Installation instructions

Refrigerator water filter

A replacement for the following water filters:

Whirlpool® / KitchenAid® / Maytag® / Amana® / Jenn-Air®

EDR1RXD1, Everydrop Filter 1, FILTER 1, W10295370A, W10295370, P4RFWB, W10217316, W10276924, W10291030, W10295370-AX, 10276924, 10291030, 10295370, PS2378001, RFC3700A, WF537, GSC25C6EYB, GSC25C4EYB, GSS26C4XXA, GSF26C4EXY, GSF26C4EXS, GSF26C4EXB, GSF26C4EXA, GSC25C5EYB

Kenmore®

46-9081, 46-9930, 469930, 9081, 9930, W10743248, P8KB2L, GP001, FUW5370UPS, GRE1001, NYTTIG-WFL-200, P5WB2L, 5W07, PBWB2L, GSF26C4EXQ, GSS26C4XXQ

Filter life: 6 months or 200 gallons, whichever comes first will vary based on water condition.

Tested and Certified by NSF International against **NSF/ANSI 42** in Model **EFF-6038S1** for the reduction of the claims specified on the Performance Data Sheet, and **NSF/ANSI 372 (≤0.25% lead)**.

Installation instructions

Note: Please make sure to shut off the water supply before installing the filter.

1. Locate the water filter in the top-right corner of the refrigerator compartment.
2. Lift open the filter cover door. The filter will be released and then eject as the door is opened.
3. When the door is completely open, pull the filter straight out.
4. Take the new filter out of its packaging and remove the covers from the O-rings. Be sure the O-rings are still in place after the covers are removed.
5. With the arrow pointing up, align the new filter with the filter housing and slide it into place. The filter cover door will automatically begin to close as the new filter is inserted.
6. Close the filter cover door completely in order to snap the filter into place. You may need to press hard.
7. Flush the water system.
8. Reset filter status light following instructions in your owners manual.
9. Replace filter every 6 months.

⚠ Caution:

This filter should not be used with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

Resetting your filter indicator:

Note: These are the most common filter reset instructions. If the instructions don't work for your refrigerator brand, see the documentation that came with your refrigerator.

Refrigerator brand	Instructions
Whirlpool®	Press the light switch five times within ten seconds. If the fridge has a filter button, press and hold it for 5-10 seconds.
Kenmore®	The filter reset for Kenmore refrigerators varies by model. See the documentation that came with your refrigerator.

Storage and maintenance:

- Replace your filter every 6 months or 200 gallons to achieve optimal performance and prevent bacteria and fungus growth in your filter and supply lines.
- Keep your unused filters in a cool, dark and dry place until you need them.

Frequently asked questions:

Q: Why is it difficult to twist the new filter into the filter housing?

A: Pressure inside may cause the expansion of connector, increasing the installation difficulty.

Therefore, it is recommended you push the new filter in with a little bit of force, but not too hard. Then turn it clockwise.

Q: If I do not change my filter every 6 months, can this damage the system?

A: Yes. You must replace the filter every 6 months or sooner if water flow is reduced or if there is heavy sediment. Filters left in longer will fatigue, degrading the filter performance.

Q: Do I need to flush the filter before using?

A: Yes. It is highly recommended you flush the filter before using. Water filters are made from advanced coconut carbon block, so there are some carbon fines in the filter. You need to flush firstly to remove those carbon fines to get clean water.

⚠ Warning:

To reduce the risk of property damage due to water leakage, this filter MUST be installed in accordance with the manufacturer's specifications and instructions. This filter unit must be replaced every 200 gallons or 6 months. Failure to follow instructions and operating specifications will void your warranty. Further, manufacturer assumes no responsibility or liability for damages arising out of misuse of the product. Whirlpool® is a registered trademark of Whirlpool USA. Whirlpool® is used for reference purposes only. Kenmore® is a registered trademark of KCD LP, LLC. Kenmore® is used for reference purposes only.

*The service life mentioned above is subject to chlorine reduction. Actual result varies according to the local water quality.

Operating specifications:

Operating Temperature: 33 -100°F/0.6 - 38°C

Working Pressure: 20 -100 psi/140 - 689 kPa

Rated Capacity: 200 gallons/757 litres

Flow Rate: 0.5 gpm/1.9 lpm

Performance data sheet

System Model No.: **EFF-6038S1**

Substance	Inf. Average	NSF Specified Challenge Concentration	Ave. % Reduction(%)	Average Product Water Concentration	Max Permissible Product Water Concentration	NSF Reduction Requirements	NSF Test Report
Chlorine Taste and Odor	2.1 mg/L	2.0mg/L±10%	97.0%	0.063mg/L	N/A	≥50%	J-00295502

Substance reduction:

The system has been tested and certified by the NSF International according to NSF/ANSI Standard 42 for the reduction of the substances listed below. The concentration of the indicated substances in water entering the system was reduced to a concentration less than or equal to the permissible limit for the water leaving the system, as specified by NSF/ANSI Standard 42. While testing was performed under standard laboratory conditions, actual performance may vary.
