## Title

Wacom Mobile Studio Pro 16" Windows 10, Intel Core i7, 512GB SSD: Second Generation DTHW1621HK0A

## Description

Push the boundaries of creativity with Wacom MobileStudio Pro 16, the most advanced, powerful and intuitive mobile creative workspace yet. Our latest generation Wacom MobileStudio 16 can meet all high performance demands with its Intel Core i7 Quad-core 8th generation processor and NVIDIA Quadro graphics. Review your artwork in the finest detail with 4K screen resolution and 85 % Adobe RGB coverage (CIE1931). Work quickly and efficiently on animation, illustration, video, CAD or large size photo projects using Wacom Pro Pen 2 – our battery-free pen with over 8,192 levels of pressure sensitivity giving you complete control and precision. Nothing can stand in the way of your creativity.

## Feature Bullets

- Our most powerful device yet with enhanced computing power, fast data processing & quick data transfer, powered by Intel i7-8559U processor, 16GB system memory, 512GB SSD, & Thunderbolt 3 connectivity
- See your artwork in amazing detail and clarity with high-resolution 15.6" 4K/UHD (3840 x 2160) screen with up to 85% Adobe RGB coverage (CIE1931) and included 3-angle adjustable Wacom Stand
- Enjoy fast-processing and high performance in 2D, 3D, video and CAD applications with graphics options including the powerful NVIDIA Quadro P1000 graphic card
- Extraordinary precision with the Wacom Pro Pen 2 and 8,192 levels of pressure sensitivity, tilt response & lag free tracking – pen computer includes customizable ExpressKeys & multi-touch surface
- Comes with 16GB system memory and 512 GB SSD. With upgradable memory and hard drive, this all-in-one studio provides a future-proof creative workspace
