RGBW UNDERBODY LED
LIGHTING KITS

The COLORTRAIL HD Aluminum Channel RGBW LED Underbody Vehicle Kit features endless dynamic color combinations and patterns, controlled via the Stinger ENLIGHT10 app. Compatible with Horizon10 and HEIGH10 systems, it includes two 36-inch and two 48-inch V2 Plasma RGBW strips housed in durable aluminum channels. With an IP65 waterproof rating and 3-pin waterproof connectors, this kit is designed to withstand the toughest environments while enhancing your vehicle's lighting.

Thanks to its flexible design, COLORTRAIL can easily fit into any space or configuration, making it perfect for everything from off-road adventures to boat lighting or showcasing your vehicle at a car meet. These lights are engineered for both style and longevity, turning heads wherever you go.

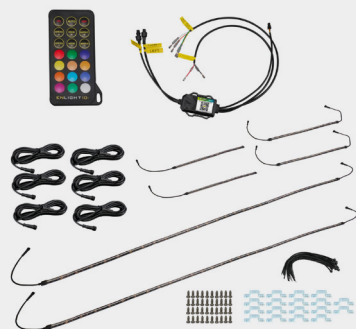

With COLORTRAIL, your ride will not only stand out but also be equipped with a high-performance lighting solution that is built to last.
