

ideacentre AIO 3i

DESIGNED TO PERFORM & IMPRESS.

For real slick performance and truly stylish engineering, take a look at the Lenovo™ IdeaCentre™ AIO 3i. It's powered by the latest Intel® processor, DDR4 memory, and plenty of storage, so can handle any task. With its streamlined stand and near-borderless display, it saves on desk space, too.

WHY YOU SHOULD BUY LENOVO IDEACENTRE AIO 3i

Takes everything in its stride

The IdeaCentre AIO 3i runs seamlessly, no matter the task or workload. Intel® processor and DDR4 memory enable it to zip through everything. You also have 1 TB of disk space and Intel UHD integrated graphics. For your PC peripherals, such as a mouse and keyboard, you will be glad to know that the IdeaCentre AIO 3i has plenty of ports. In addition to USB 2.0 and 3.0 ports, it has a 3-in-1 card reader and HDMI™-Out, should you need a second monitor.

Less, the new more

The FHD display delivers an exceptional, almost borderless viewing experience—even from wide angles. Just 9.5 mm at their thinnest, the narrow bezels deliver a huge 90% screen-to-body ratio, for more screen and less distraction.

Engineered for the modern home

For all your home computing needs, from work to downtime and everything in between, there's the IdeaCentre AIO 3i. With its elegant stand and base, this all-in-one will also save you much-needed desk space—and brighten up any room. A heap of cables connected to a desktop PC can look very messy. Not so with the IdeaCentre AIO 3i. It has a cable collector conveniently built into the stand, so there's less clutter and more space for you to work (or play) with.

Totally flexible

Whether you need to work or kickback, you can tilt the stand on your IdeaCentre AIO 3i to the perfect angle. You can also adjust the screen with one hand, perfect for when there's an annoying light distracting your view. Your personal privacy matters. That's why each IdeaCentre AIO 3i is fitted with a TrueBlock Privacy Shutter. When you're finished with your webcam and wish to close it, just flick the button on the tip of your screen.

¹ The actual transfer speed of the USB 3.1 Gen 2 will vary and, depending on many factors, such as the processing capability of host and peripheral devices, file attributes and other factors related to system configuration and your operating environments, will be slower than a speed of 10 Gbit/s.

LENOVO SERVICES

Warranty Upgrades – On-site/In-Home Service
Maximizes PC uptime and productivity by providing convenient, fast repair services in your own home.

Accidental Damage Protection
Avoid the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops or damage to the integrated screen.

Warranty Extensions
(1-to-3 Years Total Duration)
This fixed-term, fixed-cost service helps accurately budget for PC expenses, protect your valuable investment and potentially lower the cost of ownership over time.

* Specification and configuration may vary by different platform and model.
