

# REFLECTIONS LED LIGHTED COLLECTION MIRROR

BE51LED

Stands and delivers.

The elegant slim design of this oval polished-chrome lighted mirror is outshined only by the energy-saving LED bulbs that illuminate both sides. Consuming less energy than incandescent bulbs, the battery-powered LED bulbs never need replacement and can be adjusted with the High/Low setting switch at the base of the mirror stand. With standard view and 7x magnification reflected in the 8.5 x 6.5-inch oval glass, this mirror stands and delivers.
