

 **ROCCAT.**
NOZ

GERMAN DESIGN
& ENGINEERING
SINCE 2007

INFORMATION

ROCCAT's lightest over-ear headset yet at only 210 grams, the Noz delivers impressive stereo performance and exceptional comfort. Featuring an innovative earcup design for natural-sounding acoustics, plus a premium fabric that keeps cool during use.

NATURAL SOUND

Top 50mm drivers deliver natural-sounding stereo audio with crisp highs and deep lows. A Real-Voice mic covers the full voice spectrum for authentic sound reproduction.

SUPREME COMFORT

Better acoustics and better ergonomics thanks to ellipse-shaped earcups. Maximized ear space ensures there are no pressure points and a special fabric keeps cool during use.

ROBUST MATERIALS

Stainless-steel headband sliders and strengthened hinges provide maximum durability. Extra tough but remarkably light with an overall weight of only 210 grams.

FEATURES

- Premium 50mm drivers deliver natural sound with crisp highs and deep bass
- Ultra-light at only 210 grams yet robust and durable thanks to advanced materials
- Detachable Real-Voice mic covers full vocal spectrum for authentic sound reproduction
- Soft, breathable earcup fabric keeps cool during use for maximum comfort
- Earcups feature an ellipse shape that provides extra ear space, ensuring no pressure points
- Drivers are optimally angled to the ears for balanced sound delivery

TECH SPECS

GENERAL

- Weight (headset only): 210g
- Cable length: 2.45m
- Jack plug: dual plug 3.5mm (3-pin)

DRIVER UNITS

- Frequency response: 10Hz ~ 20kHz
- Impedance: 60Ω
- PET diaphragm
- Max. SPL at 1kHz: 112dB
- 50mm Neodymium drivers

MICROPHONE

- Frequency response: 100Hz ~ 10kHz
- THD: 2%
- Sensitivity: -40dB
- Signal-to-noise ratio: 58dB
- Impedance: 2.2kΩ
