

## SWISSGEAR 2769 ScanSmart Laptop Backpack - Black

Travel freely with the Swissgear 2769 ScanSmart Backpack that has built-in organization, electronics protection, and compartments for everything you need. Plus a ScanSmart feature lets you keep your laptop securely stowed, even through TSA checkpoints. With this ScanSmart Backpack, all of your electronics stay safe and secure with a padded laptop compartment, 16" computer sleeve, floating TabletSafe™ pocket that suspends your device to guard against collision, and more! A front organizer panel with multiple divider pockets for pens, cell phone, and other necessities also offers an extra electronics compartment for storing a secondary tablet or e-reader. The spacious main compartment offers more pockets, including secure, organized storage ideal for a camera and adapters, and adjustable compression straps on the bag's exterior help hold contents in place and prevent items from getting jumbled.

Accessible from the outside of the backpack, mesh side pockets offer convenient water bottle storage, a fleece-lined exterior pocket is designed to safely store sunglasses or reading glasses, and a convenient front compartment gives you the perfect place to tuck items used frequently. A handy D Ring on the front of the backpack can be used to attach extra gear for added convenience. On the move, ergonomically contoured and padded shoulder straps with adjustable thumb ring pulls are paired with a padded airflow back panel, both designed with breathable mesh fabric for exceptional carrying comfort and superior ventilation. The shoulder straps also feature light-reflective accents for added safety. Other carrying options include an ultra-resilient padded top handle that is reinforced with wire and a built-in add-a-bag panel that slides over the extension handle of your rolling luggage for secure stacking.
