

APC SurgeArrest Essential

Reliable and safe protection

The APC SurgeArrest Essential series represents the primary level of surge protection to protect your computers and household electronics. Up to 7 outlets, optional transformer block spacing and phone line protection are additional features to best support your equipment. The state of the art circuitry offers protection for sensitive electronic equipment against larger power surges and multiple surge events ensuring the reliability of protection of your equipment. All of these features and more make this our best value for surge protection - our lifetime hardware warranty and Equipment Protection Policy (EPP) guarantees it.

Catastrophic event protection safeguards against lightning, surges and spikes. Reliable thermal fusing helps ensure safe operation under all conditions protecting your equipment.

Guaranteed surge protection & lifetime warranty through multi-stage suppression circuitry ensures protection for life. If the product fails or is damaged by a surge contact us and we'll replace it for free.

Noise Filter – Reduces Electromagnetic Interference (EMI) and Radio Frequency Interference (RFI) line noise that can cause data errors and keyboard lock-ups ensuring better performance of protected equipment.

Surge Protection LED illuminates when the SurgeArrest is switched on and supplying conditioned utility power to the outlet.

Ground OK LED warns of potentially dangerous wiring problems in the wall circuit. (PE6T, PE76, PE76W)
