THE BEST WAY TO WORK WITH AND PRESENT 360° MEDIA

Create professional virtual worlds from 360° media with VR Studio. Impress your audience online or on mobile devices with interactive tours and presentations. Take your 360° photos and videos to the next level and create realistic experiences for your viewers.

HIGHLIGHTS

- Make locations, stories and projects an immersive experience with virtual tours
- Interactive tours integrated into websites attract demonstrably more clients and generate more leads
- Create professional content - in the same easy way as video editing
- Use 360° multimedia such as photos or videos to create virtual worlds in either 2D or 3D
- Virtual experiences can be integrated into any website – with no restrictions to a fixed service or provider or any additional hosting fees
- Share directly online – with the free app available for Android and iOS
- The best solution for generating VR content – compatible with VR hardware
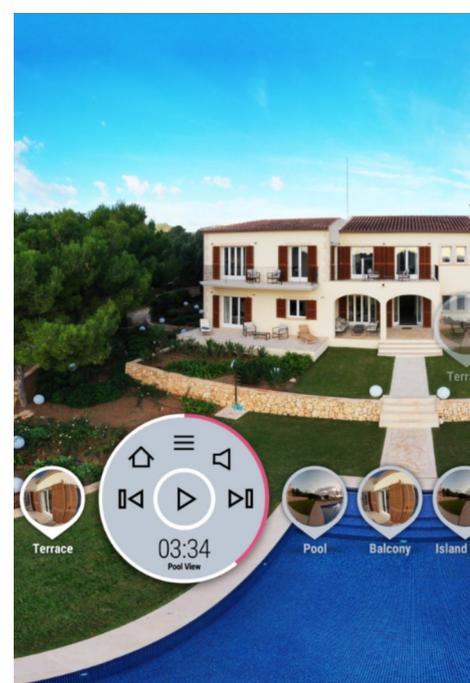

SYSTEM REQUIREMENTS

For Microsoft Windows 7 | 8 | 10
64-bit systems
All MAGIX programs are developed with user-friendliness in mind so that all the basic features run smoothly and can be fully controlled, even on low-performance computers. You can check your computer's technical data in your operating system's control panel.

Processor: 2.5 GHz 4-core processor (Intel i5-4590 or better recommended for VR mode)
RAM: 4 GB (16 GB recommended)
Graphics card: Onboard (NVIDIA GTX 970 / AMD 290 or better recommended for VR mode)
Available drive space: approx. 700 MB for program installation
Internet connection: Required for activating and validating the program, as well as for some program functions. Program requires one-time registration.

VR Studio supports Oculus Rift, HTC Vive and Microsoft Mixed Reality.

Supported import formats
Image: JPG, JPEG, PNG
Audio: MP3
Video: MPEG-4

Supported export formats
Additional formats: VRX (for VR-X Player), WebVR
