

C01U Pro Podcasting Pack

USB Studio Condenser Microphone with Accessories

USB MICROPHONES

POSITIONING

Samson's C01U Pro Podcasting Pack is the ideal solution for anyone that wants to improve the audio quality of their podcasts, voiceovers or music recordings. Well-suited for home and mobile studios, it includes the C01U Pro USB Studio Condenser Microphone, MD2 Desktop Microphone Stand, SR850 Open-Back Studio Headphones, a USB cable and convenient carry case.

FEATURES

C01U Pro USB Studio Condenser Microphone

With a smooth, flat frequency response and transparent tone, Samson's large diaphragm C01U Pro captures all the subtle nuances of your voice or instrument. It also features plug-and-play operation (no driver installation necessary), USB power via Mac, PC or iPad (cable included) and solid die-cast metal construction to minimize unwanted noise/vibrations. The C01U Pro is compatible with iPads and iPhones (4S and later) using Apple's Lightning USB Camera Adapter or Camera Connection Kit (30-pin). Available as a paid download, the C01U Pro offers Samson Sound Deck Noise Cancellation Software for enhanced multimedia communication.

SR850 Open-Back Studio Headphones

Samson's SR850 Open-Back Studio Headphones offer an outstanding listening solution for sound engineers, musicians and audio enthusiasts alike. Their over-ear, semi-open-back design ensures comfort for long listening sessions, while large 50mm drivers produce a solid bass response and airy-clear highs for accurate headphone monitoring.

Accessories

A great complement to the C01U Pro mic, the MD2 Desktop Microphone Stand is a cast-iron, foam-coupled round-base stand with a threaded aluminum post for mounting standard microphone adapters. And to conveniently house all of the aforementioned components, the C01U Pro Podcasting Pack includes a durable, molded carry case.

APPLICATIONS

- Podcasting
- Streaming
- YouTube video production
- Music recording
- Speech-to-text dictation software
