

## GMRS/FRS TWO-WAY RADIOS

# ACXT345

### **Up to 25 mile range**

Provides extended signal range with 2,662 channel combinations.

### **10 NOAA weather channels**

Be prepared for storms and emergencies with built-in NOAA radio receiver.

### **Weather resistant**

### **VOX**

Voice-activated transmission frees hands for other tasks.

### **Call Alert**

5 selectable tones distinguishes between different parties on oncoming calls.

### **Micro-USB "Y" charging cable & rechargeable NiMH batteries included**

May also be used with AA alkaline batteries.

# ACXT345

## Features

## Benefits

<b>UHF/FM</b>	Ultra-clear long distance reception.
<b>Up to 25 Mile Range</b>	Extended range capability provides up to 25 mile range. (Range will vary depending on terrain and conditions.)
<b>2,662 Channel Combinations</b>	Available when the 22 channels are combined with the 121 privacy codes (38 CTCSS/83 DCS), these combinations prevent interference from other radios.
<b>10 NOAA Weather Channels</b>	Be prepared for storms and emergencies with the built-in NOAA radio receiver providing coverage of all government operated weather channels.
<b>NOAA Weather Alert</b>	In the event of a major storm or other weather condition, NOAA broadcasts a 1050 Hz tone that this microTALK® radio can detect and warn you of a weather alert condition. The radio will emit a tone when weather alert signals are received and will automatically switch to the broadcasting weather channel.
<b>Weather Resistant</b>	Helps keep out moisture.
<b>VOX</b>	The user's voice is detected and the radio transmits without the need to press any buttons, freeing hands for other tasks. Five VOX sensitivity levels allow the user to select at which point the radio will detect their voice.
<b>Battery Saver Circuitry</b>	A unique circuit extends the life of the batteries. If there are no transmissions within 10 seconds, the unit will automatically switch to battery saver mode.
<b>Scan Feature</b>	Allows the user to scan either channels or privacy codes within a channel to locate conversations in progress.
<b>Key Lock</b>	When activated, provides key pad security eliminating accidental channel changes.
<b>5 Call Tones</b>	Allows the user to differentiate between up to 5 different parties on incoming calls.
<b>Roger Beep Tone</b>	Confirmation tone indicates the completion of the user's transmission, and signals to others it is clear to talk.
<b>Auto Squelch</b>	Automatically shuts off weak transmissions or unwanted noise due to terrain or range constraints.
<b>Maximum Range Extender</b>	Overrides Auto Squelch to provide extended range reception.
<b>Speaker/Microphone/Charger Jack</b>	Allows use of USB wall charger, or earphone speaker/microphones (not included) for "hands-free" operation.
<b>Keystroke Tone Signal</b>	Confirms key activation.
<b>Belt Clip</b>	Secures your microTALK® radio while on the go.
<b>1 Year Warranty</b>	On radios sold in the U.S.A.
<b>6 AA NiMH Rechargeable Batteries</b>	Radios can also be used with 3 AA alkaline batteries per radio (not included).
<b>Micro-USB Charging Cable with "Y" Plug</b>	Charges supplied rechargeable batteries inside radios. Accommodates 1 or 2 radios.

## Unit Specifications - General

<b>Unit Dimension</b>	6.05" x 2.41" x 1.55" (153.62mm x 61.3mm x 39.46mm)	<b>Master Pack Bar Code</b>	10856062006033	<b>Master Pack Weight</b>	4.51 lbs. (2043.5g.)
<b>Unit Weight</b>	0.235 lbs. (97.5g) without batteries	<b>Clamshell Dimension</b>	10.19" x 7.51" x 2.92" (258.81mm x 190.84mmx 74.14mm)	<b>Batteries</b>	3 AA NiMH rechargeable batteries per radio (included) or can use 3 AA alkaline batteries per radio (not included)
<b>Channels</b>	22 Channels (462.550 MHz-467.7125 MHz)	<b>Clamshell Weight</b>	1.17 lbs. (435g.)		
<b>SKU#</b>	ACXT345	<b>Master Pack Dimension</b>	11.51" x 8.40" x 10.16" (292.47mm x 213.42mm x 257.97mm)	<b>Master Pack Qty</b> 4	
<b>UPC</b>	856062006036
