SmartPlug with Remote Control & Power Monitoring

- WiFi enabled wall plug lets you control small appliances using 1800 watts or under, including **lights, window air conditioners, fans, portable heaters, coffee makers, and home audio systems.**
- Pre-paired remote control included. Turn plug on or off without smartphone or tablet
- Global remote access. Control your SmartPlug and home product with the iHome Control App
- Power usage monitoring via app. Helps you save money by monitoring the power your connected devices consume
- Allows voice control via Amazon Alexa, HomeKit/Siri, and Google Assistant
- Slim design fits into any standard 120 VAC outlet, leaving second outlet free, or plug in two SmartPlugs
- The remote button can be programmed to control a single SmartPlug or a group of SmartPlugs with a single press
- One year warranty

Supports small home appliances up to 1800 watts

Broadest Smart Home Compatibility in the Market

	<p>Set automated triggers with Smart Plugs (sold separately) to control connected lighting and appliances (iOS 9.3 or later required).</p>
	<p>Just ask Alexa to control your SmartPlug from any Alexa enabled device.</p>
	<p>SmartPlug works on the SmartThings platform so you have the power to control and automate the smart devices in your home in one simple app. iHome SmartPlugs will now work with Google Home via the SmartThings App, SmartThings Hub required.</p>
	<p>Use your voice to control SmartPlugs with any Google Assistant enabled device.</p>
	<p>Works with your Nest "Home" and "Away" status to automatically turn your SmartPlug on or off.</p>
	<p>SmartPlugs integrates with your Wink app and other Wink enabled products. No hub required! iHome SmartPlugs work with Google Home via the Wink app.</p>
	<p>Compatible with Apple (iOS 9.3 or later).</p>
	<p>Compatible with Android (Jelly Bean 4.2 or later).</p>

Intelligent Home Solutions

iSP8

SmartPlug with Remote Control included, Power Monitoring

iHome offers broad compatibility control options. You can control your iHome Smart Plugs with your voice with Amazon Alexa, HomeKit/ Siri and Google Assistant. iHome Smart Plugs also work with Nest "Home" and "Away" status, SmartThings app, and Wink app. The iSP8 includes a Power Monitoring feature to monitor the power consumption and related costs of devices connected to the plug.

The iSP8 also includes a one button hand held remote to conveniently turn devices on or off from up to 35 feet away without using a smartphone or tablet, perfect for guest and others to allow control of the SmartPlug.

FEATURES

- **Wi-Fi enabled wall plug**
Global remote access. Control any device connected to your SmartPlug from any location where you have internet access via your compatible iOS or Android devices
- **Remote Control**
Control individual iHome SmartPlugs or trigger multiple plugs at once. Quick easy way to manage devices throughout the home up to 35 feet, no line of sight needed
- **Power monitoring**
Gives power consumption statistics for devices connected to SmartPlug. Helps save money!
- **Voice control from Amazon Alexa, HomeKit/Siri, and Google Assistant**
Simply speak and your home responds
- **Slim design fits any standard outlet**
Keep one outlet free, or plug in two SmartPlugs
- **Create "scenes" and control multiple devices simultaneously**
Create your own scenes and rooms such as "Kitchen" and manage all SmartPlugs in that scene (iOS 9.0 or higher)
