

Refer to the documentation that came with your DSL/cable modem.

2. Connect one end of an RJ-45 cable to the LAN (RJ-45) port on the rear panel of your computer and the other end to a DSL/cable modem.

3. Turn on the DSL/cable modem and your computer.
4. Configure the necessary Internet connection settings.

- Contact your network administrator for details or assistance in setting up your Internet connection.
- For more details, refer to the sections **Configuring a dynamic IP/PPPoE network connection** or **Configuring a static IP network connection**.

## Connecting via a local area network (LAN)

### To connect via a LAN:

1. Connect one end of an RJ-45 cable to the LAN (RJ-45) port on the rear panel of your computer and the other end to your LAN.

2. Turn on your computer.
3. Configure the necessary Internet connection settings.

- Contact your network administrator for details or assistance in setting up your Internet connection.
- For more details, refer to the sections **Configuring a dynamic IP/PPPoE network connection** or **Configuring a static IP network connection**.

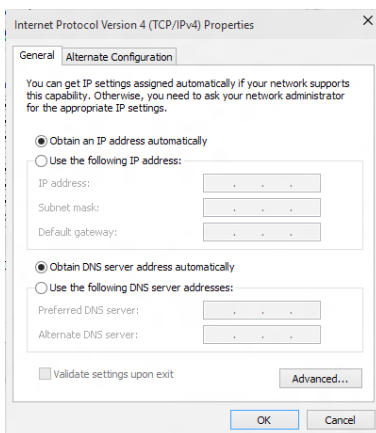

## Configuring a dynamic IP/PPPoE network connection

To configure a dynamic IP/PPPoE network connection:

1. Launch **Network and Sharing Center** in either of these two ways:
  - a) From the taskbar, right-click , then click **Open Network and Sharing Center**.
  - b) From the Start menu, click **Settings > Network & Internet > Ethernet > Network and Sharing Center**.
2. From the Open Network and Sharing Center screen, click **Change Adapter settings**.
3. Right-click on your LAN and select **Properties**.
4. Click **Internet Protocol Version 4(TCP/IPv4)** and click **Properties**.

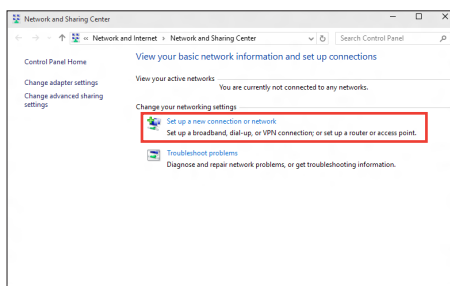

5. Click **Obtain an IP address automatically** and click **OK**.

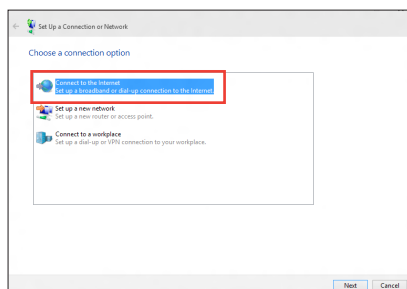

Continue to the next steps if you are using PPPoE connection.

7. Return to the **Network and Sharing Center** and then click **Set up a new connection or network**.

8. Select **Connect to the Internet** and click **Next**.

9. Select **Broadband (PPPoE)** and click **Next**.
10. Follow the next onscreen instructions to complete the setup.

## Configuring a static IP network connection

To configure a static IP network connection:

1. Repeat steps 1 to 4 of the previous section.
2. Click **Use the following IP address**.
3. Enter the IP address, Subnet mask and Gateway from your service provider.
4. If needed, enter the preferred DNS Server address and alternative address.
5. When done, click **OK**.

## Wi-Fi connection (on selected models only)

Connect your computer to the Internet through a wireless connection.

To establish a wireless connection, you need to connect to a wireless access point (AP).

To increase the range and sensitivity of the wireless radio signal, connect the external antennas to the antenna connectors on the ASUS WLAN Card.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

# Chapter 5

## Troubleshooting

### Troubleshooting

This chapter presents some problems you might encounter and the possible solutions.

