At a Glance

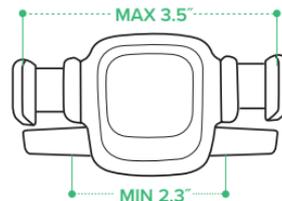

Key Features

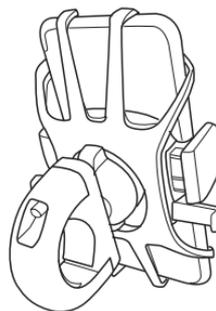

- The Easy One Touch mounting system allows you to mount and retrieve your smartphone in seconds with a quick one-handed motion.

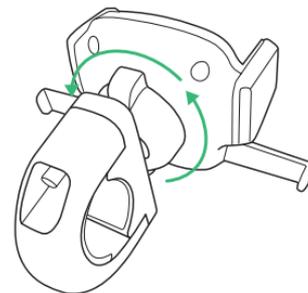

- Universal design fits all smartphone and case combinations.

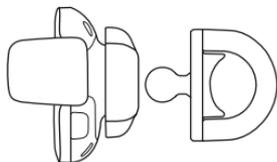

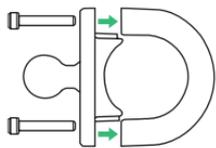

- A flexible safety strap securely holds your smartphone while cycling.

- Mount rotates 360° for optimal viewing angles.

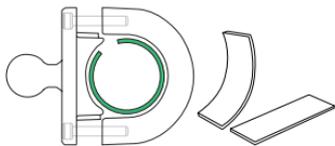

Installation

1. Place the bar mount base around the handlebars or bike stem. Tighten the screws securely using the included hex key.

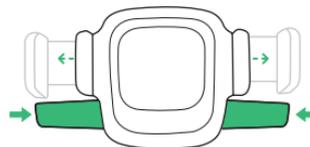

2. Connect the ball joint to the bar mount base and tighten the cradle knob.

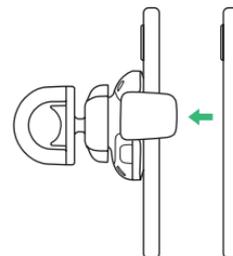

3. If the bike mount is loose, place the included rubber strips inside of the bar mount base to form a snug fit.

! Please Note: Remember to always use the safety strap to secure your smartphone while cycling. iOttie is not responsible for possible damages due to product misuse.

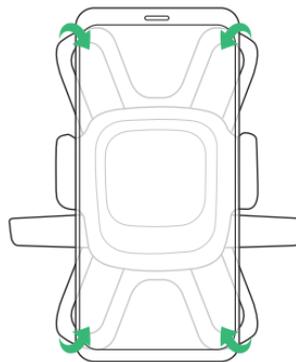

Mounting Your Device

1. Press the release bars to open the locking side arms.

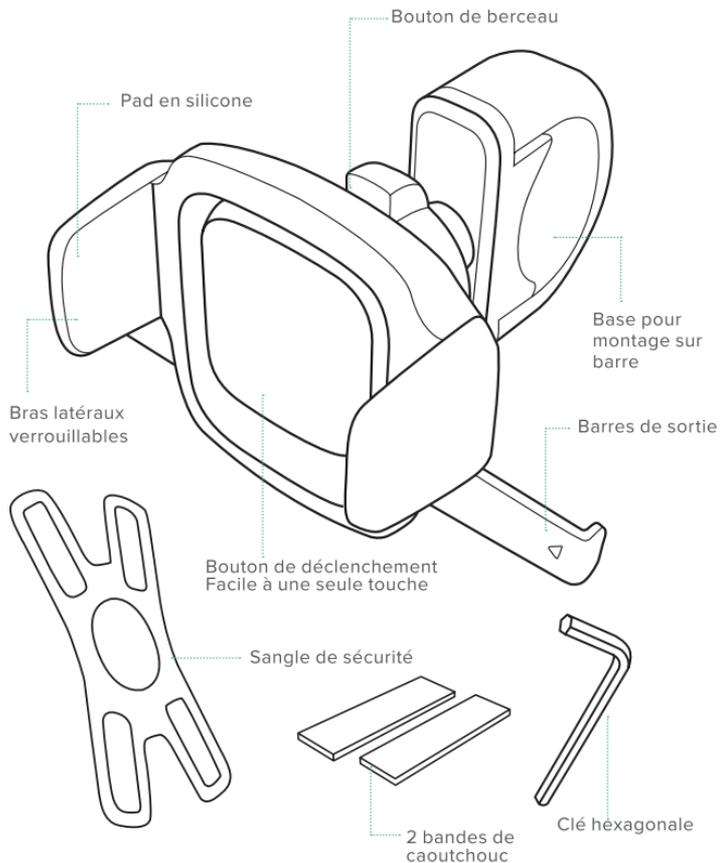

2. Place your smartphone against the Easy One Touch trigger button. The arms will automatically close to secure the device.

