

## CLEANING INFORMATION

NOTE: It is important to clean the unicorn after every use to prevent slime from sticking inside of the unicorn.

1. Fill the bottle with water and squeeze it into the unicorn's mouth. With the unicorn on the toilet and the dial in the feeding position, press the belly button to release all the water and excess slime. (Fig. 1)
2. Insert the brush side of the cleaning tool into the unicorn's mouth to remove slime. (Fig. 2)
3. Press the clips on the unicorn's back and pull to open the compartment. (Fig. 3)
4. Press down on the internal container to release it. (Fig. 4)
5. Rinse out the internal container and use the spatula side of the cleaning tool to remove excess slime from inside of the unicorn. (Fig. 5)
6. Slide the internal container back into place until it clicks, and close the compartment. (Fig. 6)

The piece on the bottom of the internal container slides on and off the container as shown.

- To prevent slime from sticking inside the unicorn, clean while you wait for your slime to harden.
- Clean the bottle, slime container and toilet bowl with water. Rinse and dry thoroughly before storing.
- DO NOT wash unicorn's hair with water and/or soap. Keep hair pulled back from the slime, water and toilet.
- DO NOT dry unicorn's hair with a hair dryer or subject hair to very high heat in any manner as it will irreparably damage the hair.

## IMPORTANT INFORMATION

- Not for children under 3 years.
- Use under adult supervision. Adult supervision is required when children are playing with water.
- Contents are not real food. Do not eat.
- DO NOT press the belly button before the unicorn is on the toilet to prevent slime from dispensing too early.
- Remove and clean the internal container after every use to ensure the belly button is reset to the "out" position and ready to play.
- Not all slime will fit inside of the keychain container. Store extra slime in a sealed plastic bag.
- Keep slime away from paper surfaces, as it will stick permanently.
- Color transfer from pigments may occur. Wash hands thoroughly after use and keep slime away from clothing and surfaces other than the bottle and slime container.
- Keep contents away from eyes, mouth and face. Keep away from broken skin.
- Tightly close the lid on the slime container after each use.
- Do not dispose of slime in the drain. Dispose in a trash receptacle once you are finished playing with it.
- Slime will dry out over time. Store in a sealed container to prevent drying out when not in use.
- Only use the included bottle to feed the unicorn. Bottles from other packs will not function with the doll.
- Water temperature may affect the slime's consistency.

Please keep this manual as it contains important information.

**MAKE UNICORN POOP!**

**IMPORTANT:**

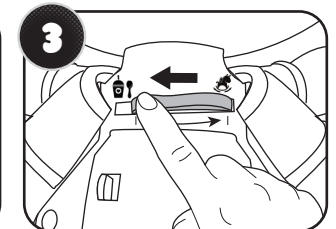

- Read instructions all the way through before beginning.
- Cover the play area to prevent possible damage.
- Ensure the belly button is pushed out before every use. Follow "Cleaning Information" steps 3-6 to remove the internal container and reinsert it properly to reset the button.

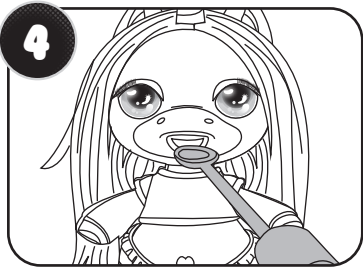

Tear open one packet of  
Unicorn Shimmer, and pour it  
into the toilet bowl.

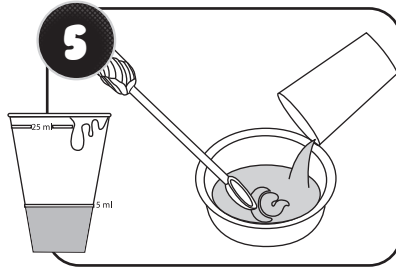

Use the spoon to scoop up  
the Unicorn Shimmer.

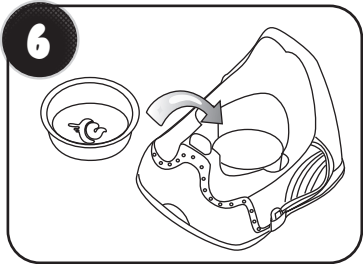

Push and rotate the dial on the  
unicorn's back to the feeding position  
until it clicks into place.

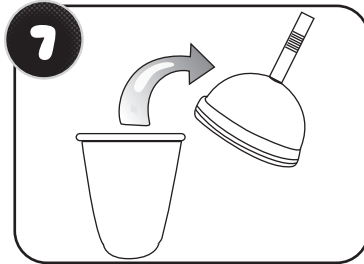

Insert the spoon fully into the unicorn's mouth, and press it against the back of its throat to feed it. Repeat until the unicorn has been fed all the Unicorn Shimmer.

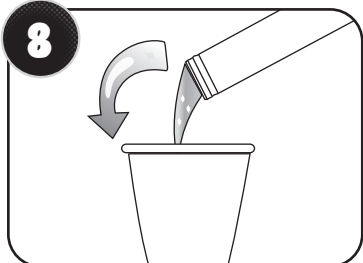

Fill the measuring cup with water up to the lower fill line (5 mL) and pour it into the toilet bowl. Use the spoon to feed the unicorn all 5 mL of tap water.