#### ? *My computer cannot be powered on and the power LED on the front panel does not light up.*

- Check if your computer is properly connected.
- Check if the wall outlet is functioning.
- Check if the Power Supply Unit is switched on. Refer to the section **Turning your computer ON** in Chapter 1.

#### ? *My computer hangs.*

- Do the following to close the programs that are not responding:
  1. Simultaneously press <Alt> + <Ctrl> + <Delete> keys on the keyboard, then click **Task Manager**.
  2. Under **Task Manager** in the **Processes** tab, select the program that is not responding, then click **End Task**.
- If the keyboard is not responding, press and hold the Power button on the top of your chassis until the computer shuts down. Then press the Power button to turn it on.

#### ? *I cannot connect to a wireless network using the ASUS WLAN Card (on selected models only)?*

- Ensure that you enter the correct network security key for the wireless network you want to connect to.
- Connect the external antennas (optional) to the antenna connectors on the ASUS WLAN Card and place the antennas on the top of your computer chassis for the best wireless performance.

#### ? *The arrow keys on the number key pad are not working.*

Check if the Number Lock LED is off. When the Number Lock LED is on, the keys on the number key pad are used to input numbers only. Press the Number Lock key to turn the LED off if you want to use the arrow keys on the number key pad.

### ? *No display on the monitor.*

- Check if the monitor is powered on.
- Ensure that your monitor is properly connected to the video output port on your computer.
- If your computer comes with a discrete graphics card, ensure that you connect your monitor to a video output port on the discrete graphics card.
- Check if any of the pins on the monitor video connector is bent. If you discover bent pins, replace the monitor video connector cable.
- Check if your monitor is plugged to a power source properly.
- Refer to the documentation that came with your monitor for more troubleshooting information.

### ? *When using multiple monitors, only one monitor has display.*

- Ensure that the both monitors are powered on.
- During POST, only the monitor connected to the VGA port has display. The dual display function works only under Windows.
- When a graphics card is installed on your computer, ensure that you connect the monitors to the output port on the graphics card.
- Check if the multiple displays settings are correct.

### ? *My computer cannot detect my USB storage device.*

- The first time you connect your USB storage device to your computer, Windows automatically installs a driver for it. Wait for a while and go to My Computer to check if the USB storage device is detected.
- Connect your USB storage device to another computer to test if the USB storage device is broken or malfunctions.

### ? *I want to restore or undo changes to my computer's system settings without affecting my personal files or data.*

You can use Windows® 10 **Refresh your PC without affecting your files** recovery option to restore or undo changes to your computer's system settings without affecting your personal data such as documents or photos. To use this recovery option, click **Settings > Update & recovery > Recovery** from the Start menu, select **Refresh your PC without affecting your files**, and click **Get started**.

### ? *The picture on the HDTV is distorted.*

- It is caused by the different resolutions of your monitor and your HDTV. Adjust the screen resolution to fit your HDTV. To change the screen resolution:
  - From the Start menu, click **Settings > System > Display**.

### ? *My speakers produce no sound.*

- Ensure that you connect your speakers to the Line out port (lime) on the front panel or the rear panel.
- Check if your speak is connected to an electrical source and turned on.
- Adjust your speakers' volume.

2. Right-click  **DVD RW Drive**, then click **Eject** from the menu

## Power

| Problem                                  | Possible Cause  | Action   |
|--|---|--|
| No power<br>(The power indicator is off) | Incorrect power voltage                               | <ul style="list-style-type: none"> <li>• Set your computer's power voltage switch to your area's power requirements.</li> <li>• Adjust the voltage settings. Ensure that the power cord is unplugged from the power outlet.</li> </ul> |
|  | Your computer is not turned on.                       | Press the power key on the front panel to ensure that your computer is turned on.  |
|  | Your computer's power cord is not properly connected. | <ul style="list-style-type: none"> <li>• Ensure that the power cord is properly connected.</li> <li>• Use other compatible power cord.</li> </ul>  |
|  | PSU (Power supply unit) problems                      | Contact the ASUS Service Center about installing another PSU on your computer.   |