To remove your smartphone, press the release bars.

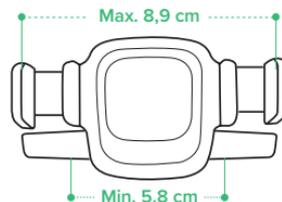

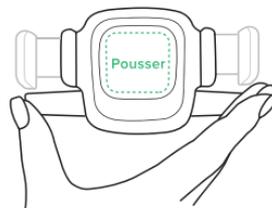

! Be sure to hold the bottom of your smartphone with your hand before releasing.

Aperçu

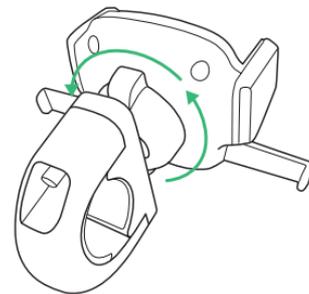

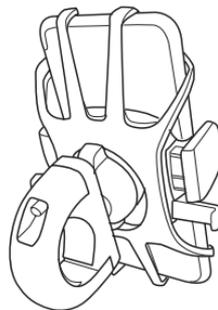

Caractéristiques principales

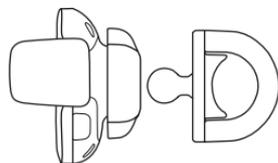

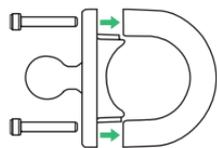

- Le système de montage Facile à une seule touche vous permet de monter et de récupérer votre téléphone intelligent en quelques secondes d'un geste rapide avec une seule main.
- La conception universelle s'adapte à toutes les combinaisons de téléphones intelligents et de poches.

- Une sangle de sécurité flexible maintient en toute sécurité votre téléphone pendant le cyclisme.
- Le support pivote à 360 degrés pour des angles de vue optimaux.

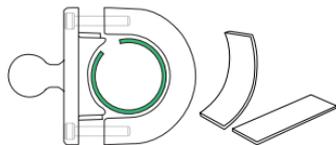

Installation

1. Placez la base pour montage sur la barre autour du guidon ou de la tige du vélo. Serrez fermement les vis à l'aide de la clé hexagonale fournie.

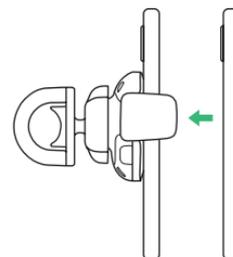

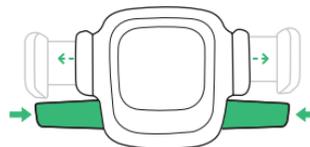

2. Connectez le joint à rotule à la base pour montage sur la barre et serrez le bouton du berceau.

3. Si le support de vélo est lâche, placez les bandes de caoutchouc incluses à l'intérieur de la base pour montage sur la barre pour créer un ajustement serré.

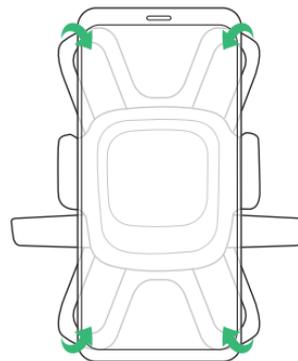

ⓘ **Veillez noter :** N'oubliez pas de toujours utiliser la sangle de sécurité pour sécuriser votre téléphone intelligent lorsque vous faites du vélo. iOttie n'est pas responsable des dommages éventuels dus à une mauvaise utilisation du produit.

