BioLite
CampStove 2

On-Demand Electricity
Updated thermoelectrics provide 50% more power

On-Board Storage
Integrated 2600 mAh battery can store a full phone charge

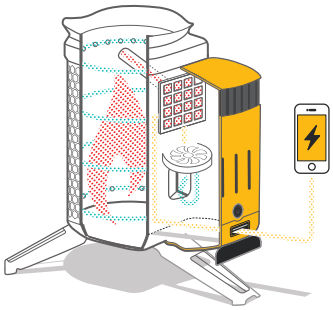

Smart LED Dashboard
Control 4 fan speeds and get real time feedback on fire strength and power supply

Burn Wood Like Gas
Burn wood including found sticks or BioLite BioFuel pellets

Smokeless Flames
Enjoy a campfire feel with a fire that burns like gas

Turn Fire Into Electricity

The award-winning BioLite CampStove gets a user-focused upgrade in this latest generation. Featuring a higher power output, integrated battery, and LED dashboard, access improved control and feedback while enjoying BioLite's flagship smokeless combustion. Make wood-fired meals and charge devices all at the same time using only the sticks around you.

Fire
Light up a fire to cook your meals. We capture some of the waste heat via a copper probe.

Electricity
Heat is converted into useable electricity via a thermoelectric generator. This powers a fan and flows to a USB port to charge your gear.

Air
An internal fan blows air into the flames to give you a smokeless wood fire, burning wood like gas.

BATTERY
2600 mAh lithium-ion

WEIGHT
2.06 lbs (935 g)

BOIL TIME
4.5 minutes for 1L

FUEL
Renewable biomass (twigs, sticks, pellets)

DIMENSIONS
5.0 x 8.25 in
(127 x 210 mm) - packed size

INPUTS
Micro USB charge in

USB OUTPUT
3 watts peak;
TEG generated 5V,
2A USB output

FLEXLIGHT (included)
100 Lumens

IN THE BOX
CampStove 2, firestarter, FlexLight, stuff sack, micro USB cable, instructions
