

Detective Agency

Game
(Add-on)

Run your own detective agency!

Solve amazing mysteries from around the world and help people. Visit six different famous cities, learn geography, and use all your wits to get the clues!

Get hands-on with the clues!

Search for clues using your magnifying glass and the maps. Keep a close watch – there's always something mysterious and surprising to find!

Master new skills with every mystery!

Learn about geography, landmarks, and local culture — clues are everywhere! Bring your critical thinking into play, as you connect the dots and unravel the mystery!

Solve mysteries around the world!

Maps include:

- Paris, France
- Rio de Janeiro, Brazil
- New York City, USA
- Cairo, Egypt
- Beijing, China
- Osmo Town
- Sydney, Australia
- The World

About Osmo

Founded in 2013 by Pramod Sharma and Jerome Scholler, Osmo uses its proprietary Reflective Artificial Intelligence to fuse physical play with digital engagement. In response to kids hands-on manipulation of real objects — tiles, blocks, drawings, you name it — Osmo provides instant on-screen feedback and fun. This modern, healthy take on digital play promotes creativity, problem-solving, and critical thinking.