Montage de votre appareil

1. Appuyez sur les barres de déverrouillage pour ouvrir les bras latéraux de verrouillage.

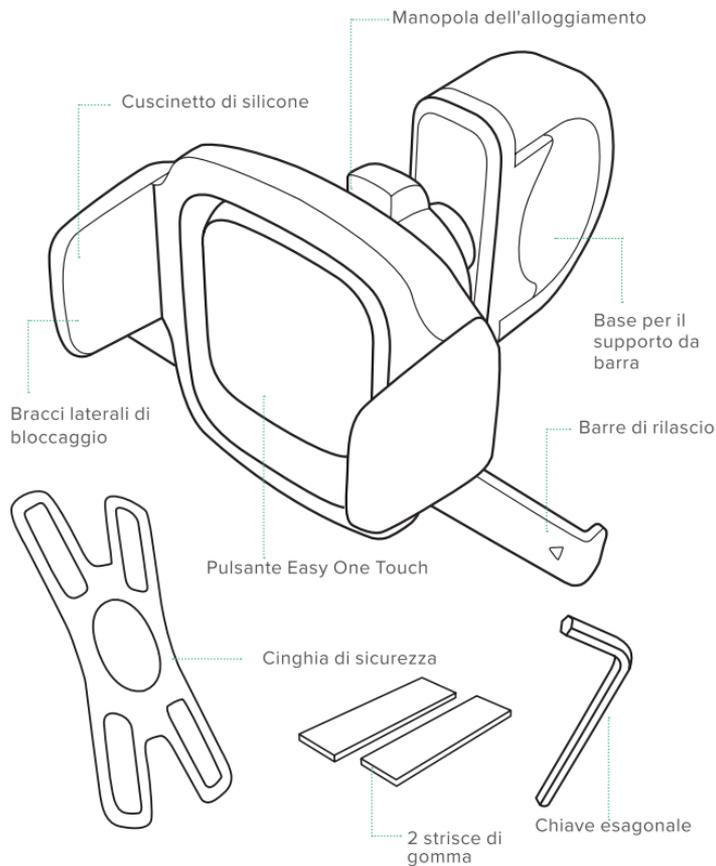

2. Placez votre appareil contre le bouton déclencheur Facile en une seule touche. Les bras se refermeront automatiquement pour sécuriser l'appareil.

Pour retirer votre téléphone, appuyez sur les barres de déclenchement.

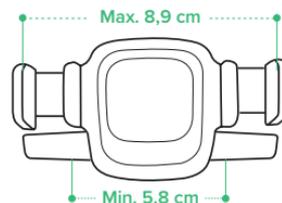

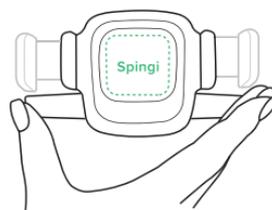

- ⓘ **Veillez à tenir le bas de votre téléphone avec votre main avant de le relâcher** before releasing.

A prima vista

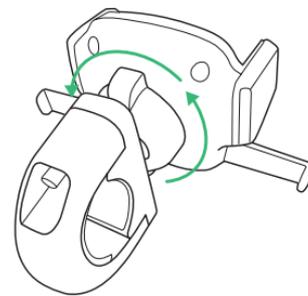

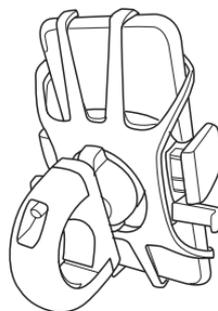

Caratteristiche principali

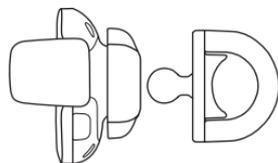

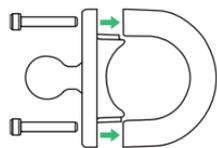

- Il sistema di supporto Easy One Touch ti permette di montare e recuperare il tuo smartphone in pochi secondi e con un rapido movimento a una mano.
- Il design universale si adatta a tutte le combinazioni di smartphone e cover.

- Una cinghia di sicurezza flessibile tiene fermo lo smartphone mentre pedali.
- Il supporto ruota di 360° per garantire angoli visivi ottimali.

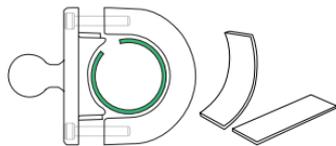

Installazione

1. Posiziona la base per il supporto da barra intorno al manubrio o al semi manubrio. Stringi saldamente le viti usando la chiave esagonale inclusa.

