XQD G Series 128GB Memory Card

Pricing available upon
request

UPC: 027242900042

Overview

Unique media technology enabling efficient higher speed data writing, dependable recording of 4K video while avoiding speed degradation.

Highlights

- * Available in 32, 64, 128 and 256GB capacities.
- * Compliant to XQD Format Version 2, both PCI Express Gen.2 and USB3.0 interface are supported on a newly developed controller for high performance.
- * Read 440MB/s and write 400MB/s speeds.
- * Supports EB Streaming between card and Sony camcorders enabling constant 2 way communication and insuring stable recording while avoiding speed degradation.
- * 128GB model allows up to 40 minutes of 4K XAVC Intra 422 60p (600Mbps) recording with Sony's 4K video cameras.

Features

Features	Benefits
XQD Performance	The G series achieve max read 440MB/s, max write 400MB/s ² by using PCI Express Gen.2 (5Gbps) interface. Also supports USB 3.0 (Super speed) for higher performance and easier connection to PC.
Fast reading and writing	Maximizes performance of XQD cameras, whether 4K video recording or continuous burst mode shooting, or transferring large contents to host devices.
High Durability	Shock proof, anti-static and resistant to breakage. Full performance in extreme temperatures, Also UV, X-Ray and Magnet proof.
Five Year limited warranty	A five year limited warranty for your peace of mind
Downloadable File Rescue software	Applies special algorithm to achieve higher rate of recovery for RAW image, MOV files and 4K XAVC-S video files captured on Sony and Nikon devices. ³

FOOTNOTES

1. Capacity is based on 1 GB = 1 billion bytes. A portion of the memory is used for system files and may vary.
2. Based on internal Sony testing. Transfer speeds may vary and are dependent on host devices, the OS version or usage condition.
3. File Rescue downloadable software available at www.sony.net/memorycard. Does not support data recovery for Content Protected and Game Data files. Not all data may be recoverable.
