

Smart Security System Wi-Fi Series - 1080p

Wireless Video Signal

The cameras plug into power while their video signal back to the NVR is wireless, making installation easy

See & Hear Everything in Full HD

See faces, license plates & clothing colors with 1080p Full HD. With a built-in microphone & speaker, you can listen, talk back & record audio to help you identify what's happening

Protection 24/7

Know what's happening at any hour with powerful night vision up to 115ft / 35m & the ability to see color video at night#.

Heat Sensing

Swann's True Detect™ heat & motion detection records & sends push notifications when it detects heat from warm objects, like people & cars

Set & Forget

Enjoy local recording with either pre-installed 1TB hard drive or Micro SD Card with no fees ever

Security Made Smarter

Cut the cost of crime & know what's happening with this Full HD 1080p security system to suit homes, offices, small businesses & retail stores

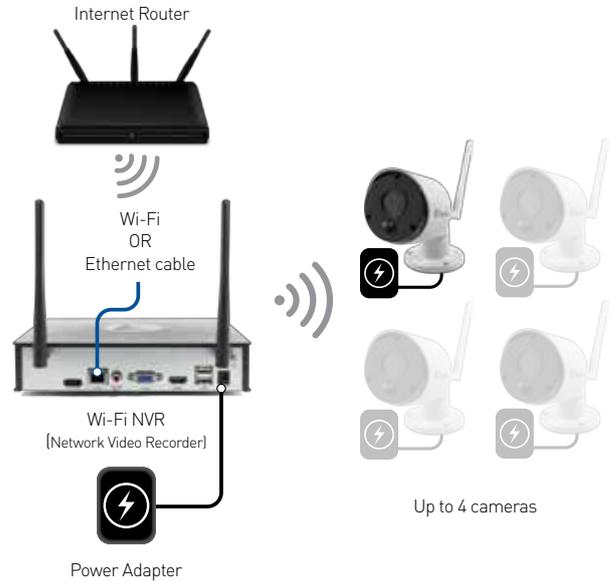

See Color at Night

Image remains in color in low light conditions, so you can identify clothing colors, car colors & more.

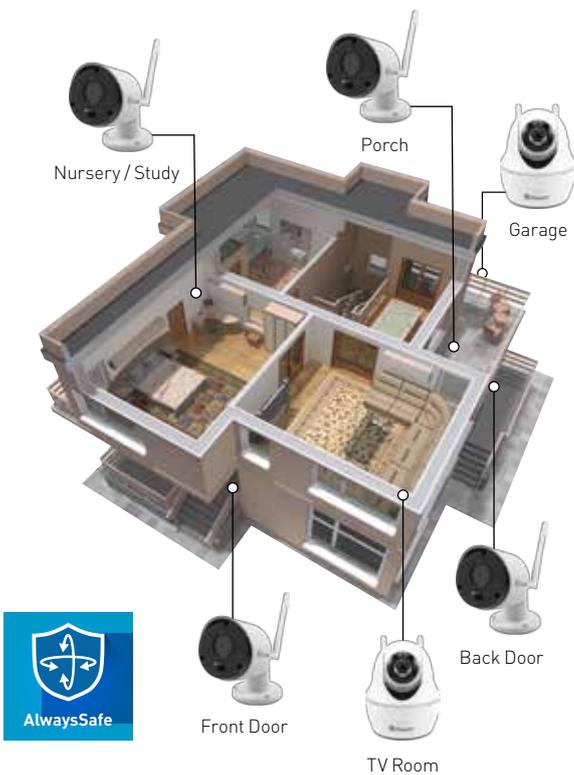

How does it connect?

The NVR unit plugs into power & connects to your internet router via the included network cable or Wi-Fi. Each camera connects into power, while video transmission back to the NVR is wireless.

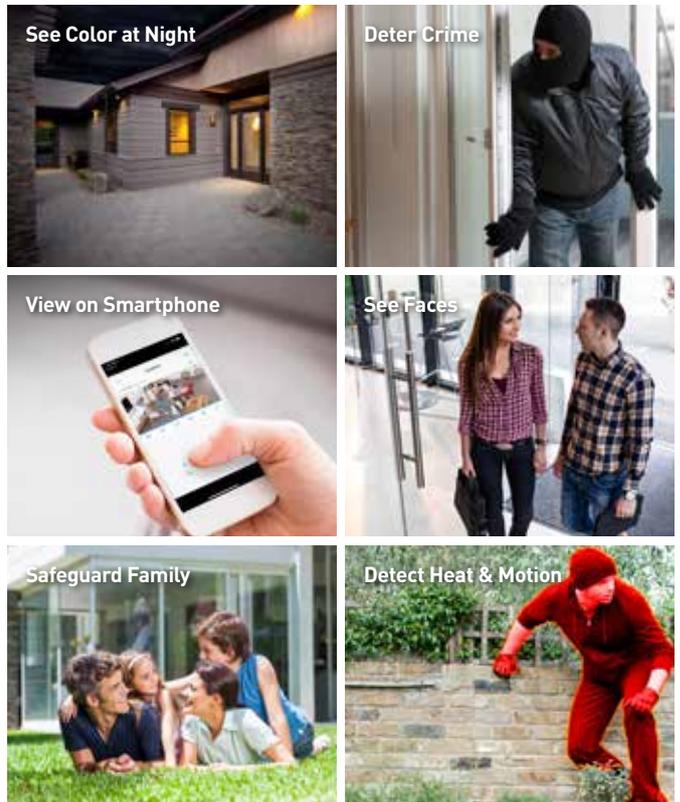

Expand Your Security

Combine the NWW-490 with the Wi-Fi Pan & Tilt Security Camera and see all cameras under the same AlwaysSafe app.

What can I do with this system?

2-Way Audio

2-WAY AUDIO
Hear & Talk Back

The built-in speaker on the camera lets you talk back via the AlwaysSafe app to scare off any intruders.