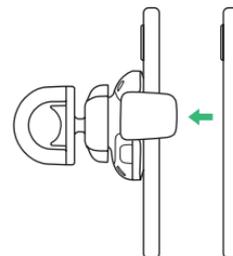

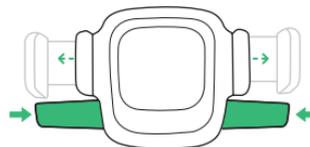

2. Collega il giunto sferico alla base per il supporto da barra e stringi la manopola dell'alloggiamento.

3. Se il supporto è lento, posiziona le strisce di gomma incluse all'interno della base per il supporto da barra. In questo modo, dovresti ottenere un'aderenza perfetta.

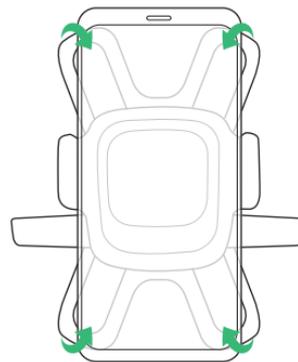

- ⓘ Ricorda: usa sempre la cinghia di sicurezza per assicurare il tuo smartphone mentre pedali. iOttie non è responsabile per gli eventuali danni causati da un utilizzo errato del prodotto.

Inserire il dispositivo

1. Premi le barre di rilascio per aprire i bracci laterali di bloccaggio.

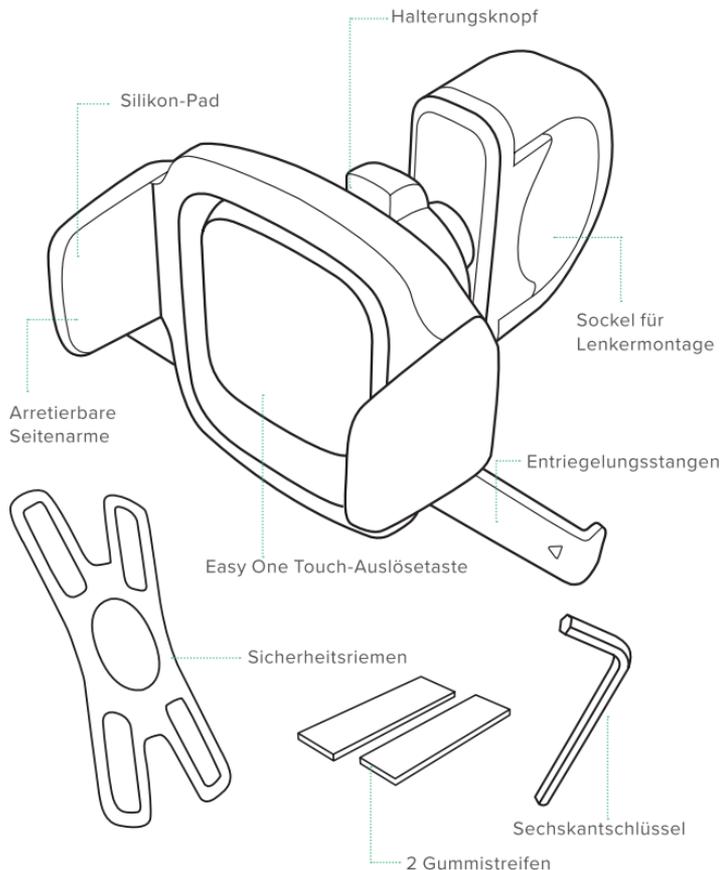

2. Posiziona lo smartphone sul pulsante Easy One Touch. I bracci si chiuderanno automaticamente per bloccare il dispositivo.

Per recuperare lo smartphone, premi le barre di rilascio.

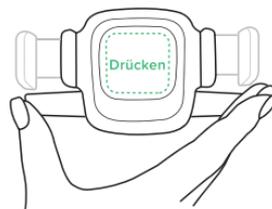

- ⓘ Prima di rilasciare il tuo smartphone, ricorda di sostenerne la parte inferiore con la mano.

Kurzübersicht

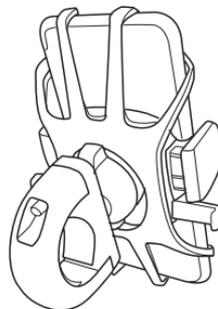

Hauptmerkmale

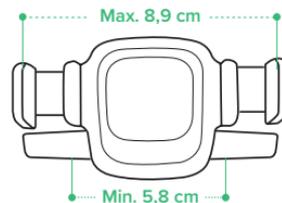

○ Mit dem Easy One Touch-Befestigungssystem können Sie Ihr Smartphone mit einer Hand in Sekundenschnelle befestigen und wieder herausnehmen.

