Compatibility List	Intel X99, 100, 200, and AMD Ryzen Series motherboards (full list on corsair.com)

Overview

Corsair Vengeance LED Series DDR4 memory modules are designed to provide a unique look with vibrant LEDs, bold color accents and a precision engineered light bar. Created specifically to pair with the design themes of mid-range and high-end motherboards and other PC gaming components.

Each module is built using a custom performance PCB for better signal integrity, and carefully screened ICs for superior overclocking and reliability on latest Intel® X99, 100, 200 and AMD Ryzen series motherboards. Built-in XMP2.0 profile allows for easy, reliable overclocking.

With their purpose-built and eye-catching looks, the Vengeance LED modules match the design themes of mid-range and high-end motherboards and other gaming PC components.

Features

Feature	Benefit
<ul style="list-style-type: none"> Stunning LED lighting 	LED illuminated modules add lighting effect to the system, enhance overall system appearance and complete the stylistic intent of the overall system design
<ul style="list-style-type: none"> Built-in heat spreaders 	Even and fast heat dissipation for high overclocking capability, larger dissipation surface area increases thermal throughput.
<ul style="list-style-type: none"> Custom performance PCB and carefully screened RAM 	Built from a custom performance PCB and highly-screened memory ICs for superior overclocking potential.
<ul style="list-style-type: none"> Performance and Compatibility 	Vengeance LED is optimized and compatibility tested for the latest Intel X99, 100, 200, and AMD Ryzen Series motherboards and offers higher frequencies, greater bandwidth, and lower power consumption. XMP 2.0 support for trouble-free automatic overclocking
<ul style="list-style-type: none"> Limited life time warranty 	Reliability and peace of mind

Tech Specs

- Density: 16GB (2x8GB)
- Speed: 2400MHz
- Tested Latency: 16-16-16-39
- Voltage: 1.2V
- Format: DIMM
- LED: White
- Pin Out: 288 Pin
- Intel XMP 2.0
- Heatspreader: Anodized Aluminum
- Compatibility: Intel X99, 100, 200, and AMD Ryzen Series motherboards ([full list on corsair.com](#))

Accessories

CMYAF

Corsair Vengeance Airflow with red, silver, and blue covers (not included)
