

R2-A75M

Alpine Next-Gen R-Series 750W Mono Amplifier

PRODUCT OVERVIEW

Experience the impressive power and exceptional performance of the Next-Generation R-Series R2-A75M Mono Amplifier, now featuring a more compact design.

PRODUCT FEATURES

Elevate Your Audio with the Alpine R2-A75M Mono Amplifier - delivering powerful 750W performance in a sleek, compact design. Built with Alpine's cutting-edge Class D Amplifier Circuit, this next-generation R-Series amp offers exceptional sound quality and efficiency, making it the perfect addition to any car audio system.

Reduced Footprint - The R2-A75M features a reduced footprint that's 15% smaller than the previous model (R-A75M), making it easier than ever to install in most vehicle applications while still getting the same powerhouse performance.

Convenience and Simplicity – The R2-A75M features intentional design choices that prioritize convenience and simplicity. All speaker connections are consolidated on one side of the device for easy access, while the amplifier controls have been relocated to the top under a removable plate, allowing for quick adjustments to gain and crossover controls. The amplifier's chassis also includes integrated mounting "feet" to streamline the installation process.