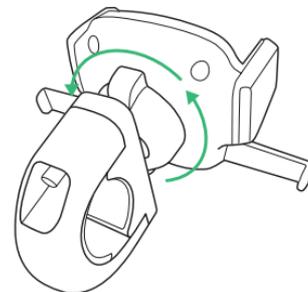

○ Ein flexibler Sicherheitsriemen hält Ihr Smartphone beim Radfahren sicher fest.

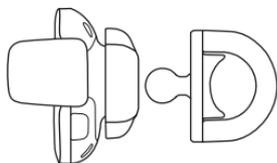

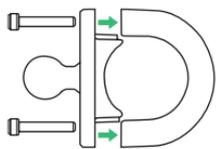

○ Universelles Design für alle Kombinationen aus Smartphone und Tasche.

○ Die Halterung lässt sich für einen optimalen Blickwinkel um 360 Grad drehen.

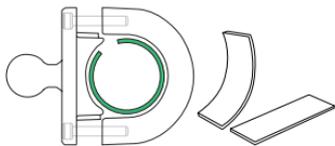

Installation

1. Legen Sie die Lenkerhalterung um den Lenker oder den Fahrradrahmen. Ziehen Sie die Schrauben mit dem mitgelieferten Sechskantschlüssel fest an.

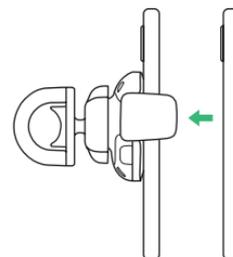

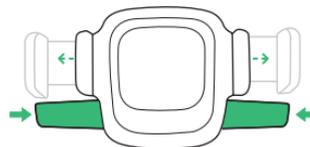

2. Verbinden Sie das Kugelgelenk mit der Basis der Lenkerhalterung und ziehen Sie den Drehknopf der Halterung fest.

3. Wenn die Fahrradhalterung lose ist, legen Sie die mitgelieferten Gummistreifen in die Basis der Lenkerhalterung, um einen festen Sitz zu gewährleisten.

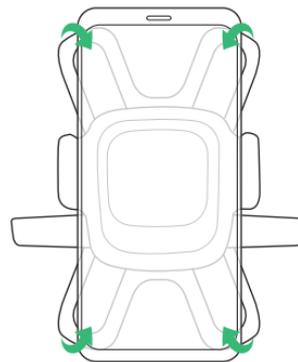

- ⓘ Bitte beachten Sie: Verwenden Sie immer den Sicherheitsriemen, um Ihr Smartphone beim Radfahren zu sichern. iOttie ist nicht verantwortlich für eventuelle Schäden aufgrund von Produktmissbrauch.

Montage Ihres Geräts

1. Drücken Sie auf die Entriegelungsstangen, um die seitlichen Verriegelungsarme zu öffnen.

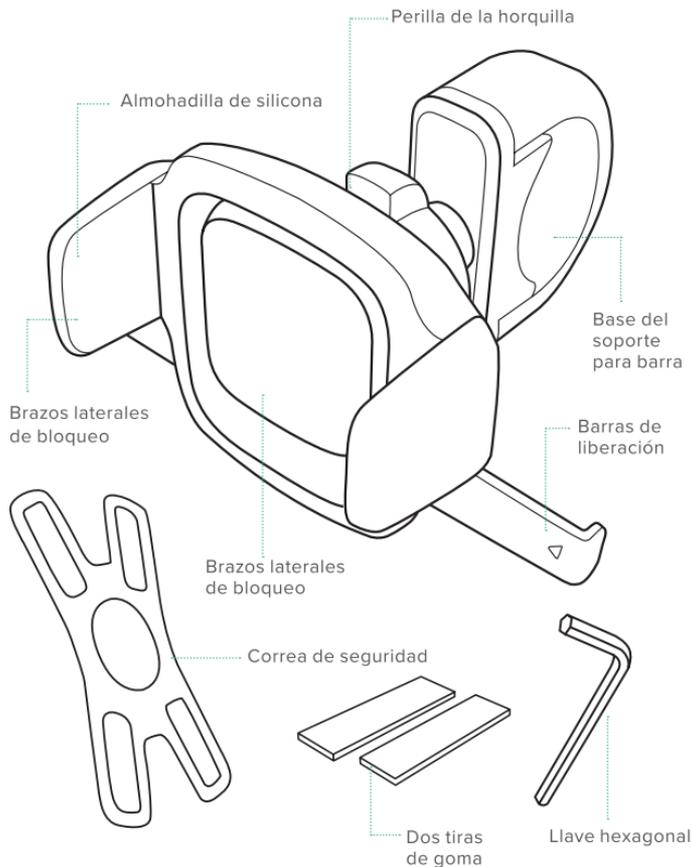

2. Halten Sie Ihr Smartphone an die Easy One Touch-Auslösetaste. Die Arme werden automatisch geschlossen, um das Gerät zu sichern.

