

SWAGGER 8 FOLDING ELECTRIC SCOOTER

SWAGTRON Swagger 8 Folding Electric Kick Scooter — Riding Is Believing

The Swagger-8 from SWAGTRON® — an ultra-lightweight, whisper-quiet folding electric scooter for kids, teens and young adults. Its design was well-thought out with a rider-first focus that let us craft an extremely durable powered scooter with an ultra-quiet rear hub motor. The Swagger 8 electric scooter is everything you want in an electric powered scooter — durable, feature-rich and exciting. Perfect for parents whose kids are ready for electric exploration, but who still want something with solid control and extra safeguards.

Smart Features, Optimized Ride

This electric kick scooter is powered by an efficient battery that work in perfect harmony with the ultra-quiet motor. The battery fully charges in just 3 hours and powers the Swagger 8 up to 10 miles on a single charge; reach top speeds of 15 mph; and conquer steep, 10-degree inclines with ease. Maintain a consistent speed for 6 seconds and the Swagger 8 automatically engages cruise control when the feature is manually activated.

Don't Start Until You Start

The Swagger 8 features a power-saving enhancement that ensures you get the very most out of this motorized scooter. Manually activate the kick-to-start feature and extend the battery life. Once this feature is turned on, the motor becomes motion-activated and will not turn on until you reach 1.8 mph manually. Using the kick-start feature, you can increase your range by 10 to 25 percent, depending on riding style, rider weight and other factors. Just hop on, kick and go.

Specifications:

Net Weight: 14.4 lb. / 7 kg | **Dimension – Folded:** 33.46 x 16.9 x 11.41 in. (850 x 430 x 290 mm) | **Dimension – Unfolded:** 36.41 x 16.9 x 40.15 in. DYNAMIC 200W MOTOR

WHISPER-QUIET • BALANCED • HIGH-TORQUE

Built Bold, Ready to Roll

The Swagger 8 can take a beating. Its frame, built from aerospace-grade aluminum-alloy, easily supports riders up to 150 pounds. And it does so without adding a lot of extra bulk. Weighing just 17.5 pounds, the Swagger 8 is extra portable. Quickly fold the electronic scooter when you need to dash, hop on the bus, or store it in compact spaces.

Adjustable Height Stem

With its adjustable stem, the Swagger 8 has extra longevity that other electric scooters in its class simply can't match. Raise the handlebar to let the scooter grow as the rider grows, or simply adjust the height to maximize comfort. After all, a comfortable ride is a perfect ride. And with the Swagger 8, riding is believing.

World-Class Service and Support

Have a question? Need extra guidance? Visit our Help Hub for up-to-date information, how-to videos, and answers to frequently asked questions. Need to speak to a human? We get it. That's why all SWAGTRON® rideables are backed by our expert team of support specialists, fully staffed in the U.S. and available seven days a week. Simply contact us via email, by phone or on live chat.

Triple Brake System

It's fun to go far and go fast. When the time comes to stop, you need reliable stopping power you can rely on. That's why we use a unified braking system: e-brake, rear foot brake and our unique "Autoguard," which automatically disengages power whenever you brake.

Ready to Roll When You Are

The Swagger 8 is lightweight, weighing just 17.5 pounds. And its sleek, compact design takes portability to new heights. Simply fold the Swagger 8 in three quick steps when you need to store or carry the scooter.

The Smoothest Ride

The Swagger 8 rolls on 5.5-inch wheels and maintenance-free rubber tires that naturally absorb micro-impacts from bumpier rides. Front coil-sprung suspension evens things out even more, turning every ride into a liquid-smooth adventure.
