

## CAM-DPL

Universal Reverse Camera With Dynamic Parking Lines

Avoid and correct potential accidents with dynamic lines

Relax in reverse. CAM-DPL features dynamic parking lines that move when you move. Simplifying maneuvering in even the most complex situations, the parking lines give you a clear understanding of the trajectory of your car before you reverse. The camera features built-in motion sensors, once the vehicle starts moving the camera senses the movement and the guidelines move to show the path of the vehicle.