## Display

| Problem  | Possible Cause  | Action   |
|--|---|--|
| No display output after turning the computer on (Black screen) | The signal cable is not connected to the correct VGA port on your computer. | <ul style="list-style-type: none"> <li>Connect the signal cable to the correct display port (onboard VGA or discrete VGA port).</li> <li>If you are using a discrete VGA card, connect the signal cable to the discrete VGA port.</li> </ul> |
|  | Signal cable problems   | Try connecting to another monitor.   |

## LAN

| Problem                    | Possible Cause  | Action   |
|----------------------------|---|--|
| Cannot access the Internet | The LAN cable is not connected.                             | Connect the LAN cable to your computer.  |
|                            | LAN cable problems  | Ensure the LAN LED is on. If not, try another LAN cable. If it still does not work, contact the ASUS service center. |
|                            | Your computer is not properly connected to a router or hub. | Ensure that your computer is properly connected to a router or hub.  |
|                            | Network settings  | Contact your Internet Service Provider (ISP) for the correct LAN settings.   |
|                            | Problems caused by the anti-virus software                  | Close the anti-virus software.   |
|                            | Driver problems   | Reinstall the LAN driver   |

# Audio

| Problem  | Possible Cause                                       | Action   |
|----------|--|--|
| No Audio | Speaker or headphone is connected to the wrong port. | <ul style="list-style-type: none"> <li>Refer to your computer's user manual for the correct port.</li> <li>Disconnect and reconnect the speaker to your computer.</li> </ul> |
|          | Speaker or headphone does not work.                  | Try using another speaker or headphone.  |
|          | The front and back audio ports do not work.          | Try both the front and back audio ports. If one port failed, check if the port is set to multi-channel.  |
|          | Driver problems                                      | Reinstall the audio driver   |

# System

| Problem                            | Possible Cause   | Action   |
|------------------------------------|--|--|
| System speed is too slow           | Too many programs are running.                         | Close some of the programs.  |
|                                    | Computer virus attack                                  | <ul style="list-style-type: none"> <li>Use an anti-virus software to scan for viruses and repair your computer.</li> <li>Reinstall the operating system.</li> </ul>  |
| The system often hangs or freezes. | Hard disk drive failure                                | <ul style="list-style-type: none"> <li>Send the damaged hard disk drive to ASUS Service Center for servicing.</li> <li>Replace with a new hard disk drive.</li> </ul>  |
|                                    | Memory module problems                                 | <ul style="list-style-type: none"> <li>Replace with compatible memory modules.</li> <li>Remove the extra memory modules that you have installed, then try again.</li> <li>Contact the ASUS Service Center for assistance.</li> </ul> |
|                                    | There is not enough air ventilation for your computer. | Move your computer to an area with better air flow.  |
|                                    | Incompatible softwares are installed.                  | Reinstall the OS and reinstall compatible softwares.   |

## CPU

| Problem  | Possible Cause  | Action  |
|--|---|---|
| Too noisy right after turning on the computer. | Your computer is booting up.                          | It is normal. The fan runs on its full speed when the computer is powering on. The fan slows down after entering the OS.  |
|  | The BIOS settings have been changed.                  | Restore the BIOS to its default settings.   |
|  | Old BIOS version                                      | Update the BIOS to the latest version. Visit the ASUS Support site at <a href="http://support.asus.com">http://support.asus.com</a> to download the latest BIOS versions.   |
| Computer is too noisy when in use.             | The CPU fan has been replaced.                        | Ensure that you are using a compatible or ASUS-recommended CPU fan.   |
|  | There is not enough air ventilation for the computer. | Ensure that your computer is working in an area with good air flow.   |
|  | The system temperature is too high.                   | <ul style="list-style-type: none"> <li>• Update the BIOS.</li> <li>• If you know how to reinstall the motherboard, try to clean the inner space of the chassis.</li> <li>• Contact the ASUS Service Center for assistance.</li> </ul> |

If the problem still persists, refer to your Desktop PC's warranty card and contact the ASUS Service Center. Visit the ASUS Support site at <http://support.asus.com> for the service center information.