Um Ihr Smartphone herauszunehmen, drücken Sie auf die Entriegelungsstangen.

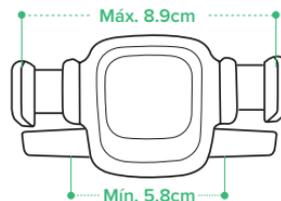

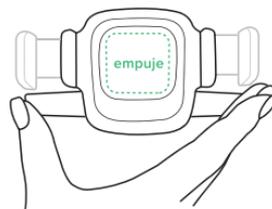

- ⓘ Achten Sie darauf, dass Sie die Unterseite Ihres Smartphones mit der Hand festhalten, bevor Sie es entriegeln.

De un vistazo

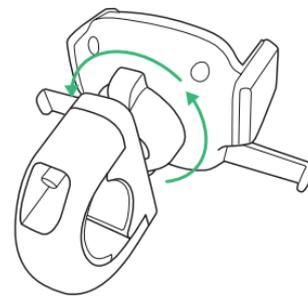

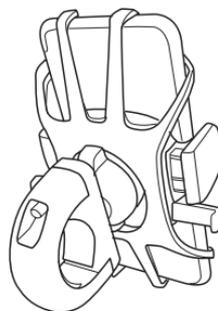

Características principales

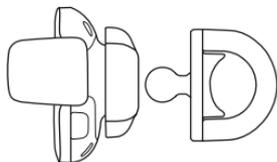

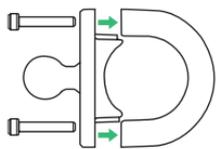

- El sistema de montaje Easy One Touch le permite montar y tomar su teléfono inteligente en segundos con un movimiento rápido con una sola mano.
- El diseño universal se adapta a todas las combinaciones de teléfonos inteligentes y fundas.

- Una correa de seguridad flexible sujeta su teléfono inteligente de forma segura mientras anda en bicicleta.
- El soporte gira 360° para lograr ángulos de visión óptimos.

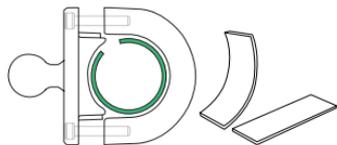

Instalación

1. Coloque la base del soporte para barra alrededor del manubrio o del vástago de la bicicleta. Apriete los tornillos firmemente con la llave hexagonal incluida.

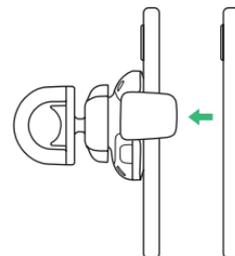

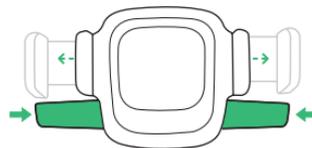

2. Conecte la articulación a la base del soporte para barra y apriete la perilla de la horquilla.

3. Si el soporte para bicicleta está flojo, coloque las tiras de goma incluidas dentro de la base del soporte para barra para que quede bien ajustado.

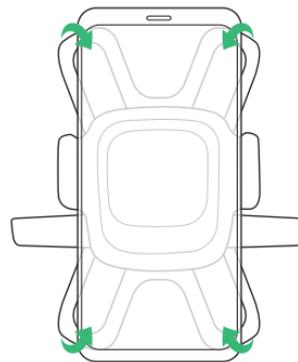

ⓘ **Nota:** Recuerde usar siempre la correa de seguridad para asegurar su teléfono inteligente mientras anda en bicicleta. iOttie no se hace responsable de los posibles daños por el uso incorrecto del producto.

Montaje de su dispositivo

1. Presione las barras de liberación para abrir los brazos laterales de bloqueo.

2. Coloque su teléfono inteligente contra el botón de accionamiento del Easy One Touch. Los brazos se cerrarán automáticamente para sujetar el dispositivo.

Para retirar su teléfono inteligente, presione las barras de liberación.

- ⓘ **Asegúrese de sostener la parte inferior de su teléfono inteligente con la mano antes de liberarlo.**
