SP-PRO GEN.2

Completely redesigned for 2017, the SP-PRO Gen2 sets the standard for the next level of smartphone stabilizers. With up to 14 hours of battery life the SP-PRO Gen2 gives you access to advance camera settings on the handle without having to touch the screen. With the new CNC tool-less design, the SP-PRO is now compatible with an even wider range of smartphones, action cameras and 360 cameras. #KeepItSmooth

Features

-  4-Way Joystick
-  Industry's Fastest Refresh Rates (4kHz)
-  Bi-directional Mount
-  Unlimited 360 Pan
-  Advanced on-handle controls
-  Up To 14 Hours Run Time
-  Smart Track Technology using the EVO app
-  Tripod compatible

Unlock your smartphone's camera and discover its true capabilities. The new EVO Remote APP gives you access to the same shooting modes found in high end prosumer cameras.
