

GUD3C03

Compact USB-C Docking Station with PD Pass-Thru

- Full-sized productivity in a compact design
- Affordably connect up to 8 devices
- 4K Ultra HD (UHD)
- SD and Micro SD card reader built-in
- Use your USB-C power supply - Charge your laptop up to 45W

Ultra Compact USB-C Docking Station Packed with Features

Are you looking for a docking station that is affordable, compact, stylish and packed with features? Look no further. The IOGEAR USB-C Docking Station is designed to transform your USB-C laptop into a complete full-featured workstation. This dock will turn your laptop into a peripheral powerhouse that rivals your desktop PC. No longer will you be restricted by the type of ports available on the laptop. Easily add a full-sized keyboard and mouse, external hard drives, printers and webcams by connecting only one USB-C cable to your setup. With its compact design, it will seamlessly fit into your lifestyle whether in the office or on-the-go.

- Full-sized productivity in a compact design
- Affordably connect up to 8 devices
- 4K Ultra HD (UHD)
- SD and Micro SD card reader built-in
- Use your USB-C power supply - Charge your laptop up to 45W

- Works with the new USB-C iPad Pro under mirror-mode

* Power Delivery pass-through requires USB-C charger from your laptop. A total of up to 45W can be charged to the laptop after deduction of 15W is used by the dock.

** Pass-thru power delivered to the laptop is dependent upon the capacity of your USB-C power supply. Ex. If your USB-C power supply is 60W, then the maximum power can be delivered to the laptop is $60W - 15W = 45W$. Regardless of the capacity of your USB-C power supply, the maximum power can be delivered to your laptop is 45W.

*** When using the HDMI/VGA ports, only one video output is supported at a time (either VGA or HDMI)

**** When using the MiniDP/VGA ports, only one video output is supported at a time (either VGA or MiniDP)

***** For best video performance direct connections are recommended. Adapters and converters are not guaranteed to function properly.

Requirements

Package Contents

- USB-C compatible laptops with DP Alt-Mode support
- USB-C AC Adapter from your laptop is needed for Power Delivery Pass-Thru charging
- Mac OS X 10.10.5+ (*MST is not supported by Mac OS)
- Only one additional video output can be utilized for extended desktop using Mac OS
- For dual screen extended desktop in Windows, you must use HDMI with Mini DisplayPort*