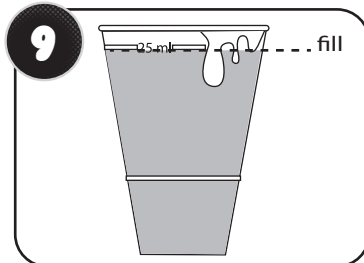

Place the toilet bowl in the toilet.

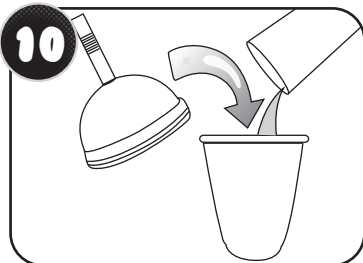

Twist off the lid from the bottle.

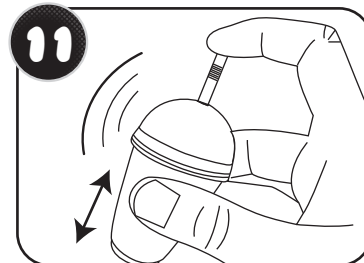

Open one packet of Unicorn Food and pour it into the bottle.

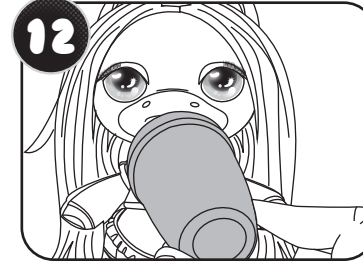

Fill the measuring cup to the top fill line (25 mL) with tap water.

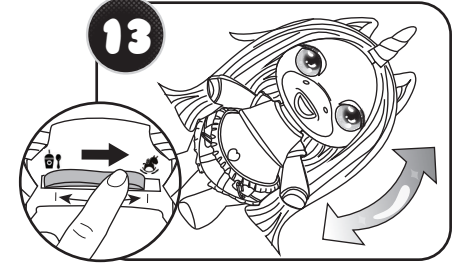

Pour the tap water into the bottle. Then, tightly close the lid on the bottle.

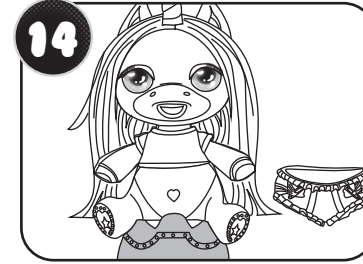

With one finger covering the straw opening, hold the bottle tightly and rapidly shake the bottle up and down for 30 seconds.  
**DO NOT exceed 2 minutes when mixing. (Steps 11-15)**

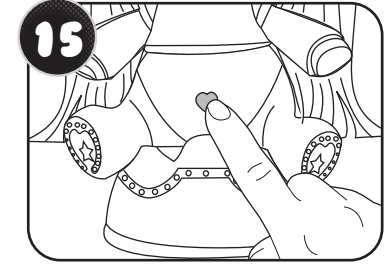

Insert the straw fully into the unicorn's mouth and squeeze the bottle until it is empty.

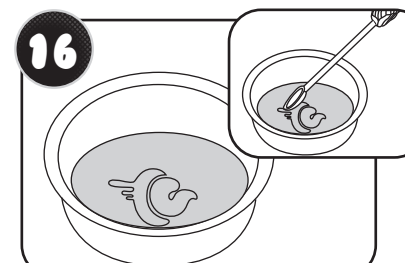

Push and rotate the dial on the unicorn's back to the rocking position until it clicks into place. Rock the unicorn back, forth and upside down (like a cartwheel) for 15 seconds.

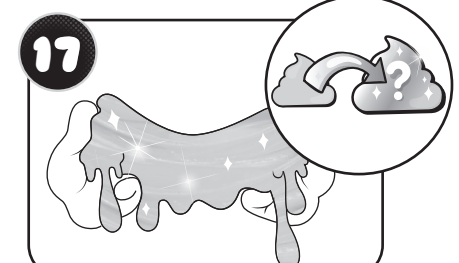

Remove the unicorn's diaper, move the legs outward, and place the unicorn on the toilet.

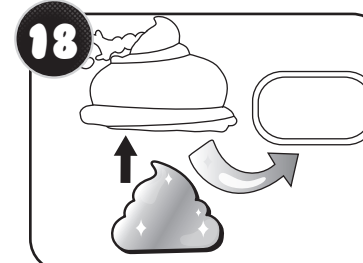

Press the heart belly button to see your unicorn poop!

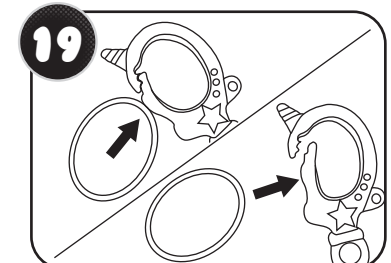

Allow the slime to sit in the toilet bowl for 10-15 minutes or until the slime reaches the desired consistency. Then, stir with the spoon to mix in any remaining water.

Add half a packet of Unicorn Magic to the slime. Then, open the Unicorn Sparkle, and add it to the slime. Continue adding as much of each as desired. Fold and pull the slime over and over to mix well.

Open the keychain container by removing the cover on the bottom of the keychain. Store the slime inside of the keychain container. Then, replace the cover.

Add your keychain to your own accessories! Press the opening of the clip firmly against a key ring to attach it, or carefully pull apart the clip to open it and slide it onto your accessories.
