

# HP OfficeJet Pro 9110b Printer

Manage printing like a Pro.

The professional color inkjet printer for distributed offices and hybrid workers from Americas most trusted printer brand for business, paired with our best technology to help manage it all. This streamlines work into any network with extra performance features.<sup>1,2</sup>

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>
