## AX-DSP-MOST1 DIGITAL SIGNAL PROCESSOR PACKAGE

SALES 800-221-0932

### PRODUCT OVERVIEW

Our new patented technology creates an all-in-one solution designed for select GM vehicles with MOST® digitally amplified systems. This technology will retain features like text message reading, navigation prompts and OnStar®. All chimes and voice prompts go through the aftermarket amplifier and have an adjustable chime level.

This complete DSP package is designed to retain the OE functionality when upgrading a sound system. Our patented Axxess Digital Signal Processor (AX-DSP), a vehicle-specific T-harness, MOST interface and amplifier bypass harness is included. The amplifier does not need to be retained and installation of the AX-DSP must be done at the amplifier location.

- Includes an AX-DSP (Digital Signal Processor)
- M.O.S.T. data interface included
- Includes an amplifier bypass harness
- Retains factory chimes
- Retains factory parking sensor chimes
- Retains OnStar voice prompts
- All chimes/voice prompts go through the aftermarket amplifier
- Adjustable chime level
- Micro "B" USB updatable
